*Babette Cole's Revolting Rules for Getting a Man* Babette Cole,1997      *The Canon of American Legal Thought* David Kennedy,William W. Fisher III,2018-06-05 This anthology presents for the first time full texts of the twenty most important works of American legal thought since 1890 Drawing on a course the editors teach at Harvard Law School the book traces the rise and evolution of a distinctly American form of legal reasoning These are the articles that have made these authors from Oliver Wendell Holmes Jr to Ronald Coase from Ronald Dworkin to Catherine MacKinnon among the most recognized names in American legal history These authors proposed answers to the classic question What does it mean to think like a lawyer an American lawyer Their answers differed but taken together they form a powerful brief for the existence of a distinct and powerful style of reasoning and of rulership The legal mind is as often critical as constructive however and these texts form a canon of critical thinking a toolbox for resisting and unravelling the arguments of the best legal minds Each article is preceded by a short introduction highlighting the article s main ideas and situating it in the context of its author s broader intellectual projects the scholarly debates of his or her time and the reception the article received Law students and their teachers will benefit from seeing these classic writings in full in the context of their original development For lawyers the collection will take them back to their best days in law school All readers will be struck by the richness the subtlety and the sophistication with which so many of what have become the clichés of everyday legal argument were originally formulated

The Path of the Law Oliver Wendell Holmes Jr.,2009-05-01 The Path of the Law is a short essay by Oliver Wendell Holmes Jr an American jurist who served on the Supreme Court of the United States from 1902 to 1932 A cornerstone of his jurisprudential philosophy was the prediction theory of law believing the law should be defined specifically as a prediction of how the courts work In The Path of the Law Holmes argues that a criminal isn t concerned about ethics or conceptions of natural law they are concerned about avoiding punishment and jail The law therefore should be based on prediction of what will bring about punishment via the court system      **Revolting Rules for Getting a Man** Babette Cole,1998      **The**

Fife,2013-08-12 Can public schools in America be saved This book considers theory current practice and the common school ideal through a historical lens to arrive at practical suggestions for reforming contemporary public education Despite dramatic sweeping changes in recent decades a strong case can be made for guiding the reformation of contemporary public education in the United States on common school ideology of the nineteenth century The author argues that the common school remains a public institution capable of

preparing America's youth to contribute to the community in a positive manner and that education must be treated as a public good where all children regardless of social class have a right to a quality education The work includes a thorough overview of Horace Mann's writings on K-12 public education that support the common school ideal concepts that are over 150 years old yet still highly relevant today      **The American Law Review** ,1915      United States Law Review ,1915
