Revolutionary Afghanistan:

Revolutionary Afghanistan Beverley Male, 2022-02-06 This book first published in 1982 examines the reality of the so called revolution in Afghanistan. It focuses on the career of Hafizullah Amin considered in the West as a near genocidal mass murderer intent on establishing a personal fiefdom in Afghanistan. However this book argues that he was a man struggling against impossible odds to preserve his country's independence and at the same time drag it into the twentieth century. He commanded such loyalty and support within the Afghanistan Communist Party and the armed forces that the Russians had to invade to get rid of him.

Revolutionary Movements in World History James DeFronzo, 2006-07-20 This groundbreaking three volume encyclopedia is the first to focus exclusively on the revolutionary movements that have changed the course of history from the American and French Revolutions to the present. ABC-CLIO is proud to present an encyclopedia that reaches around the globe to explore the most momentous and impactful political revolutions of the last two and a half centuries, exploring their origins, courses, consequences, and influences on subsequent individuals and groups seeking to change their own governments and societies. In three volumes, *Revolutionary Movements in World History* covers 79 revolutions from the American and French uprisings of the late 18th century to the rise of communism, Nazism, and fascism; from Ho Chi Minh and Fidel Castro to the Ayatollah al-Qaedi and the fall of the Berlin wall. Written by leading experts from a number of nations, this insightful cutting edge work combines detailed portrayals of specific revolutions with essays on important overarching themes. Full of revealing insights, compelling personalities, and some of the most remarkable moments in the world's human drama, *Revolutionary Movements in World History* offers a new way of looking at how societies reinvent themselves.

Women and Revolution in Africa, Asia, and the New World Mary Ann Tétreault, 1994 The contributors use a variety of theoretical approaches to analyze how women as a class have experienced specific twentieth century revolutions. They identify the issues that prompted women to participate in the struggles, the roles they played, the contributions they made, and their hopes for better lives for themselves as women in the post revolutionary society.

Revolutionary Horizons John Calabrese, 2016-07-27 This study examines the sources, characteristics, and implications of post-Khomeini Iran's foreign policy. It concentrates on two geographic zones of interest: one composed of the countries which surround Iran, the other comprised of Islamic governments and movements beyond Iran's borders. It argues that fears, not just ambitions, have yielded a policy increasingly co-operative, especially in the economic sphere, yet in some respects still confrontational.

Modern Persian Literature in Afghanistan Wali Ahmadi, 2008-03-05 With the unleashing of the War on Terror in the aftermath of 9/11, Afghanistan has become prominent in the news. However, we need to appreciate that no substantive understanding of contemporary history, politics, and society of this country can be achieved without a thorough analysis of the Afghan encounter with cultural and literary modernity and modernization. *Modern Persian Literature in Afghanistan* does just that. The book offers a balanced and interdisciplinary analysis of the rich and admirable contemporary poetry and fiction of a land

long tormented by wars and invasions It sets out to demonstrate that within the trajectory of the union between modern aesthetic imagination and politics creativity and production and representation and history the modernist intervention enabled many contemporary poets and writers of fiction to resist the overt politicization of the literary field without evading politics or disavowing the modern state The interpretative moves and nuanced readings of a series of literary texts make this book a major contribution to a rather neglected area of research and study Winner of the Iranian World Prize for Book of the Year in Islamics Studies 2009

Modernizing Women Valentine M. Moghadam, 2003 Extrait de la pr face The subject of this study is social change in the Middle East North Africa and Afghanistan its impact on women s legal status and social positions and women s varied responses to and involvement in change processes It also deals with constructions of gender during periods of social and political change Social change is usually described in terms of modernization revolution cultural challenges and social movements Much of the standard literature on these topics does not examine women or gender and thus the author hopes this study will contribute to an appreciation of the significance of gender in the midst of change Neither are there many sociological studies on MENA and Afghansitan or studies on women in MENA and Afghanistan from a sociological perspective Myths and stereotypes abund regarding women Islam and the region and the sevents of September 11 and since have only compounded them This book is intended in part to normalize the Middle East by underscoring the salience of structural determinants other than religion It focuses on the major social change processes in the region to show how women s lives are shaped not only by Islam and culture but also by economic development the state class location and the world system Why the focus on women It is the autor s contention that middle class women are consciously and unconsciously major agents of social change in the region at the vanguard of movements for modernity democratization and citizenship

The Feminist Revolution Bonnie J. Morris, D-M Withers, 2018-03-06 Explores the global history and contributions of the feminist revolution The Feminist Revolution offers an overview of women s struggle for equal rights in the late twentieth century Beginning with the auspicious founding of the National Organization for Women in 1966 at a time when women across the world were mobilizing individually and collectively in the fight to assert their independence and establish their rights in society the book traces a path through political campaigns protests the formation of women s publishing houses and groundbreaking magazines and other events that shaped women s history It examines women s determination to free themselves from definition by male culture wanting not only to take back the night but also to reclaim their bodies their minds and their cultural identity It demonstrates as well that the feminist revolution was enacted by women from all backgrounds of every color and of all ages and that it took place in the home in workplaces and on the streets of every major town and city This sweeping overview of the key decades in the feminist revolution also brings together for the first time many of these women s own unpublished stories which together offer tribute to the daring humor and creative spirit of its participants

Soviet Military Review , 1983 The Afghan Syndrome Bhabani Sen Gupta, 2022-12-28 The

Afghan Syndrome 1982 analyses and interprets the 1979 Soviet military intervention in Afghanistan and also examines its effects on America China India Pakistan and other Islamic nations It argues that one of the results was the rise of other centres of economic political and military power outside the superpower spheres *A Concise History of Afghanistan in 25 Volumes* Hamid Wahed Alikuzai,2013-10 For 35 000 years ancient Afghanistan was called Aryana the Light of God has existed Then in 747 AD what is today called Afghanistan became Khorasan which means Sunrise in Dari which was a much larger geographical area In the middle of the nineteenth century the name Afghanistan which means home of the united tribes was applied originally by the Saxons present day British and the Russians During the Great Games in the middle of nineteenth century the Durand Line was created in 1893 and was in place until 1993 Saxons created the state of Afghanistan out of a geographical area roughly the size of Texas in 1893 before which there were 10 million square kilometers larger than the size of Canada as means to act as a buffer zone between the Saxon India Tsarist Russia and the Chinese

Dynamics of Political Development in Afghanistan H. Emadi,2010-10-18 This book examines how dependent development and struggles for power within and outside the state apparatus led to formation of alliances with imperial powers and how the latter used these alliances to manipulate political development in Afghanistan to their own advantage Informal Order and the State in Afghanistan Jennifer Brick Murtazashvili,2016-04-21 Despite vast efforts to build the state profound political order in rural Afghanistan is maintained by self governing customary organizations Informal Order and the State in Afghanistan explores the rules governing these organizations to explain why they can provide public goods Instead of withering during decades of conflict customary authority adapted to become more responsive and deliberative Drawing on hundreds of interviews and observations from dozens of villages across Afghanistan and statistical analysis of nationally representative surveys Jennifer Brick Murtazashvili demonstrates that such authority enhances citizen support for democracy enabling the rule of law by providing citizens with a bulwark of defence against predatory state officials Contrary to conventional wisdom it shows that traditional order does not impede the development of the state because even the most independent minded communities see a need for a central government but question its effectiveness when it attempts to rule them directly and without substantive consultation Repression, Resistance, and Women in Afghanistan Hafizullah Emadi,2002-08-30 Afghan women have faced an exhaustive struggle in the battle to change their status and improve their situation Emadi takes a long look at the role of development and modernization policies implemented by the state in the pre and post Soviet eras under the Taliban and beyond He finds that such policies have failed to bring about much needed change and improvement for women Modernization strategies benefited only a small segment of urban women and left the plight of rural women unchanged Although a small segment of middle and upper class women organized themselves and fought to bring about changes in their status and to end gender inequality their efforts alone did not meet with much success Islamic orthodoxy and orthopraxy in the Taliban era restricted women s freedom of movement access to education and

medical care Using personal accounts not readily available to researchers or scholars Emadi explores the diverse factors that contributed to women s oppression both at home and in society This study provides a detailed analysis of state policies toward women s emancipation within the context of a traditional Islamic society It chronicles the course of the women s movement and women s organizations still active in the political arena and puts forth an alternative plan to involve women in the reconstruction process in both urban and rural areas Land, the State, and War Jennifer Brick Murtazashvili, Ilia Murtazashvili, 2021-09-09 The first detailed study of institutional economics and public choice traditions in Afghanistan

Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan Robert F. Baumann, 1993

Modern Afghanistan Amin Saikal, 2004-08-27 Afghanistan s recent history is a sad one Soviet invasion in 1979 Pakistan backed internal conflict in the 1980s the Taliban regime and then the US invasion and the multi national occupation after the events of 11 September 2001 Why does Afghanistan remain so vulnerable to domestic instability foreign intervention and ideological extremism In reconstructing the tempestuous narrative of modern Afghanistan Amin Saikal provides a sweeping new understanding of its troubled past and present He identifies the country s inability to develop stable political structures as stemming from the inter dynastic rivalry complicated by polygamy that scarred successive royal families from the end of the eighteenth century until the pro Soviet Communist coup of April 1978 all exacerbated by foreign interventions feeding on fragile domestic structures and the rise and fall of different ideological streams Here for the first time is an up to date analysis of the era of the Taliban s rule the effects of US domination in the country and attempts to negotiate a US withdrawal including talks about talks with the Taliban themselves This book which sets the crisis of Afghanistan in the context of the country s modern history and social structures makes a major and highly original contribution towards a better and more nuanced understanding of this ill fated land It is the definitive study of Afghanistan and its troubles in national regional and international contexts from 1747 to the present day Afghan Resistance Grant M. Farr, 2019-03-13 The people of Afghanistan stand at a crossroads with resistance to the Soviet occupation entering its eighth year The question of survival must be weighed against the difficult political choices of fighting or reaching an accommodation with the Soviet backed Kabul regime The vast majority choose to continue the struggle aided in part by covert arms shipments and to search for a uniquely Afghan nationalism despite rumors of an impending USSR U S deal whereby in return for Soviet troop withdrawal and cessation of arms aid to the Mujahideen Afghanistan and Pakistan would become neutral Muslim nations Drawing on Afghan cultural and historical background this collection of original essays provides fresh insights into the nature of the Afghan conflict the country s threatened national infrastructure the continuing decimation of its citizens and the prospects for their survival Showing that popular resistance is not limited to the Mujahideen or freedom fighters but encompasses the Afghan people as a whole the contributors examine the impact of the world s largest refugee population on the shape of the future Afghanistan Based on their extensive firsthand experience in the region the contributors provide an

interdisciplinary analysis of a country a people and a war still too little known to the outside world *US Foreign Policy and the Iranian Revolution* C. Emery, 2013-10-15 This book provides a fresh perspective on the origins of the confrontation between the US and Iran It demonstrates that contrary to the claims of Iran s leaders there was no instinctive American hostility towards the Revolution and explains why many assumptions guiding US policy were inappropriate for dealing with the new reality in Iran

Revolution and Dictatorship Steven Levitsky, Lucan Way, 2024-10-29 Why the world s most resilient dictatorships are products of violent revolution Revolution and Dictatorship explores why dictatorships born of social revolution such as those in China Cuba Iran the Soviet Union and Vietnam are extraordinarily durable even in the face of economic crisis large scale policy failure mass discontent and intense external pressure Few other modern autocracies have survived in the face of such extreme challenges Drawing on comparative historical analysis Steven Levitsky and Lucan Way argue that radical efforts to transform the social and geopolitical order trigger intense counterrevolutionary conflict which initially threatens regime survival but ultimately fosters the unity and state building that supports authoritarianism Although most revolutionary governments begin weak they challenge powerful domestic and foreign actors often bringing about civil or external wars These counterrevolutionary wars pose a threat that can destroy new regimes as in the cases of Afghanistan and Cambodia Among regimes that survive however prolonged conflicts give rise to a cohesive ruling elite and a powerful and loyal coercive apparatus This leads to the downfall of rival organizations and alternative centers of power such as armies churches monarchies and landowners and helps to inoculate revolutionary regimes against elite defection military coups and mass protest three principal sources of authoritarian breakdown Looking at a range of revolutionary and nonrevolutionary regimes from across the globe Revolution and Dictatorship shows why governments that emerge from violent conflict endure

Afghanistan Mohammed Kakar, 2023-09-01 Few people are more respected or better positioned to speak on the Soviet invasion of Afghanistan than M Hassan Kakar A professor at Kabul University and scholar of Afghanistan affairs at the time of the 1978 coup d tat Kakar vividly describes the events surrounding the Soviet invasion in 1979 and the encounter between the military superpower and the poorly armed Afghans The events that followed are carefully detailed with eyewitness accounts and authoritative documentation that provide an unparalleled view of this historical moment Because of his prominence Kakar was at first treated with deference by the Marxist government and was not imprisoned although he openly criticized the regime When he was put behind bars the outcry from scholars all over the world possibly saved his life In prison for five years he continued collecting information much of it from prominent Afghans of varying political persuasions who were themselves prisoners Kakar brings firsthand knowledge and a historian s sensibility to his account of the invasion and its aftermath This is both a personal document and a historical one Kakar lived through the events he describes and his concern for human rights rather than party politics infuses his writing As Afghans and the rest of the world try to make sense of Afghanistan s recent past Kakar s voice will be one of those most listened to Few people are more respected or better
