Reverence For The Soul:

Reverence for the Soul Richard Schain, 2001-05-15 This is a philosophical work dressed out in journal form It requires readers receptive to a point of view transcending the current intellectually dominant scientific monism The writer develops his conviction that Homo sapiens needs and wants to develop his metaphysical self the soul in traditional terminology The contemporary scientific world view is predicated on an opposite viewpoint which is that there is no such thing as a soul there is only a network of neurons within the brain resulting in physical activities affecting a physical world and creating a physical self Amidst the description of the writer's conflicts with this prevailing world view are interspersed discussions about brain mind relationships about the question of the soul about dualism versus monism and the nature of the real world about purposes in writing and about personal values arising from all these matters Reverence for one's own soul is the ultimate value arrived at by the writer This is not a religious work it may in fact be regarded as anti religious even blasphemous by those disposed to such judgements Nevertheless the writer believes in the value of an intellectual conscience and is not inclined to offend it through deference to superannuated or self serving societal entities offering opiates for metaphysical needs It is well known by now that all genuine philosophy represents the personality and experiences of a philosopher however much it may be covered over with a scholarly style The philosopher wishing to pose in the white coat of the scientific investigator is a ridiculous figure who should be confined to circus entertainment Meaningful value oriented philosophy and what other kind is there is subjective in nature albeit requiring knowledge experience and intellect in its formulation An unpublished monograph of the writer available to those interested is entitled The Subjective Will to Metaphysical Existence This title makes explicit what is presented in more personalized and literary form in Reverence for the Soul

The Human Spirit Rudolf Steiner, 2016-03-21 To live in truth to wish to be true in one's whole being will be the watchword of the future Rudolf Steiner In the midst of the lies and propaganda of the Great War Rudolf Steiner struggled to convey the truths of the human spirit The truth asserted by partisan interests he suggested was invariably tinged with dishonesty whether the outright mendacities of politicians and rulers Steiner refers here to the machinations of the British Empire or the manipulative techniques of secret societies intent on securing and shoring up their own power In relation to the latter Rudolf Steiner highlights how whilst we tend to reject overt authority nowadays we succumb more easily to its covert forms in the received wisdoms we often unthinkingly adopt In seeking to help his audiences discern the spiritual struggle unfolding behind outer events Steiner describes how the intrigues that led to the war were based on intentional deceit which served hidden aims of which the public was mostly kept in the dark In contrast to the divisiveness of untruth truth is based on a realization of the interconnectedness of all things of interdependence between the realms below and above us The I upon which all evolution on earth is predicated signifies an overcoming of egotism and narrow interests together with the imaginative embrace of all beings Its spiritual reality that descends to us from non-material worlds and towards which we evolve through earthly lives is the epitome of truth Amidst many other topics covered here Rudolf Steiner speaks about The Qur'an and the Mystery of Golgotha Henry VIII Thomas More and the Church of England the Jesuits and their State in Paraguay Freemasons' esoteric symbols and handshakes Madame Blavatsky's occult

Gps for the Soul Steven Harrison, 2014-11-26 A Scripturally based Guide to Your Spiritual Health and Salvation in these Latter days of Tribulation Fullness of the Gospel Explained The Soul Francis William Newman, 1882 **The Soul** Francis William Newman, 2022-05-14 Reprint of the original first published in 1862 The Seat of the Soul Gary Zukav, 2014-03-11 The author explores a new phase of human evolution that reflects a growing understanding about authentic spiritually based power based on cooperative beliefs and a reverence for life *Ācārya Viśuddhasāgara's Vicāra - The Thoughts* विजय क. जैन Vijay K. Jain, 2025-05-13 c rya Vi uddhas gara believes firmly that human birth must be utilized as a springboard for spiritual development rather than for physical or material development This can be attained only when one holds the belief that the body and the soul are two utterly distinct entities and that the soul needs to be attended to as the first priority in all human endeavors If this belief percolates down mankind we shall witness a world that is rid of strife deprivation and antagonism No one will then play with the ways of nature on this planet earth Right thoughts are a prerequisite for world development Your thoughts must focus on development and well being of the world besides of the self The world today is beset by several wrong beliefs and tendencies that have become natural to most of us but are causing great harm to self and others The Thoughts confronts many such issues head on with inviolable logic and scriptural attestation This fact alone makes the book essential reading for all thoughtful persons globally The book includes an Index of the scriptural terms *The Soul, Its Sorrows and Its Aspirations* Francis William Newman, 1862 *The History of Washington County in the Vermont historical Gazetteer* Abby Maria Hemenway, 2025-07-11 Reprint of the original first published in 1882 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage

Self-culture : Physical, Intellectual, Moral, and Spiritual James Freeman Clarke, 1880 *Love and Its Meaning in the World* Rudolf Steiner, 1998 Although Steiner did not often speak or write about love explicitly love is at the very heart of his whole body of work and the foundation of his hopes for humankind and the Earth Steiner teaches that without love nothing is possible with love however we can do everything Love is always love of the not yet To love is to create it is to selflessly enter the current of time that flows toward us from the future Reality true knowledge of reality is impossible without love Only through love can we truly know as we are know can we encounter the world and its beings in a living way Without love knowledge becomes manipulation domination control the world becomes a space of dead things But when we know through love we enter into a pattern of dynamic potentially redemptive relations and the world becomes a living world of beings working for the good This collection gathers all of Rudolf Steiner's main lectures and writings related to love From earthly love to the nature and function of spiritual love these pieces are essential reading for anyone concerned with the future of humanity and the Earth Love and Its Meaning in the World is essential reading for anyone who'd like to gain a deeper

understanding of our true mission as human beings and the purpose of evolution on Earth Chapters include The Division of the Sexes Lucifer and Christ The Mission of Reverence The Buddha s Teaching of Compassion and Love Faith Love and Hope Love without spiritual love nothing spiritual can arise in evolution When we practice love cultivate love creative forces pour into the world For human beings love is the most important fruit of experience in the sensory world Once we really understand the nature of love or compassion we will find that love is the way spirit expresses its truth in the world of the senses We may even say that in love the spiritual world awakens in the physical The more truly a soul inhabits the spiritual worlds the more it experiences lovelessness and lack of compassion as a denial of spirit itself Rudolf Steiner *Finding the Eightfold Path of Buddha in the Gospel of St John* , *Philosophy and Religion in Plato's Dialogues* Andrea

Nightingale,2021-05-06 In ancient Greece philosophers developed new and dazzling ideas about divinity drawing on the deep well of poetry myth and religious practices even as they set out to construct new theological ideas Andrea Nightingale argues that Plato shared in this culture and appropriates specific Greek religious discourses and practices to present his metaphysical philosophy In particular he uses the Greek conception of divine epiphany a god appearing to humans to claim that the Forms manifest their divinity epiphanically to the philosopher with the result that the human soul becomes divine by contemplating these Forms and the cosmos Nightingale also offers a detailed discussion of the Eleusinian Mysteries and the Orphic Mysteries and shows how these mystery religions influenced Plato s thinking This book offers a robust challenge to the idea that Plato is a secular thinker Nursery Rhymes for Adult Spiritual Enrichment Roman New,2016-04-25

Worldwide rhymes have been recited to children for generations These rhymes are familiar to the masses but behind the lyrical prose was information and insight into the world those children and their parents were living in Nursery Rhymes for Adult Spiritual Enrichment is a collection of 39 notable rhymes that are aimed at connecting adult readers to history most notably the years leading up to the signing of the Declaration of Independence and its impact on Great Britain then and shortly thereafter While many can recite these rhymes verbatim few if any have learned the secrets behind the words They are more than fun lyrics and memorable tunes they are rich in history and rooted in the realities of what life was like at that time Not only will you gain insight into the world so long ago but you will come to understand the spiritual connection between the rhymes and the undeniable perseverance of a people besieged by tragedy yet deeply rooted in their faith and in their quest to hold on to joy in a world that offered few opportunities to experience it **How to Know Higher Worlds**

Rudolf Steiner,2013-03-07 There slumber in every human being faculties by means of which she can acquire for herself a knowledge of higher worlds Mystics Gnostics Theosophists all speak of a world of soul and spirit which for them is just as real as the world we see with our physical eyes and touch with our physical hands At every moment the listener may say to herself that of which they speak I too can learn if I develop within myself certain powers which today still slumber within me There remains only one question how to set to work to develop such faculties **Postformal Education** Jennifer M.

Gidley,2016-08-05 This book explains why the current education model which was developed in the 19th century to meet the needs of industrial expansion is obsolete It points to the need for a new approach to education designed to prepare young people for global uncertainty accelerating change and unprecedented complexity The book offers a new educational philosophy to awaken the creative big picture and long term thinking that will help equip students to face tomorrow s challenges Inside readers will find a dialogue between adult developmental psychology research on higher stages of reasoning and today s most evolved education research and practice This dialogue reveals surprising links between play and wisdom imagination and ecology holism and love The overwhelming issues of global climate crisis growing economic disparity and the youth mental health epidemic reveal how dramatically the current education model has failed students and educators This book raises a planet wide call to deeply question how we actually think and how we must educate It articulates a postformal education philosophy as a foundation for educational futures The book will appeal to educators educational philosophers pre service teacher educators educational and developmental psychologists and educational researchers including postgraduates with an interest in transformational educational theories designed for the complexity of the 21st century This is the most compelling book on education I have read for many years It has major implications for all who are in a position to influence developments in teacher education and educational policy

Gidley is one of the very rare scholars who can write intelligently and accessibly about the past present and future in education I was challenged and ultimately convinced by her contention that what masquerades as education today must be seen for what it is an anachronistic relic of the industrial past

Gidley s challenge is to co evolve a radically new education All who seek to play a part must read this book
