The Horror Sensorium Angela Ndalanian, 2012-10-03 Horror films, books, and video games engage their audiences through combinations of storytelling practices, emotional experiences, cognitive responses, and physicality that ignite the sensorium, the sensory mechanics of the body and the intellectual and cognitive functions connected to them. Through analyses of various mediums, this volume explores how the horror genre affects the mind and body of the spectator. Works explored include the films *28 Days Later* and *Death Proof*, the video games *Resident Evil 4* and *Doom 3*, the theme park ride *The Revenge of the Mummy*, transmedia experiences associated with *The Dark Knight* and *True Blood*, and paranormal romance novels featuring Anita Blake and Sookie Stackhouse. By examining how these diverse media generate medium-specific corporeal and sensory responses, it reveals how the sensorium interweaves sensory and intellectual encounters to produce powerful systems of perception.

Freud and the Imaginative World Harry Trosman, 2013-05-13 The current resurgence of interest in the scientific origins of psychoanalysis has overshadowed the

artistic and literary models to which Freud had recourse time and again in the development and presentation of his theories. It is this neglected aesthetic wellspring of psychoanalysis to which Harry Trosman calls attention in *Freud and the Imaginative World*. Trosman enriches our understanding of psychoanalysis by demonstrating how Freud's cultural and humanistic commitments guided his pursuit of a science of mind. Toward this end he undertakes a number of challenging tasks: to situate Freud in the formative culture of his time; to adumbrate the human concerns that informed his work in the natural sciences; and to delineate the multiple modes of influence that fostered his creativity. The second part of the book moves from the cultural sources of Freud's creativity to the psychoanalytic contribution to our understanding of art and literature. Here Trosman focuses on the consumer of art and literature, tracing psychoanalytic perspectives on aesthetic responsiveness from Freud to the present. Trosman's critical review of the *da Vinci* and *Hamlet* literature illustrates the limitations as well as the explanatory potential of the two principal genres of applied psychoanalytic work and leads naturally to the reflective estimation of psychoanalysis and creativity that concludes the work. Throughout, Trosman is a well-informed and engaging guide both to the imaginative Freud and to the abundant literature on psychoanalysis and the arts. He documents Freud's continuing indebtedness to the literary models that nourished his theorizing and gave shape to his narrative clinical expositions, even as he takes pains to show how psychoanalysis has in many ways outgrown Freud's own reductive explanations of aesthetic phenomena. A skillfully crafted overview, *Freud and the Imaginative World* is an exemplary introduction to a crucial aspect of the Freudian legacy.

Romantic Prose Fiction Gerald Ernest Paul Gillespie, Manfred Engel, Bernard Dieterle, 2008. In this volume a team of three dozen international experts presents a fresh picture of literary prose fiction in the Romantic age, seen from cross-cultural and interdisciplinary perspectives. The work treats the appearance of major themes in characteristically Romantic versions; the power of Romantic discourse to reshape imaginative writing; and a series of crucial reactions to the impact of Romanticism on cultural life down to the present, both in Europe and in the New World. Through its combination of chapters on thematic, generic, and discursive features, *Romantic Prose Fiction* achieves a unique theoretical stance by considering the opinions of primary Romantics and their successors not as guiding truths by which to define the permanent meaning of Romanticism, but as data of cultural history that shed important light on an evolving civilization.

SPECIAL OFFER 30% discount for a complete set. Order 5 vols. The *Romanticism* series in the *Comparative History of Literatures in European Languages* is the result of a remarkable international collaboration. The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World, but also the ways in which the affected literatures, in reaction to Romanticism, have redefined themselves into Modernism. A glance at the index of each volume quickly reveals the extraordinary richness of the series' total contents. *Romantic Irony* sets the broader experimental parameters of comparison by

concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams Romantic Drama traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd Romantic Poetry demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments Nonfictional Romantic Prose assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self commentary in theoretical statements on the arts society life the sciences and more Nor are the discursive dimensions of imaginative literature neglected in the closing volume Romantic Prose Fiction where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to Romantic Prose Fiction explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age *Romantic Women Writers Reviewed, Part I*
