Engerman,David Richardson,2021-08-12 Medieval slavery has received little attention relative to slavery in ancient Greece and Rome and in the early modern Atlantic world This imbalance in the scholarship has led many to assume that slavery was of minor importance in the Middle Ages In fact the practice of slavery continued unabated across the globe throughout the medieval millennium This volume the final volume in The Cambridge World History of Slavery covers the period between the fall of Rome and the rise of the transatlantic plantation complexes by assembling twenty three original essays written by scholars acknowledged as leaders in their respective fields The volume demonstrates the continual and central presence of slavery in societies worldwide between 500 CE and 1420 CE The essays analyze key concepts in the history of slavery including gender trade empire state formation and diplomacy labor childhood social status and mobility cultural attitudes spectrums of dependency and coercion and life histories of enslaved people

The Shadow that Lingers Allan D Cooper,2023-06-05 Allan D Cooper demonstrates how the resistance to slavery served to unveil the nature of freedom that made possible the abolition movement and anti colonial struggles The corpus of human rights law that has evolved over the past two centuries is constructed around the negation of slavery This book analyzes how slavery mutated into racial identification that governments enforce against their own population to advance more efficient methods of discipline and control The Shadow that Lingers reveals how race is used to traumatize human beings by embodying inferiority and

powerlessness even for whites that claim privilege under racialized regimes As an ideology of power race becomes contextualized to fit local cultures resulting in contradictory understandings of race from one culture to another This book focuses attention on how racial hybridity among mixed race communities poses challenges for racial purists and how such communities endeavor to construct racial identities that often differentiate themselves from being black The book concludes with an analysis of how the pursuit of freedom inevitably requires the reification of a non racial identity

*Understanding Non-State Actors* Eran Zohar,2023-10-24 *Understanding Non State Actors* aims to reduce the scarcity of academic literature on armed non state actors NSAs that have always been a part of world politics and wars This monograph offers possibly for the first time a systematic historical review as well as a substantive theory of NSAs and their arming efforts The world has been astonished by the ability of the well armed Hamas to inflict heavy losses on the powerful Israel Thus from the Jewish rebellion against Rome to the war between the Ukrainian separatists and the Ukrainian government NSAs weapons acquisition has been vital for the build up of their force enabling both the employment of that force and its sustainability While weapons are not necessarily the most important factor in military build up NSAs need weapons to fight and revolts usually erupt after the organizers have acquired a certain number of weapons Conversely many revolts lose momentum and operations are not carried out or turn ineffective due to shortages of arms and ammunition A major theme of this monograph is that in spite of dramatic political and technological changes armed NSAs in different periods have employed similar methods to acquire weapons Self production looting and stealing external support and the arms trade were always the major ways for NSAs to acquire weapons though the importance of each method and the type of arms has changed remarkably over time *Understanding Non State Actors* discusses the factors political social cultural technological and organizational that have both facilitated and constrained the ability of NSAs to acquire arms Especially lecturers and students of Military Terrorism Conflict studies War and peace studies will benefit from this study

*Caucasian Albania* Jost Gippert,Jasmine Dum-Tragut,2023-06-19 By consequence of the Karabakh War in 2020 and due to Azerbaijanian revisionism concerning the history culture and cultural monuments of the region the discussion on Caucasian Albania which is little known in the West in both academic and public circles has been reignited The handbook provides an overview of the current state of research on the Caucasian Albanians in an objective scientifically sound manner The contributions are not

**Who Abolished Slavery?** Seymour Drescher,Pieter C. Emmer,João Pedro Marques,2021-01-11 The past half century has produced a mass of information regarding slave resistance ranging from individual acts of disobedience to massive uprisings Many of these acts of rebellion have been studied extensively yet the ultimate goals of the insurgents remain open for discussion Recently several historians have suggested that slaves achieved their own freedom by resisting slavery which counters the predominant argument that abolitionist pressure groups parliamentarians and the governmental and anti governmental armies of the various slaveholding empires were the prime movers behind emancipation Marques one of the leading historians of slavery and abolition argues that in most cases it is impossible to establish a direct relation between slaves uprisings and the emancipation laws that would be approved in the western countries Following this presentation his arguments are taken up by a dozen of the most outstanding historians in this field In a concluding chapter Marques responds briefly to their comments and evaluates the degree to which they challenge or enhance his view **The Archaeology of Modern Worlds in the Indian Ocean** Mark William Hauser,Julia Jong Haines,2023-12-19 Bringing together specialists

**Possessed by the Right Hand** Bernard K. Freamon, 2019-05-20 In *Possessed by the Right Hand* the first comprehensive legal history of slavery in Islam ever offered to readers Bernard K. Freamon, an African American Muslim law professor, provides a penetrating analysis of the problems of slavery and slave trading in Islamic history. After examining the issues from pre-Islamic times through to the nineteenth century, Professor Freamon considers the impact of Western abolitionism, arguing that such efforts have been a failure with the notion of abolition becoming nothing more than a cruel illusion. He closes this ground-breaking account with an examination of the slaving ideologies and actions of ISIS and Boko Haram, asserting that Muslims now have an important and urgent responsibility to achieve true abolition under the aegis of Islamic law. **A Globalised Visual Culture?** Fabio Guidetti, Katharina Meinecke, 2020-07-31 Late Antique artefacts and the images they carry attest to a highly connected visual culture from ca. 300 to 800 C.E. On the one hand, the same decorative motifs and iconographies are found across various genres of visual and material culture, irrespective of social and economic differences among their users, for instance in mosaics, architectural decoration, and luxury arts: silver plate, textiles, ivories, as well as in everyday objects such as tableware, lamps, and pilgrim vessels. On the other hand, they are also spread in geographically distant regions, mingled with local elements far beyond the traditional borders of the classical world. At the same time, foreign motifs, especially of Germanic and Sasanian origin, are attested in Roman territories. This volume aims at investigating the reasons behind this seemingly globalised visual culture spread across the Late Antique world, both within the borders of the former Roman and later Byzantine Empire and beyond, bringing together diverse approaches characteristic of different national and disciplinary traditions. The presentation of a wide range of relevant case studies, chosen from different geographical and cultural contexts, exemplifies the vast scale of the phenomenon and demonstrates the benefit of addressing such a complex historical question with a combination of different theoretical approaches.

Historical Dictionary of Slavery and Abolition Martin A. Klein, 2014-09-04 For almost four thousand years, men and women with power have exploited vulnerable populations for cheap or free labor. These slaves, serfs, helots, tenants, peons, bonded, or forced laborers, etc., built pyramids and temples, dug canals, and mined the earth for precious metals and gemstones. They built the palaces and mansions in which the powerful lived, grown the food they ate, spun the cloth that clothed them. This second edition of *Historical Dictionary of Slavery and Abolition* relates the long and brutal history of slavery and the struggle for abolition using several key features: Chronology, Introductory essay, Appendixes, Extensive bibliography. Over 500 cross-referenced entries on forms of slavery, famous slaves, and abolitionists; sources of slaves and current conditions of modern slavery around the world. This book is an excellent access point for students, researchers, and

anyone wanting to know more about slavery and abolition

**African Re-Genesis** Jay B Haviser, Kevin C MacDonald, 2016-07-01 Ripped from motherland and family ethnically mixed to quell the potential of uprisings and brutalized by regimes of hard labor the heart the spirit of Africa did not stop beating in the New World Rather it survived and has re emerged changed by contacts with new cultures and environments but still part of the continuum of African tradition an African Re Genesis This is the first volume in its field to emphasize the interdisciplinary temporal and geographic comparative research of Archaeology Anthropology History and Linguistics to allow us to form unique perspectives on broader trends in the transformation and re emergence of African Diaspora cultures African Re Genesis confirms that regardless of discipline from continental Africa to Europe the Western Hemisphere and Indian Ocean all Diaspora research requires a relevance to modern communities and sensitivity to the interplay with contemporary cultural identities Matters concerning race and cultural diversity though ostensibly defused by the vocabulary of political correctness remain contentious Indeed the topic of racial relations has become to the twenty first century what sex was to the nineteenth century something best not discussed in public and better talked around than confronted directly African Re Genesis strikes at the nerve of urgency that the past present and future globalization of African cultures is a cornerstone of the entire human experience and it thus deserves recognition as such
