Young, 1990 When Don Hunt's long lost twin brother is kidnapped and hidden in the depths of a mummy's ancient tomb Don returns to Egypt to fight an age old curse and save his brother Summary Record of the 582nd Meeting, United Nations Children's Fund, Executive Board, Held at Headquarters, New York, on Tuesday, 10 May 1983, 1983 *Death Gods* Ernest L. Abel, 2009-03-20 In cultures throughout human history people have believed that some part of themselves continued to exist after they died Part of that belief is that living can influence what happens to the dead in the afterlife and the dead can return from the afterlife to affect the living *Death Gods An Encyclopedia of the Rulers Evil Spirits and Geographies of the Dead* describes the many ways the afterlife especially that part of the afterlife commonly known as Hell has been characterized in myths from around the world The hundreds of entries provide readers with a guide to the afterlife as portrayed in these myths its geography its rulers its inhabitants how they got there and what happens after their arrival While the Devil is a prominent resident and ruler of the afterworld in many religions especially Christianity this book examines many other versions of Hell whether presided over by the Devil Hades or one of the many other rulers of the dead *Death Gods* provides concise encyclopedic entries on all aspects of the mythology of the afterlife The underworlds form the myths of cultures from across the globe for example Xibalba the underworld of the Quiche Maya Di Yu the underground realm of the dead in Chinese mythology the gods and demons of the afterlife the Hindu god of death and justice Yama Ahriman the evil twin of the benevolent god Ahura Mazda in Zoroastrian mythology Buso the invisible ghouls who haunt graveyards and feed on human corpses in Philippine mythology The volume includes an extensive bibliography of the most useful resources for understanding the mythology of death and the afterlife Architecture for the Dead : Cairo's Medieval Necropolis Galila El Kadi, Alain Bonnamy, 2007 The great medieval necropolis of Cairo comprising two main areas that together stretch twelve kilometers from north to south constitutes a major feature of the city's urban landscape With monumental and smaller scale mausolea dating from all eras since early medieval times and boasting some of the finest examples of Mamluk architecture not just in the city but in the region the necropolis is an unparalleled and until now largely undocumented architectural treasure trove In *Architecture for the Dead* architect Galila El Kadi and photographer Alain Bonnamy have produced a comprehensive and visually stunning survey of all areas of the necropolis Through detailed and painstaking research and remarkable photography in text maps plans and pictures they describe and illustrate the astonishing variety of architectural styles in the necropolis from Mamluk to neo Mamluk via baroque and neo pharaonic from the grandest stone buildings with their decorative domes and minarets to the humblest but elaborately decorated wooden structures The book also documents the modern settlement of the necropolis by families creating a space for the living in and among the tombs and architecture for the dead The Book of Job and the Immanent Genesis of Transcendence Davis Hankins, 2015 Recent philosophical reexaminations of sacred texts have focused almost exclusively on the Christian New

Testament and Paul in particular The Book of Job and the Immanent Genesis of Transcendence revives the enduring philosophical relevance and political urgency of the book of Job and thus contributes to the recent turn toward religion among philosophers such as Slavoj Zizek and Alain Badiou *Death, Ritual, and Belief* Douglas Davies,2002-04-30 Describing a great variety of funeral ritual from major world religions and from local traditions this book shows how cultures not only cope with corpses but also create an added value for living through the encouragement of afterlife beliefs The explosion of interest in death in recent years reflects the key theme of this book the rhetoric of death the way cultures use the most potent weapon of words to bring new power to life This new edition is one third longer than the original with new material on the death of Jesus the most theorized death ever which offers a useful case study for students There is also empirical material from contemporary recent events such as the death of Diana and an expanded section on theories of grief which will make the book more attractive to death counsellors The Resurrection of Christ Eliphalet Nott,1872
