Return To Racing:

Return to Racing William Edmund Butterworth, 1971 When he tries to mix his job as advertising executive for the sponsors of the Firebrand Racing Team with his personal interest in an opposing independent driver Tony Fletcher loses his job Racing's Return from the Brink James C. Nicholson, 2025-06-24 At the dawn of the twentieth century American horse racing clung to a precarious existence A wave of anti gambling legislation threatened to destroy the industry until one extraordinary Thoroughbred gelding dubbed the Miracle Horse by the media helped steer it away from extinction In Racing's Return from the Brink James C Nicholson tells the story of Old Rosebud within the context of horse racing and national movements of the early 1900s Named for a brand of bourbon produced by his owners family distillery Old Rosebud set a track record when he won the 1914 Kentucky Derby by eight lengths After sustaining an injury in his next race Old Rosebud was sidelined for years before returning to the track ultimately recording forty wins in a career that lasted until 1922 Meanwhile opportune promotion from certain pillars of the Thoroughbred racing community sold policymakers and the public on the notion that horse racing was vital to US security at a time when the Mexican Revolution and World War I were still fresh in Americans minds Though his fame has since faded Old Rosebud was one of the most talented racehorses of his era and was once among the most recognizable names in US sports Racing's Return from the Brink is the first book to examine this critical period in American Thoroughbred racing history and one of the sport's forgotten superstars Racing Back to Vietnam John Pendergrass, 2017-10-24 2018 GOLD MEDAL WINNER MILITARY WRITERS SOCIETY OF AMERICA This award winning Vietnam War memoir from an Air Force flight surgeon is a superb first hand account of combat flying Dan Hampton New York Times bestselling author of *Viper Pilot* In 1971 United States Air Force flight surgeon John Pendergrass spent much of his time in the backseat of an F 4 Phantom racing across the skies of Vietnam Forty five years later he boards an altogether different type of aircraft and heads back to Vietnam for an altogether different kind of race an IRONMAN triathlon A veteran of IRONMAN triathlons on six continents Racing Back to Vietnam follows John's year in combat and his return to Vietnam revisiting a country that for him is bound up in history memory and emotion A memoir of war as seen from the skies and a reflection on life's high adventure John tries to reconcile the Vietnam he saw from the backseat of a fighter jet with today's modern Vietnam Thought provoking heartfelt and gripping Racing Back to Vietnam is one man's trip back through time on a journey of rediscovery **The Racehorse** Pieter H.L Ramzan, 2014-08-08 Written by one of the UK's leading equine veterinary practitioners this textbook is dedicated wholly to the veterinary management of the racehorse The Racehorse A Veterinary Manual brings together all the major orthopaedic and non orthopaedic conditions likely to be encountered in racehorse practice and concisely details state of the art best practice for diagnosis and management The book spans the full range of fields relevant to the clinician including topics as diverse as rehabilitation respiratory medicine exercise physiology pre purchase and herd health Well illustrated and comprehensive it succeeds in

The spectre of a race to the bottom is increasingly prominent in debates about globalization and also within federal systems where the mobility of both capital and individuals prompts fears of interjurisdictional competition with respect to taxes and environmental and welfare standards While there has been no shortage of either political rhetoric or academic theorizing on this subject empirical studies have been in shorter supply This volume seeks to fill that gap by asking Are Canadian provinces engaged in a race to the bottom and if so what are the consequences The contributors apply insights from economics and political science to several policy fields What emerges is a theoretical and empirical picture of interprovincial competition that shows it to be more complex than the popular image of a race to the bottom and that also contradicts predictions of an inexorable downward spiral This timely practical volume will be of interest to public policy practitioners as well as to students and scholars of economics and political science *Thoroughbred horse racing jockeys and workers* United States.
