Rever Sous Le Iiiie Reich:

Dreams and atrocity Emily-Rose Baker,Diane Otosaka,2023-03-07 This volume explores the relationship between oneiric and historical episodes of atrocity as depicted in transnational twentieth and twenty first century art film literature and theatre Examining the political and aesthetic power harnessed by dreams in increasingly dark times it takes as its starting point the overlooked significance granted to the oneiric beyond Freudian psychoanalysis By reading the oneiric within variously known cultural texts including Holocaust fiction world cinema Bronx theatre surrealist art and two collections of wartime dream transcriptions the volume also offers a renewed perspective on modern and contemporary trauma In so doing it demonstrates the relevance of the oneiric beyond the interpretative framework of psychoanalysis as an aesthetic and political tool with which to alert us and respond to the violence of our contemporary world

The Sociological Interpretation of Dreams

Bernard Lahire,2020-07-09 For Freud dreams were the royal road to the unconscious through the process of interpretation the manifest and sometimes bewildering content of dreams can be traced back to the unconscious representations underlying it But can we understand dreams in another way by considering how the unconscious is structured by our social experiences This is hypothesis that underlies this highly original book by Bernard Lahire who argues that dreams can be interpreted sociologically by seeing the dream as a nocturnal form of self to self communication Lahire rejects Freud s view that the manifest dream content is the result of a process of censorship as a form of self to self communication the dream is the symbolic arena most completely freed from all forms of censorship In Lahire s view the dream is a message which can be understood only by relating it to the social world of the dreamer and in particular to the problems that concern him or her during waking life As a form of self to self communication the dream is an intimate private diary providing us with the elements of a profound and subtle understanding of who and what we are Studying dreams enables us to discover our most deep seated and hidden preoccupations and to understand the thought processes that operate within us beyond the reach of our volition The study of dreams and dreaming has largely been the preserve of psychoanalysis psychology and neuroscience By showing how dreams are connected to the lived experience of individuals in the social world this highly original book puts dreams and dreaming at the heart of the social sciences It will be of great value to students and scholars in sociology psychology and psychoanalysis and to anyone interested in the nature and meaning of dreams

Cursed Legacy Frederic Spotts,2016-04-26 Son of the famous Thomas Mann homosexual drug addicted and forced to flee from his fatherland the gifted writer Klaus Mann s comparatively short life was as artistically productive as it was devastatingly dislocated Best known today as the author of Mephisto the literary enfant terrible of the Weimar era produced seven novels a dozen plays four biographies and three autobiographies among them the first works in Germany to tackle gay issues amidst a prodigious artistic output He was among the first to take up his pen against the Nazis as a reward for which he was blacklisted and denounced as a dangerous half Jew his books burnt in public squares around

Germany and his citizenship revoked Having served with the U S military in Italy he was nevertheless undone by anti Communist fanatics in Cold War era America and Germany dying in France though not as all other books contend by his own hand at age forty two Powerful revealing and compulsively readable this first English language biography of Klaus Mann charts the effects of reactionary politics on art and literature and tells the moving story of a supreme talent destroyed by personal circumstance and the seismic events of the twentieth century

On the Death of Jews Nadine Fresco,2021-03-10 A meticulous and shattering investigation of eight horrific pictures L Arche In December 1941 on a shore near the Latvian city of Liepaja Nazi death squads the Einsatzgruppen and local collaborators murdered in three days more than 2 700 Jews The majority were women and children most men having already been shot during the summer The perpetrators took pictures of the December killings These pictures are among the rare photographs from the first period of the extermination during which over 800 000 Jews from the Baltic to the Black Sea were shot to death By showing the importance of photography in understanding persecution Nadine Fresco offers a powerful

meditation on these images while confronting the essential questions of testimony and guilt From the forward by Dorota Glowackay Straddling the boundary between historical inquiry and personal reflection this extraordinary text unfolds as a series of encounters with eponymous Holocaust photographs Although only a small number of photographs are reproduced here Fresco provides evocative descriptions of many well known images synagogues and Torah scrolls burning on the night of Kristallnacht deportations to the ghettos and the camps and finally mass executions in the killing fields of Eastern Europe The unique set of photographs included in On the Death of Jews shows groups of women and children from Liepaja Liepāja shortly before they were killed in December 1941 in the dunes of Shkede k de on the Baltic Sea In the last photograph of the series we see the victims bodies tumbling into the pit Integrating Experiences Brady Wagoner,Nandita Chaudhary,Pernille Hviid,2015-04-01 Cultural Psychology studies how persons and social cultural worlds mutually constitute one another It is premised on the idea that culture is within us in every moment in which we live our human lives in the meaningful worlds we have created ourselves In this perspective encounters with others fundamentally transform the way we understand ourselves With the increase of globalization and multicultural exchanges cultural psychology becomes the psychological science for the 21st century No longer can we ignore questions about how our cultural traditions practices beliefs artifacts and other people constitute how we approach understand imagine and remember the world The Niels Bohr Professorship Lectures in Cultural Psychology series aims to highlight and develop new ideas that advance our understanding of these issues This second volume in the series features an address by Tania Zittoun and Alex Gillespie which is followed by commentary chapters and their response to them In their lecture Zittoun and Gillespie propose a model of the relation between mind and society specifically the way in which individuals develop and gain agency through society They theorise and demonstrate a two way interaction bodies moving through society accumulate differentiated experiences which become integrated at the level of mind enabling psychological movement between experiences which in turn mediates how people move through society The model is illustrated with a longitudinal analysis of diaries written by a woman leading up to and through the Second World War Commentators further elaborate on the issues of 1 context and history 2 experience time and movement and 3 methodologies for cultural psychology La interpretación sociológica de los sueños Bernard Lahire,2023-11-24 Históricamente los sueños han sido objeto de estudio de todas las ramas posibles de la psicología del psicoanálisis a la psicología cognitiva pasando por la neuropsiquiatría La sociología en cambio ha sido una de las grandes ausentes en el análisis de esta experiencia humana a un tiempo seductora e inquietante Con La interpretación sociológica de los sueños Bernard Lahire busca llenar este vacío y sentar las bases de lo que él mismo llama una fórmula general de interpretación de los sueños Para ello Lahire no solo señala los errores y las limitaciones del psicoanálisis y retoma los avances científicos alcanzados a partir de la aparición de La interpretación de los sueños sino que además entra en la lógica misma de la producción de los sueños y los relaciona con las experiencias que los individuos tienen en la realidad social De esta manera Lahire

extiende el campo de estudio de la sociología a una hasta ahora terra incognita y abona a la transformación y al avance de esta disciplina social al darle nuevos objetivos y al dotarle de nuevas herramientas de trabajo **Night and Fog** Sylvie Lindeperg, 2014 François Truffaut called *Night and Fog* the greatest film ever made. But when Alain Resnais finished his documentary with its depiction of Nazi atrocities the resistance of the French censors was fierce. A mere decade had passed since the end of the war and the French public was unprepared to confront the horrors shown in the film let alone the possibility of French complicity. In fact it would be through *Night and Fog* that many viewers first learned as film critic Serge Daney put it that the worst had only just taken place. An engrossing account of the genesis production and legacy of Resnais's incomparable film this book documents in extraordinary detail how a film that began as a cinematic spin off of an educational exhibition on resistance liberation and deportation went on to become a significant step in the building of a collective consciousness of the tragedy of World War II. Sylvie Lindeperg frames her investigation with the story of historian Olga Wormser Migot who played an integral role in the research and writing of *Night and Fog* and whose slight error on one point gave purchase to the film's detractors and revisionists and Holocaust deniers. Lindeperg follows the travails of Resnais, Wormser, Migot and their collaborators in a pan European search for footage photographs and other documentation. She uncovers creative use of liberation footage to stand in for daily life of the camps featured to such shocking effect in the film a finding that raises hotly debated questions about reenactment and witnessing even as it enhances our understanding of the film's provenance and impact. A microhistory of a film that altered the culture it reflected *Night and Fog* offers a unique interpretation of the interworking of biography history politics and film in one epoch making cultural moment.

Das nächtliche Wir Dominic Angeloch, Marie Guthmüller, Hans-Walter Schmidt-Hannisa, Kerstin Thomas, 2024-11-27 Zur Veränderung von Traumwissenschaft und Traumkunst seit 1950 angesichts der Verwissenschaftlichung von Traum und Virtual Reality das trümmende Selbst zwischen Individuum und Kollektiv Stand im Zentrum der Psychoanalyse seit Beginn des 20. Jahrhunderts die sprachlich vermittelte Deutung individueller Traume so tritt in den Schlaflaboren der Neurowissenschaften aber auch in den Traumstatistiken der experimentellen Psychologie das Interesse am individuellen Traum deutlich zurck. Seit dem Aufkommen hochimmersiver Medien wie Computerspielen und Virtual Reality können technisch erzeugte alternative Welten zugleich mit ähnlicher Intensität erlebt werden wie Traume. In dieser neuen Konstellation setzt sich der produktive Austauschprozess zwischen Wissenschaften und Künsten fort wie er in den ersten beiden Banden dieser Reihe unter dem Titel *Das nachtliche Selbst für das Jahrhundert der Psychologie 1850–1950* beschrieben wurde. Dabei lässt sich in theoretischen Ansätzen vor allem in Literatur und Film in Videoinstallationen und VR Anwendungen beobachten dass nun zunehmend auch berindividuelle und kollektive Aspekte des Traums in den Blick rücken. Die Traumkultur der Gegenwart scheint so im Zeichen einer Verschiebung vom nachtlichen Selbst zum nachtlichen Wir zu stehen. Die Traumkultur der Gegenwart scheint so im Zeichen einer Verschiebung vom nachtlichen Selbst zum nachtlichen Wir zu stehen.
