T&T Clark Handbook of Asian American Biblical Hermeneutics Uriah Y. Kim, Seung Ai Yang, 2019-05-30. The first reference resource on how Asian Americans are currently reading and interpreting the Bible, this volume also serves a valuable role in both developing and disseminating what can be termed as Asian American biblical hermeneutics. The volume works from the important background that Asian Americans are the fastest growing ethnic racial minority population in the USA and that 42% of this group identifies as Christian. This provides a useful starting point from which to examine what may be distinctive about Asian American approaches to the Bible. Part 1 of the Handbook describes six major ethnic groups that make up 85% of Asian population by country of origin: China, Philippines, Indian Subcontinent, Vietnam, Korea, Japan, and outlines the specific concerns each group has when its members read the Bible. Part 2 of the Handbook examines major critical methods in biblical interpretation and suggests adjustments that may be helpful for Asian Americans to make when they are interpreting the Bible. Finally, Part 3 provides 25 interpretations by Asian American biblical scholars on specific texts in the Bible using what they consider to be Asian American hermeneutics. Taken together, the Handbook interprets the Bible both with and for the Asian American communities.

Cambodian Buddhism in the United States Carol A. Mortland, 2017-07-25. The first comprehensive anthropological description of the Khmer Buddhism practiced by Cambodian

refugees in the United States over the past four decades

Cambodian Buddhism in the United States is the first comprehensive anthropological study of Khmer Buddhism as practiced by Khmer refugees in the United States. Based on research conducted at Khmer temples and sites throughout the country over a period of three and a half decades, Carol A. Mortland uses participant observation, open-ended interviews, life histories, and dialogues with Khmer monks and laypeople to explore the everyday practice of Khmer religion, including spirit beliefs and healing rituals. This ethnography is enriched and supplemented by the use of historical accounts, reports, memoirs, unpublished life histories, and family memorabilia painstakingly preserved by refugees. Mortland also traces the changes that Cambodians have made to religion as they struggle with the challenges of living in a new country, learning English, and supporting themselves. The beliefs and practices of Khmer Muslims and Khmer Christians in the United States are also reviewed.

Creating a Buddhist Community Jiemin Bao, 2015-04-10

The Wat Thai Buddhist Temple in Silicon Valley was founded in 1983 by a group of predominantly middle-class men and women with different ethnic and racial identities. The temple, which functions as a religious, social, economic, educational, and cultural hub, has become a place for the community members to engage in spiritual and cultural practices. In *Creating a Buddhist Community*, Jiemin Bao shows how the Wat Thai participants practice Buddhism and rework gender relationships in the course of organizing temple space, teaching meditation, schooling children in Thai language and culture, merit-making, fundraising, and celebrating festivals. Bao's detailed account of the process of creating an inclusive temple community with Thai immigrants as the majority helps to deconstruct the exoticized view of Buddhism in American culture. *Creating a Buddhist Community* also explores Wat Thai's identification with both the United States and Thailand and how this transnational perspective reimagines and reterritorializes what is called American Buddhism.

The encyclopedia's three comprehensive volumes cover an extraordinarily wide range of Asian American cultural and ethnic groups, as well as mixed-race and mixed-heritage Asian Americans. Each group section is introduced by a historical overview essay, followed by short entries on topics such as ghosts and spirits, clothes and jewelry, arts and crafts, home decorations, family and community, religious practices, rituals, holidays, music, foodways, literature, traditional healing and medicine, and much, much more. Topics and theories are examined from cross-cultural and interdisciplinary perspectives to add to the value of the work.
