**The Revenge of Thomas Eakins** Sidney Kirkpatrick, 2006-03-28 Thomas Eakins was misunderstood in life his brilliant work earned little acclaim and hidden demons tortured and drove him Yet the portraits he painted more than a century ago captivate us today and he is now widely acclaimed as the finest portrait painter our nation has ever produced This book recounts the artist s life in fascinating detail drawing on a treasure trove of Eakins family correspondence and papers that have only recently been discovered Never before has Thomas Eakins s story been told with such drama clarity and accuracy Sidney Kirkpatrick sets the painter s life and art in the wider context of the changing world he devoted himself to portraying and he also addresses the artist s private life the contradictory impulses obsessions and possible psychological illness that fired his work Kirkpatrick underscores Eakins s unflinching integrity as an artist and discloses how his profound appreciation of the beauty of the human form was both the source of his greatness and ultimately of his undoing Nevertheless the author observes Eakins has had his revenge inspiring a new generation of realist painters and gaining the recognition that eluded him in life *The Revenge of Thomas Eakins* Sidney D. **Photography's Materialities** Geoff Bender, Rasmus R. Simonsen, 2021-05-17 There is little dispute that photography is a material practice and that the photograph itself is ineluctably material And yet matter material and materiality have proven to be remarkably elusive terms of inquiry frequently producing studies that are disparate in scope sharing seemingly little common ground Although the wide methodological range of materialist study can be dizzying it is this book s contention that that multiplicity is also the field s greatest asset keeping materialist inquiry enduringly vibrant provided that varying methods are in close enough proximity to converse Photography s Materialities orchestrates one such conversation Juxtaposing the insights of theorists like Lacan Benjamin and Latour beside close studies of crime spirit and composite photography among others this collection aims for a productive synergy one capacious enough to span transatlantic spaces over the long nineteenth century Contributors Kris Belden Adams University of Mississippi Maura Coughlin Bryant University David LaRocca independent scholar Jacob W Lewis University of Rochester Mary Marchand Goucher College Zachary Tavlin Art Institute of Chicago Christa Holm Vogelius University of Copenhagen **Revenge of the Philistines** Hilton Kramer, 2007-09-12 Analyzes the works of a variety of modern artists including Edward Hopper Louise Nevelson Chuck Close and Julian Schnabel **A Greene Country Towne** Alan C. **Tasting Freedom** Daniel R. Biddle, Murray Dubin, 2010-08-13 The life and times of the extraordinary Octavius Catto and the first civil rights movement in America

Signs of Grace Kristin Schwain, 2008 Religious imagery was ubiquitous in late nineteenth century American life department stores schoolbooks postcards and popular magazines all featured elements of Christian visual culture Such imagery was not limited to commercial and religious artifacts however for it also found its way into contemporary fine art In *Signs of Grace* Kristin Schwain looks anew at the explicitly religious work of four prominent artists in this period Thomas Eakins F Holland Day Abbott Handerson Thayer and Henry Ossawa Tanner and argues that art and religion performed analogous functions within American culture Fully expressing the concerns and values of turn of the century Americans this artwork depicted religious figures and encouraged the beholders' communion with them Describing how these artists drew on their religious beliefs and practices as well as how beholders looked to art to provide a transcendent experience Schwain explores how a modern conception of faith as an individual relationship with the divine facilitated this sanctified relationship between art and viewer This stress on the interior and subjective experience of religion accentuated the artist's efforts to engage beholders personally with works of art how better to fix the viewer's attention than to hold out the promise of salvation Schwain shows that while these new visual practices emphasized individual encounters

with art objects they also carried profound social implications By negotiating changes in religious belief by aestheticizing faith in a new particularly American manner these practices contributed to evolving debates about art ethnicity sexuality and gender

**The Portrait's Subject** Sarah Blackwood,2019-10-22 Between the invention of photography in 1839 and the end of the nineteenth century portraiture became one of the most popular and common art forms in the United States In *The Portrait's Subject* Sarah Blackwood tells a wide ranging story about how images of human surfaces came to signal expressions of human depth during this era in paintings photographs and illustrations as well as in literary and cultural representations of portrait making and viewing Combining visual theory literary close reading and archival research Blackwood examines portraiture's changing symbolic and aesthetic practices from daguerreotype to X ray Portraiture the book argues was a provocative art form used by writers artists and early psychologists to imagine selfhood as hidden deep and in need of revelation ideas that were then taken up by the developing discipline of psychology *The Portrait's Subject* reveals the underappreciated connections between portraiture's representations of the material human body and developing modern ideas about the human mind It encouraged figures like Frederick Douglass Nathaniel Hawthorne Thomas Eakins Harriet Jacobs and Henry James to reimagine how we might see inner life offering a rich array of metaphors and aesthetic approaches that helped reconfigure the relationship between body and mind exterior and interior In the end Blackwood shows how nineteenth century psychological discourse developed as much through aesthetic fabulation as through scientific experimentation
