Ski Films Bryan Senn,2022-05-02 Skiing in movies like the sport itself grew more prevalent beginning in the 1930s when it was a pastime of the elite with depictions reflecting changes in technique fashion and social climate World War II saw skiing featured in a dozen films dealing with that conflict Fueled by postwar prosperity the sport exploded in the 1950s filmmakers followed suit using scenes on snow covered slopes for panoramic beauty and the thrill of the chase Through the free spirited 1960s and 1970s the downhill lifestyle shushed into everything from spy thrillers to beach party romps The extreme sports era of the 1980s and 1990s brought snowboarding to the big screen This first ever critical history of skiing in film chronicles a century of alpine cinema with production information and stories and quotes from directors actors and stuntmen

The Sexual Paradox Susan Pinker,2008 After four decades of eradicating gender barriers at work and in public life why do men still dominate business politics and the most highly paid jobs Why do high achieving women opt out

of successful careers Psychologist Susan Pinker explores the illuminating answers to these questions in her groundbreaking first book *In The Sexual Paradox* Susan Pinker takes a hard look at how fundamental sex differences continue to play out in the workplace By comparing the lives of fragile boys and promising girls Pinker turns several assumptions upside down that the sexes are biologically equivalent that smarts are all it takes to succeed that men and women have identical goals If most children with problems are boys then why do many of them as adults overcome early obstacles while rafts of competent even gifted women choose jobs that pay less or decide to opt out at pivotal moments in their careers Weaving interviews with men and women into the most recent discoveries in psychology neuroscience and economics Pinker walks the reader through these minefields Are men the more fragile sex Which sex is the happiest at work What does neuroscience tell us about ambition Why do some male school drop outs earn more than the bright motivated girls who sat beside them in third grade Pinker argues that men and women are not clones and that gender discrimination is just one part of the persistent gender gap A work world that is satisfying to us all will recognize sex differences not ignore them or insist that we all be the same
