Murphy,2016-10-04 At its most basic historic preservation is about keeping old places alive in active use and relevant to the needs of communities today As cities across America experience a remarkable renaissance and more and more young diverse families choose to live work and play in historic neighborhoods the promise and potential of using our older and historic buildings to revitalize our cities is stronger than ever This urban resurgence is a national phenomenon boosting cities from Cleveland to Buffalo and Portland to Pittsburgh Experts offer a range of theories on what is driving the return to the city from the impact of the recent housing crisis to a desire to be socially engaged live near work and reduce automobile use But there s also more to it Time and again when asked why they moved to the city people talk about the desire to live somewhere distinctive to be some place rather than no place Often these distinguishing urban landmarks are exciting neighborhoods Miami boasts its Art Deco district New Orleans the French Quarter Sometimes as in the case of Baltimore s historic rowhouses the most distinguishing

feature is the urban fabric itself While many aspects of this urban resurgence are a cause for celebration the changes have also brought to the forefront issues of access affordable housing inequality sustainability and how we should commemorate difficult history This book speaks directly to all of these issues In *The Past and Future City* Stephanie Meeks the president of the National Trust for Historic Preservation describes in detail and with unique empirical research the many ways that saving and restoring historic fabric can help a city create thriving neighborhoods good jobs and a vibrant economy She explains the critical importance of preservation for all our communities the ways the historic preservation field has evolved to embrace the challenges of the twenty first century and the innovative work being done in the preservation space now This book is for anyone who cares about cities places and saving America s diverse stories in a way that will bring us together and help us better understand our past present and future

The Once and Future New York Randall Mason, 2009 Rich with archival research *The Once and Future New York* documents the emergence of historic preservation in New York at the turn of the twentieth century Between 1890 and 1920 preservationists saved and restored buildings parks and monuments throughout the city s five boroughs that represented continuity with the past

Contentious City John Mollenkopf, 2005-08-25 Few public projects have ever dealt with economic and emotional issues as large as those surrounding the rebuilding of lower Manhattan following the terrorist attack of September 11 2001 Picking up the pieces involved substantial challenges deciding how to memorialize one of America s greatest tragedies how to balance the legal claim of landowners against the moral claim of survivors who want a say in the future of Ground Zero and how to rebuild the Trade Center site while preserving the sacredness and solemnity that Americans now attribute to the area All the while the governor the mayor the Port Authority and the leaseholder competed with one another to advance their own interests and visions of the redevelopment while at least leaving the impression that the decisions were the public s to make In *Contentious City* editor John Mollenkopf and a team of leading scholars analyze the wide ranging political dimensions of the recovery process *Contentious City* takes an in depth look at the competing interests and demands of the numerous stakeholders who have sought to influence the direction of the recovery process Lynne Sagalyn addresses the complicated institutional politics behind the rebuilding which involve a newly formed development commission seeking legitimacy a two state transportation agency whose brief venture into land ownership puts it in control of the world s most famous 16 acres of land and a private business group whose affiliation with the World Trade Center places it squarely in a fight for billions of dollars in insurance funds Arielle Goldberg profiles five civic associations that sprouted up to voice public opinion about the redevelopment process While the groups did not gain much leverage over policy outcomes Goldberg argues that they were influential in steering the agenda of decision makers and establishing what values would be prioritized in the development plans James Young a member of the jury that selected the design for the

World Trade Center site memorial discusses the challenge of trying to simultaneously memorialize a tragic event while helping those who suffered find renewal and move on with their lives Editor John Mollenkopf contributes a chapter on how the September 11 terrorist attacks altered the course of politics in New York and how politicians at the city and state level adapted to the new political climate after 9/11 to win elected office Moving forward after the destruction of the Twin Towers was a daunting task made more difficult by the numerous competing claims on the site and the varied opinions on how it should be used in the future Contentious City brings together the voices surrounding this intense debate and helps make sense of the rival interests vying for control over one of the most controversial urban development programs in history A Russell Sage Foundation September 11 Initiative Volume
