Gorgon's Mask Lewis A. Lawson, 2005 The thesis of A Gorgon s mask The Mother in Thomas Mann s Fiction depends upon three psychoanalytic concepts Freud s early work on the relationship between the infant and its mother and on the psychology of artistic creation Annie Reich s analysis of the grotesque comic sublimation and Edmund Bergler s analysis of writer s block Mann s crisis of sexual anxiety in late adolescence is presented as the defining moment for his entire artistic life In the throes of that crisis he included a sketch of a female as Gorgon in a book that would not escape his mother s notice But to defend himself from being overcome by the Gorgon mother s stare he employed the grotesque comic sublimation hiding the mother figure behind fictional characters physically attractive but psychologically repellent all the while couching his fiction in an ironic tone that evoked humor however lacking in humor the subtext might be In this manner he could deny to himself that the mother figure always lurked in his work and by that denial deny that he was a victim of oral regression For as Edmund Bergler argues the creative writer who acknowledges his oral dependency will inevitably succumb to writer s block Mann s late work reveals that his defense against the Gorgon is crumbling In Doctor Faustus Mann portrays Adrian Leverk hn as ultimately the victim of oral regression but the fact that Mann was able to complete the novel despite severe physical illness and psychological distress demonstrates that he himself was still holding writer s block at bay In Confessions of Felix Krull Confidence Man a narrative that he had abandoned forty years before Mann was finally forced to acknowledge that he was depleted of creative vitality but not of his capacity for irony brilliantly couching the victorious return of the repressed in ambiguity This study will be of interest to general readers who enjoy Mann s narrative art to students of Mann s work especially its psychological and mythological aspects and to students of the psychology of artistic creativity

Fashion, Agency, and Empowerment Annette Lynch, Katalin Medvedev, 2018-11-29 Fashion has always been strongly linked with the politics of gender and equality In this global and interdisciplinary collection leading authors explore the relationships between the dressed body fashion sex and power with an emphasis on the role of dress in both reinforcing and challenging social norms Covering a range of geographic and social contexts the book explores the role of fashion in empowering both individuals and groups to create transformation and change Taking us from the performance of black dandyism through stylized hats to the use of challenging dance forms and male inspired dress by female South African dancers to express independence and equality to ways in which recent Bond Girls have challenged traditional gender binaries the book provides a crucial entry point into discussions of fashion as an empowerment strategy Fashion Agency and

Empowerment encourages the reader to critically examine the cultural and social impact of sexual objectification as well as to consider personal and shared narratives of self objectification and repression With chapters ranging from the iconic self fashioning of Princess Diana to a discussion of sex power and cultural constructions of masculinity Fashion Agency and Empowerment provides crucial insights into global fashion political structures and social life **DS2** John Danen, DS2 is the greatly expanded and improved version of the book Dark Seduction It provides a better explanation of what dark seduction is the different types of dark seduction that exist discusses interactions where dark seduction is applied and ultimately expands and clarifies all of the above It has 36 additional chapters which amount to an hour and a half of additional material Dark Seduction 2 0 is a better version of Dark Seduction **The Decameron** A. Dominique Russell,2010-03-25 Art cinema has always had an aura of the erotic with the term being at times a euphemism for European films that were more explicit than their American counterparts This focus on sexuality whether buried or explicit has meant a recurrence of the theme of rape nearly as ubiquitous as in mainstream film This anthology explores the representation of rape in art cinema Its aim is to highlight the prevalence and multiple functions of rape in this prestigious mode of filmmaking as well as to question the meaning of its ubiquity and versatility Rape in Art Cinema takes an interdisciplinary approach bringing together recognized figures such as historian Joanna Burke philosopher Ann J Cahill and film scholars Martin Barker Tanya Horeck and Scott Mackenzie alongside emerging voices It is international in scope with contributors from Canada the U S and Britain coming together to investigate the representation of rape in some of cinema s most cherished films *The Internal Triangle* Lucy Holmes,2008 This book presents the first new theory of female

development based on drive theory since Helene Deutsch s *Psychology of Women* in 1945 Holmes posits an internal triangle an intrapsychic structure unique to female development Consisting of mother and father introjects in relation to the self it is set up on a fantasy level to help girls separate from and gain control over early objects In this way it functions for the girl like the penis does for the boy Integration and realignment of the triangle Holmes argues occur at adolescence during pregnancy and childbirth at menopause and even in old age The Impossibility of Knowing Jackie Gerrard,2018-05-08 This is a book that assembles and integrates the author s clinical work and thinking over the many years of her working life Part 1 focuses on patients with specific types of psychopathology and explores particular difficulties in technique and thinking Part 2 addresses the issues of love hate and the erotic In Part 3 specific challenges to the psychotherapeutic frame are demonstrated in chapters on enactments and on work with an absent patient Richly illustrated throughout with clinical vignettes above all the author stresses the importance of the enquiring mind and the struggle not to know but to be ever ready to not know and to explore The book should be of interest to qualified practitioners to those who are training in psychodynamic or psychoanalytic work and to anyone who has an interest in psychoanalysis and the impossibility of knowing
