History of Sociology in Chile Juan Jesús Morales Martín, Justino Gómez de Benito, 2022-09-26 This book provides a comprehensive overview of the rich and diverse tradition of social thought in Chile over the last century. The authors emphasize the close relationship between sociology and society and address large issues such as the institutionalization of sociology in the face of an open modernization process following WWII, the key role played by Chile in the regionalization and internationalization of sociology and social sciences in Latin America from the late 1950s until the 1973 Coup d'état and the radicalization of sociology and the boom of dependency theories during that time. The analysis extends to independent academic centers that kept sociological thought, social intervention and the democratic dream alive within an authoritarian context and the role of academic and professional sociology since the return to democracy, which has been attentive to accompanying and interpreting the development of a changing Chilean society. Framed within the country's cultural, economic, historical, social and political experience, this overview of the debates, dissemination networks and educational programs associated with sociology will be of interest to students and scholars of Latin American studies and historical sociology.

En el presente estudio se analizan las regulaciones nacionales en materia de Derecho del Trabajo en seis países de la región: Argentina, Chile, Costa Rica, Ecuador, El Salvador y Uruguay. Para ello se comparan los aspectos más relevantes de los ordenamientos legales aplicables, sus disparidades, las políticas aplicadas por las entidades gubernamentales con competencia en la materia y las barreras que el ordenamiento jurídico impone agravando de ese modo la situación de facto que atraviesan las mujeres al momento de insertarse en el mercado de trabajo. En ese sentido, revista especial inter-ses el análisis de los principios del derecho laboral y la diferencia entre mujeres y hombres, situación que también es analizada en los Pactos y Tratados Internacionales de Derechos Humanos y en las Constituciones políticas de cada uno de los países seleccionados.

Revista mexicana de comunicación, 1993 *Revista Universidad de Medellín* Universidad de Medellín, 1998 Revista javeriana, 2005 *Negotiating Gendered Discourses* Jane L. Christie, 2015-11-25. It has been argued that the first presidential campaign of Michelle Bachelet in Chile and Cristina Fernández de Kirchner in Argentina used a rhetoric of newness. Some political observers have said that as the first women to successfully run for the highest office in these countries, they were presented as the new faces of democracy. These observers argued that gender was not a determining factor in their electoral success, but the focus on this first women frame did generate heavily gendered criticisms of these two candidates. *Negotiating Gendered Discourses* addresses these views by asking how the gender factor is negotiated when women from the Southern Cone of Latin America run for high political office. In particular, Jane L. Christie examines how Bachelet and Fernández positioned themselves in relation to the numerous women-led social movements and in doing so reveals points of intersection between these
