Julio Faúndez

Revolution Counter Revolution In Chile A Dossier On Workers Participation In The Revolutionary Process:

Revolution and Counter-revolution in Chile Michel Raptis, Michel Pablo, 1974 Revolution and Counter-revolution in Chile. A Dossier on Workers' Participation in the Revolutionary Process. Transl. by John Simmonds, 1974 Marxism and Democracy in Chile Julio Faúndez, 1988-01-01 In this book Julio Faúndez traces the development of Chilean politics from 1932 to the overthrow of Allende in 1973 focusing in particular on the participation of Marxist parties in Chile's democratic government Relating the various phases in the evolution of the political system to the concrete problems that had to be faced Faúndez discusses how class alliances political mobilization and the role of organized labor affected developments in the country His book adds an important new perspective to a perennial topic of debate among politicians and political scientists worldwide

"Uncool and Incorrect" in Chile Stephen M. Streeter, 2023-02-24 The military coup that toppled Chilean President Salvador Allende in 1973 led to one of the most repressive military dictatorships in Latin American history Although the coup's full origin remains one of the great mysteries of the Cold War most assume that powers in Washington were largely to blame given the long history of U.S. interventionism in Latin America These assumptions were only strengthened by ongoing suspicions about the Nixon administration's role in a failed campaign to prevent Allende's inauguration in 1970 Providing a comprehensive account of the Nixon administration's efforts to undermine and unseat Allende the book relies heavily on newly declassified records addressing several crucial questions regarding U.S. involvement The author explores several counterfactual scenarios to highlight important turning points and crucial decisions which contributed to the failure of Chilean democracy

Modern Chile Mark Falcoff, 1989-01-01 Few dispute that a major turning point in the history of present day Chile commenced with the election in 1970 of a Marxist physician Salvador Allende What followed were three years that shook South America if not the world Land reform factory expropriation the politicization of a sector of the armed forces curriculum reform in education each in their turn led to a hardening of political fault lines and created the basis for the overthrow of the Allende regime This work by one of the foremost analysts of modern Chile features an interview with an earlier president of that beleaguered country Eduardo Frei In what is likely to be viewed as the most authoritative statement to date on U.S.-Chile relationships during this stormy period Falcoff debunks the myth of a CIA inspired overthrow of the democratic forces placing responsibility on Allende's failure to obtain or even seek a decisive electoral mandate on a governing coalition internally inconsistent and frequently at war with its constituent elements on an economic policy that polarized supporters and enemies and ultimately on the need to turn to the military for the stability that its policy failures could not achieve The final chapter on the assumption to power and political changes rendered by the present ruler General Augusto Pinochet Ugarte indicates that the problems of Chile are not attributable to any single ruler or party Falcoff indicates that core problems in Chile from capital formation to the search for diversification were exemplified in cultural moral and spiritual values between the Frei and Allende epochs The prolonged Pinochet regime for Falcoff has

postponed settlement of the major issues raised by the democratic era equality and growth legality and legitimacy The costs of democratic order remain for Chileans to confront and resolve **Politics In Chile** Lois Hecht Oppenheim,2018-05-04

The third edition of Politics in Chile provides significantly updated coverage of Chilean politics and economic development from the return to civilian rule in 1990 to the 2006 election and early administration of Socialist Michelle Bachelet Chile's first woman president Lois Hecht Oppenheim focuses on recent efforts to reconstruct democratic practices and institutions including resolving such sensitive and lingering issues as human rights violations under Pinochet and civil military relations Chapters on the contemporary politics and economics under the civilian Concertación governments are largely rewritten for this edition Rather than focusing on the search for development the third edition considers in greater depth the exceptionalism of the Chilean economic experiment through successive stages of stability socialism and neoliberalism

Revolutions and Revolutionists Robert Blackey,1982 **Chilean Voices** Colin Henfrey,Bernardo Sorj,2008-01-01

Each interview focuses on the field in which the speaker was most active The number of interviews in each field reflects its relative importance three for industry two for the country side and one each for the shantytowns and the universities In the case of industry anything less could scarcely have conveyed the range of views on its key issues such as workers participation hence the three selected are from the Communist Party the MAPU and the Socialist Party *Random Selection in Politics*

Lyn Carson,Brian Martin,1999-12-30 How might the entire citizenry of a country make the decisions that affect them Carson and Martin provide the first accessible and comprehensive overview of random selection as a possible process for transforming our modern political systems Building on the theoretical work of the likes of John Burnheim and Fred Emery and drawing on their own work with social action groups they outline a set of methods that go beyond the mere tapping of community opinion to reveal not only preferences but a more active role in creating the community Random selection as Carson and Martin show has been used in community participation in short term decision making and long term planning It can be a powerful tool in the development of local federal and international policy An important and innovative look at government decision making this will be of primary interest to scholars and researchers in political theory and electoral systems as well as political activists and reformers **Revolution in the Americas** Pacific Coast Council on Latin American Studies. Meeting,1979

Chile, a Country Study Andrea T. Merrill,1982 *Workers' Participation in Management* Roland Van Holle,Maryse Gaudier,International Institute for Labour Studies,1975 *Proceedings of the Pacific Coast Council on Latin American Studies* Pacific Coast Council on Latin American Studies,1977 **The New International**

Labour Studies Ronaldo Munck,1988 **Latin American Research Review** ,1983 An interdisciplinary journal that publishes original research and surveys of current research on Latin America and the Caribbean **Politics In Chile** Lois Oppenheim,1999 In this investigation of the dramatic political changes in Chile over the past 30 years the author focuses on identifying the dynamics of political conflict underlying this turbulent period This second edition incorporates coverage of the
