Look With Us At Animals:

On God and Dogs Stephen H. Webb, 1998 Many of us keep pet animals we rely on them for companionship and unconditional love For some people their closest relationships may be with their pets In the wake of the animal rights movement some ethicists have started to re examine this relationship and to question the rights of humans to own other sentient beings in this way In this engaging and thought provoking book Stephen Webb brings a Christian perspective to bear on the subject of our responsibility to animals looked at through the lens of our relations with pets especially dogs Webb argues that the emotional bond with companion animals should play a central role in the way we think about animals in general and against the more extreme animal liberationists defends the intermingling of the human and animal worlds He tries to imagine what it would be like to treat animals as a gift from God and indeed argues that not only are animals a gift for us but they give to us we need to attend to their giving and return their gifts appropriately Throughout the book he insists that what Christians call grace is present in our relations with animals just as it is with other humans Grace is the inclusive and expansive power of God's love to create and sustain relationships of real mutuality and reciprocity and Webb unfolds the implications of the recognition that animals too participate in God's abundant grace Webb's thesis affirms and persuasively defends many of the things that pet lovers feel instinctively that their relationships with their companion animals are meaningful and important and that their pets have value and worth in themselves in the eyes of God His book will appeal to a broad audience of thoughtful Christians and animal lovers *Thinking Animals* Kari Weil, 2012-05-01 *Humans, Animals, and U.S. Society in the Long Nineteenth Century: A Documentary History* Dominik Ohrem, 2025-11-18 Volume II continues the discussion of animals animality in U S social and scientific thought to address the ways in which the nexus of ideas surrounding human animal distinctions became intertwined with interhuman hierarchies and power relations including through the synergistic dynamics between race and species as co implicating taxonomies of power Claire Jean Kim that informed both chattel slavery and settler violence against Indigenous peoples A second section traces the evolution of animal advocacy from early individual voices to the formation of an organised movement following the Civil War documenting a shift however limited by structural constraints from largely anthropocentric concerns with the social consequences of human cruelty towards other creatures to a broader moral consideration for nonhuman animals in their own right **Making a Stand for Animals** Oscar Horta, 2022-06-23 Engaging and thought provoking this book examines how humans see and treat other animals and argues that we should extend equal consideration and respect to all beings human and nonhuman alike Our world is plighted by isms such as racism and sexism but we may have overlooked a very important one speciesism Speciesism is a form of discrimination against those who don't belong to a certain species It drives us to see nonhuman animals as objects rather than individuals with their own interests and with the ability to feel and suffer This book questions all of the assumptions speciesism is based upon It raises many challenging questions over humans very complicated attitudes

toward other animals Thinking about how animals are used as well as the suffering of wild animals and what the future may be for all beings this book calls for society to seriously take into account the interests of all animals For all who care about animals or simply how to make the world a better place this book is essential reading Looking for Signs: Animals, Spirits and Death Rituals Ibaloy Perspectives (Itogon, Philippines) Laugrand (Ed.), Gliseria Magapin, Frédéric Laugrand, Jazil Tamang, 2020-02-27 This publication is the volume 3 of a series dealing with the culture and traditions of the Ibaloy of Upper Doacan Itogon Benguet Philippines It is available in Nabaloy and in English Elders share their stories to a group of youngsters who ask them questions on a variety of topics such as animals signs death rituals and spirits The book provides the verbatim accounts of these discussions recorded during a workshop that took place at the Senior Citizen hall in 2018

Nostradamus **Looking at Animals in Human History** Linda Kalof,2007-08-15 Taking in a wide range of visual and textual materials Linda Kalof in Looking at Animals in Human History unearths many surprising and revealing examples of our depictions of animals **Animals and Modern Cultures** Adrian Franklin,1999-03-30 The dramatic transformation of relationships between humans and animals in the 20th century are investigated in this fascinating and accessible book At the beginning of this century these relationships were dominated by human needs and interests modernization was a project which was attached to the goal of progress and animals were merely resources to be used on the path towards human fulfilment These relationships are increasingly being subjected to criticism and a new field of interest in human animal relationships has opened up We are now urged to be more sensitive and compassionate to animal needs and interests to understand their mindedness and how their lives and ours are entangled This book focuses on social change and animals it is concerned with how humans relate to animals and how this has changed and why Moreover it highlights through chapters on companion animals hunting and fishing animal leisures such as birdwatching and wildlife parks and the meat and livestock industries how attitudes and practices towards animals vary widely according to social class ethnicity gender region and nation **Animals in Heaven- Fantasy or Reality** Arch Stanton,2006-06-02 Animals have been with us since the state of existence or being The bible tells us God created the animal kingdom for his pleasure When God created the heaven and earth and all life that exist he obviously saw a need for animals or they would not be here Why God created them in the shapes and forms as they were we do not know the choice was his and as I mentioned He chose to do so in a way that pleases him Animals have a mind that gives them the ability to think and have feelings Animals have a certain intelligence we do not possess such as an internal guidance system Both dogs and cats have this ability and I would imagine there are other animals as well God created everything with a purpose and a need the animals kingdom is one such example Many people believe God s purpose for animals is to serve humankind and upon death they are to perish with no possible chance for eternal life However does the bible teach this In the first chapter of the book of Genesis the bible tells us God considered the animals a creation that was very good he was pleased with them Many people consider the life of an animal as having a very small worth To them an animal just lives and dies Many people have the attitude of so what The bible tells us God doesn t care for an attitude such as this because he values the life of his animals very much Throughout the entire bible the information found pertaining to the animal kingdom is very precise The bible tells us the animals are to be forever God had this intention when he created them and this application of thought remains today and forever The bible never mentions mankind alone is to receive eternal life How different would our lives be without animals There would be no pets for those who are lonely and without family There would be no zoos for family outings There would be no circus acts with animals There would be no dog as a best friend There would be no Seeing Eye dogs There would be no animals to alert their owners of an ever present

danger during the night such as fires burglars etc I believe we simply overlook the fact there is a purpose for all of God's creatures The purpose for this book is to reveal the truth in what the bible tells about the animal kingdom We need to know God's purpose for them The bible explains in detail God's plan for his animals even after death God wants us to know about them or he would never have emphasized their importance in his word Many people are reluctant to discuss the animal kingdom from a biblical point of view I find this strange to say the least God has included them in his written word but many ministers will say very little if anything about them The scriptures in this book are from the King James Bible What the bible tells us is 100% accurate and lest we never forget God simply made no mistakes in his word The bible is never contradictory We will read scriptures that clearly explain that animals will be in heaven and why God wants them to be there with us If we had the power to give our pet's eternal life would we want the life of our animals to be temporal If God loves his animals more than we could ever love them shouldn't this type of love indicate his love for them is tremendous Since we know God can give animal's eternal life could be there any single reason to give them life that would be only temporary First we should know the bible is not dull dismal or neutral The bible is not an area between two extremes having mingled characteristics of both of them a situation in which there are no clear cut distinctions The interpretations of scriptures have been defined several ways over the years and this has caused confusion in many churches We will read scriptures about the animal kingdom that many of you may not know are in the bible We will read scriptures that are clearly stated to mean one thing and one thing only and that is Animals are to be in heaven By the time you have finished this book you will have a better understanding for the purpose of the animal kingdom You may then decide if the scriptures do indeed tell us animals have a soul do they have a spirit did God create them with a purpose in this life is he going to give them eternal life With God's help you will decide For more information please visit www.dutchman3d.com

Political Animals Rick Shenkman, 2016-01-05

Why when it comes to politics do we often seem so gullible and uninformed In *Political Animals* the bestselling historian and journalist Rick Shenkman reveals the hidden biases at work in all of us when we enter the voting booth Drawing on cutting edge research in neuroscience evolutionary psychology and behavioral psychology he explains that evolution has left us with

a brain wired for the Stone Age While these ancient instincts often work to our advantage in our personal lives in politics they usually don't Modern cues set off ancient instinctive responses that prompt us to behave in ways contrary to the good governance of our nation Shenkman illuminates not only the curious habits of the American voter today but also the ways in which voter biases have shaped American political history from the shark attacks that got Woodrow Wilson elected to the people who still defend Richard Nixon against the Watergate charges In so doing Shenkman probes the depths of the human mind to reveal what we must do to fix our floundering democracy
