Jim Strupp Jim Strupp,1992 **Jefferson's Revolutionary Theory and the Reconstruction of Educational Purpose**

Kerry T. Burch,2020-05-27 This book newly interprets the educational implications of Thomas Jefferson s revolutionary thought In an age where American democracy is imperilled and the civic purposes of schooling eviscerated Burch turns to Jefferson to help bring to life the values and principles that must be recovered in order for Americans to transcend the narrow purposes of education prescribed by today s neoliberal paradigm The author argues that critical engagement with the most radical dimensions of Jefferson s educational philosophy can establish a rational basis upon which to re establish the civic purposes of public education Bracketing the defining features of Jefferson s theory throughout each of the chapters the author illuminates the deficiencies of the dominant educational paradigm and charts a new path forward for its progressive renewal **Speechwriting in Perspective** Thomas H. Neale,Jean M. Bowers,2003 Writing for the spoken word is a special discipline it requires that speechwriters products be written primarily although not exclusively to be heard not read

Speeches are better cast in simple direct and often short sentences that can be easily understood by listeners Rhetorical devices such as repetition variation cadence and balance are available to and should be used by the speechwriter It is important for speechwriters to analyse audiences according to factors such as age gender culture profession and income level size of audience political affiliation if any and on the occasion for or purpose of the speech Most effective speeches do not exceed 20 minutes in length After researching a topic speechwriters must prepare an outline from which the speech will be developed They should strive to maintain a clear theme throughout the speech Most speeches will have a three part structure consisting of an introduction a body and a conclusion The accepted style of contemporary American public address is natural direct low key casual and conversational This puts the listeners at ease and promotes a sense of community between the audience and speaker Punctuation should reflect the sound structure of the speech reinforcing the rhythm and pace of actual speech Clarity of expression is as important a consideration in speech grammar as rigid adherence to the rules for written law This book presents the essentials of speechwriting Preface Speechwriting in Perspective A Brief Guide to Effective and Persuasive Communication Thomas H Neale Public Speaking and Speechwriting Selected References Jean M Bowers Index *Rot, Riot, and Rebellion* Rex Bowman,Carlos Santos,2013-08-13 Thomas Jefferson had a radical dream for higher education Designed to become the first modern public university the University of Virginia was envisioned as a liberal campus with no religious affiliation with elective courses and student self government Nearly two centuries after the university s creation its success now seems preordained its founder after all was a great American genius Yet what many don t know is that Jefferson s university almost failed In Rot Riot and Rebellion award winning journalists Rex Bowman and

Carlos Santos offer a dramatic re creation of the university s early struggles Political enemies powerful religious leaders and fundamentalist Christians fought Jefferson and worked to thwart his dream Rich students many from southern plantations held a sense of honor and entitlement that compelled them to resist even minor rules and regulations They fought professors townsfolk and each other with guns knives and fists In response professors armed themselves often with good reason one was horsewhipped others were attacked in their classrooms and one was twice the target of a bomb The university was often broke and Jefferson s enemies crouched and ready to pounce looked constantly for reasons to close its doors Yet from its tumultuous early days Jefferson s university a cauldron of unrest and educational daring blossomed into the first real American university Here Bowman and Santos bring us into the life of the University of Virginia at its founding to reveal how this once shaky institution grew into a novel American style university on which myriad other U S universities were modeled

Thomas Jefferson, Time, and History Hannah Spahn,2011-12-06 Beginning with the famous opening to the Declaration of Independence When in the course of human events almost all of Thomas Jefferson s writings include creative stylistically and philosophically complex references to time and history Although best known for his forward looking statements envisioning future progress Jefferson was in fact deeply concerned with the problem of coming to terms with the impending loss or fragmentation of the past As Hannah Spahn shows in Thomas Jefferson Time and History his efforts to promote an exceptionalist interpretation of the United States as the first nation to escape from the crimes and calamities of European history were complicated both by his doubts about the outcome of the American experiment and by his skepticism about the methods and morals of eighteenth century philosophical history Spahn approaches the conundrum of Jefferson s Janus faced equally forward and backward oriented thought by discussing it less as a matter of personal contradiction and paradox than as the expression of a late Newtonian Enlightenment in a period between ancient and modern modes of explaining change in time She follows Jefferson in his creation of an influential narrative of American and global history over the course of half a century opening avenues into a temporal and historical imagination that was different from ours and offering new assessments of the solutions Jefferson and his generation found or failed to find to central moral and political problems like slavery

Staging Chinese Revolution Xiaomei Chen, 2016-11-08 Staging Chinese Revolution surveys fifty years of theatrical propaganda performances in China revealing a dynamic commercial capacity in works often dismissed as artifacts of censorship Spanning the 1960s through the 2010s Xiaomei Chen reads films plays operas and television shows from an interdisciplinary and comparative perspective demonstrating how in a socialist state with capitalist characteristics propaganda performance turns biographies memoirs and war stories into mainstream ideological commodities legitimizing the state and its right to rule Analyzing propaganda

performance also brings contradictions and inconsistencies to light that throw common understandings about propaganda's purpose into question. Chen focuses on revisionist histories that stage the lives of the founding fathers of the Communist Party such as Chen Duxiu, Mao Zedong and Deng Xiaoping and the engaging mix of elite and ordinary characters that animate official propaganda in the private and public sphere. Taking the form of personal memories and representing star and youth culture and cyberspace, contemporary Chinese propaganda appeals through multiple perspectives complicating relations among self, subject, agent, state, building and national identity. Chen treats Chinese performance as an extended form of political theater confronting critical issues of commemoration, nostalgia, state rituals and contested history. It is through these reenactments that three generations of revolutionary leaders loom in extraordinary ways over Chinese politics and culture.

Literature and Music in the Atlantic World, 1767-1867 Catherine Jones, 2014-07-16 This new study looks at the relationship of rhetoric and music in the era's intellectual discourses, texts and performance cultures principally in Europe and North America. Catherine Jones begins by examining the attitudes to music and its performance by leading figures of the American Enlightenment and Revolution, notably Benjamin Franklin and Thomas Jefferson. She also looks at the attempts of Francis Hopkinson, William Billings and others to harness the Orphean power of music so that it should become a progressive force in the creation of a new society. She argues that the association of rhetoric and music that reaches back to classical Antiquity acquired new relevance and underwent new theorisation and practical application in the American Enlightenment in light of revolutionary Atlantic conditions. Jones goes on to consider changes in the relationship of rhetoric and music in the nationalising milieu of the nineteenth century, the connections of literature, music and music theory to changing models of subjectivity and Romantic appropriations of Enlightenment visions of the public, ethical function of music.
