Nature's Return Mark Kinzer,2017-06-15 From exploitation to preservation the complex history of one of the Southeast s most important natural areas and South Carolina s only national park Located at the confluence of the Congaree and Wateree Rivers in central South Carolina Congaree National Park protects the nation s largest intact expanse of old growth bottomland hardwood forest Modern visitors to the park enjoy a pristine landscape that seems ancient and untouched by human hands but in truth its history is far different In Nature s Return Mark Kinzer examines the successive waves of inhabitants visitors and landowners of this region by synthesizing information from property and census records studies of forest succession tree ring analyses slave narratives and historical news accounts Established in 1976 Congaree National Park contains within its boundaries nearly twenty seven thousand acres of protected uplands floodplains and swamps Once exploited by humans for farming cattle grazing plantation agriculture and logging the park area is now used gently for recreation and conservation Although the impact of farming grazing and logging in the park was far less extensive than in other river swamps across the Southeast it is still evident to those who know where to look Cultivated in corn and cotton during the nineteenth century the land became the site of extensive logging operations soon after the Civil War a practice that continued intermittently into the late twentieth century From burning canebrakes to clearing fields and logging trees inhabitants of the lower Congaree valley have modified the floodplain environment both to ensure their survival and over time to generate wealth In this they behaved no differently than people living along other major rivers in the South Atlantic Coastal Plain Today Congaree National Park is a forest of vast flats and winding sloughs where champion trees dot the landscape Indeed its history of human use and conservation make it a valuable laboratory for the study not only of flora and fauna but also of anthropology and modern history As the impact of human disturbance fades the Congaree s stature as one of the most important natural areas in the eastern United States only continues to grow *Journals of the House of Commons* Great Britain House of Commons,1830 **Report** New York (N.Y.). Law Department,1901 **The Progress of America from the Discovery by Columbus to the Year 1846** John MacGregor,1847 **Geographical and statistical** John Macgregor,1847 The Progress of America John Macgregor,1847 **The Progress of America ...** John Macgregor (Secretary to the Board of Trade.),1847 Parliamentary Papers Great Britain.
