particularly commercial and company law **Eastern European Economies** Marcus Goncalves,Erika Cornelius Smith,2016-06-27 Nearly seven decades ago six countries in Western Europe Belgium France West Germany Italy Luxembourg and the Netherlands decided to take economic cooperation to the next level The vision of the EU founding states epitomized by the Schuman Declaration in 1950 was to tie their economies so closely together that war would become impossible Robert Schuman author of the plan believed Europe could not be made all at once or according to a single plan It would have to be built through concrete achievements which first create a de facto solidarity The countries within the European Community benefited enormously from free trade and common economic policies in particular structural funds designed to foster convergence by funding infrastructure and investments in poorer regions This book examines how similar transitions and integration into the European Union are experienced in individual central and eastern European states through the use of country scans in the regional blocks of CEE SEE and CIS **The Modern World** Sarolta Takacs,Mounir Farah,2015-03-04 Designed to meet the curriculum needs for students from grades 7 to 12 this five volume encyclopedia explores world history from approximately 5000 C E to the present Organized alphabetically within geographical volumes on Africa Europe the Americas the Middle East and Southwest Asia and Asia and the Pacific entries cover the social political scientific and technological economic and cultural events and developments that shaped the modern world Each volume includes articles on history government and warfare the development of ideas and the growth of art and architecture religion and philosophy music science and technology and daily life in the civilizations covered Boxed features include Turning Point Great Lives Into the Twenty First Century and Modern Weapons Maps timelines and illustrations illuminate the text and a glossary a selected bibliography and an index in each volume round out the set *Foreign Direct Investment and Regional Development in East Central Europe and the Former Soviet Union* David Turnock,2017-11-28 With the achievement of further EU and NATO enlargement a critical political and economic lens is now focused on East Central Europe and to a lesser extent the other former communist states Economic growth in each transition state and more broadly the region pivots around the prospects for foreign direct investment FDI with decisions on where foreign investors will locate their projects now vitally important This book the first one devoted to a geographical survey concentrating specifically on FDI in the region brings together a wide range of prominent authors from the US and Europe including the late Frank Carter to provide a timely and critical examination of the importance of foreign investment It presents a detailed analysis of location patterns and their significance for regional development with particular emphasis given to the important socioeconomic and political consequences of uneven distribution of FDI across the region and its constituent countries Divided into two parts the book first deals with general overarching themes and issues before applying these to more specific country case studies The second part deals with regional studies focusing broadly on the Western Balkans and Bulgaria before looking at specific economic sectors in individual countries *Transnational Politics of the Environment* Liliana B. Andonova,2003-11-21 A

study of the effect of EU membership on Central and Eastern European environmental policy and the interplay of political incentives and industry behavior that determines policy In *Transnational Politics of the Environment* Liliana Andonova examines the effect of the European Union EU on the environmental policies of Bulgaria the Czech Republic and Poland Compliance with EU environmental regulations is especially onerous for Central and Eastern European countries because of the costs involved and the legacy of pollution from communist era industries But Andonova argues that EU integration has a positive impact on environmental policies in these countries by exerting a strong influence on the environmental interests of regulated industries With her empirical study of chemical safety and air pollution policies from 1990 to 2000 she shows that export competitive industries such as the chemical industry that would benefit from economic integration have an incentive to adopt EU norms By contrast industries such as electric utilities that primarily serve the domestic market remain opposed to EU environmental standards and must be prodded by their own governments to implement environmental protection measures These differences in domestic interests greatly influence the course of reforms and the adoption of EU standards *Transnational Politics of the Environment* challenges the current focus on intergovernmental cooperation between East and West by highlighting the roles of industries transnational norms and domestic institutions in promoting change in environmental regulation It offers a generalizable framework for understanding the politics of environmental regulation in emerging market economies and helps bridge the divide between the study of domestic and international environmental politics

SEE and CIS **The Reintegration of Eastern Europe Into the World Economy** Michael Beenstock,1991 **The Soviet Attitude to Political and Social Change in Central America, 1979-90** D. Paszyn,2000-04-07 The study analyses Soviet policy towards Nicaragua during the rule of the Sandinista National Liberation Front FSLN and towards the guerrillas fighting for political and social change in El Salvador and Guatemala It covers the period from the Sandinista victory in July 1979 until the loss of power in February 1990 This work aims to counter the tendency found in the western literature which over emphasizes the ideological and strategic factors motivating Soviet policy towards Nicaragua and Central America as a whole Security Intelligence Services in New Democracies K. Williams,D. Deletant,2000-12-18 The first account of the secret police in Eastern Europe and after 1989 this book uses a wide range of sources including archives to identify what has and has not changed since the end of communism After explaining the structure and workings of two of the area s most feared services Czechoslovakia s StB and Romania s Securitate the authors details the creation of new security intelligence institutions the development of contacts with the West and forms of democratic control **The Russian Reading Revolution** S. Lovell,2000-02-24 Of all of Soviet cultural myths none was more resilient than the belief that the USSR had the world s greatest readers This book explains how the Russian reading myth took hold in the 1920s and 1930s how it was supported by a monopolistic and homogenizing system of book production and distribution and how it was challenged in the post Stalin era first by the latent expansion and differentiation of the reading public and then more dramatically by the economic and cultural changes of the 1990s *The European Union and the United States* Steven McGuire,Michael Smith,2008-05-14 This major new text by leading authorities takes a broad interdisciplinary approach to the changing relationship between the EU and the US in the 21st century and its historical global and domestic context The authors focus on the contrast between the policy convergence and interdependence on the one hand and the intense competition on the other
