Pricing or benchmarking is a process of evaluating the performance of a financial company s products and services or systems against other businesses considered to be at the top of their field by applying a measurement of best in performance This book includes contributions from the leading global experts in the field who tackle topics such as whether the Islamic financial system has been dependent on the LIBOR EURIBOR in its benchmarking exercises to date and thus whether it will be affected negatively by the predicted non existence of the LIBOR EURIBOR from 2021 onwards They also address the question of whether the Islamic financial system requires benchmarking of its products and services and consider the emergence of Shar ah justified benchmarking in today s Islamic financial system Additionally they look at how benchmarking formulas should be adapted to ensure the satisfaction of customers within the principles of Maqasid al Shar ah It takes a legal and institutional approach to the subject which readers will find particularly valuable as there are various forms of Islamic finance institutions that do not conform to established models in the finance industry Furthermore there are emerging business models that will benefit from this line of investigation This book offers a timely analysis of these issues

and redresses the existing misconceptions and misinterpretations pertaining to benchmarking in an Islamic finance context and as such provides guidance and strategies for future directions It will appeal to researchers of Islamic banking finance and insurance as well as practitioners particularly standard setting bodies regulators and policy makers

Global Financial Stability Report, April 2014 International Monetary Fund, 2014-04-09

The April 2014 Global Financial Stability Report finds that despite much progress the global financial system remains in a transitional period with stability conditions far from normal Advanced and emerging market economies alike need to make a successful shift from liquidity to growth driven markets which will require a number of elements including a normalization of U S monetary policy financial rebalancing in emerging markets further progress in the euro area integration and continued implementation of Abenomics in Japan This report also examines how changes in the investor base and financial deepening affect emerging market economies as well as looks at the issue of banks considered too important to fail providing new estimates of the implicit funding subsidy these banks receive
