The Seven Angels of the Apocalypse Peter M. Sciarrotta, 2002-08-29 It was hard to categorize *The Seven Angels of the Apocalypse* It is fiction based on the truths that loom before us all Chapter 1 is totally true as the main character encounters a stigmatic through a third party on his 21st birthday the day he was to decide about becoming a priest There are many other truths that manifest themselves throughout this book The author is able to identify who the angels of the Apocalypse actually are by name which is very bold and is able to back these up with Biblical facts that are thrown into this work The author spins a web of world events that develop well with many twists and turns and in the end all things come together in a very climatic scene Don't overlook any details given by the author as there are many covert themes present He seems to say a lot with few words as if he trusts the reader's intelligence Peter is able to bring these world events to a level that relate to the lives of everyday people while giving us an insight to the way our world leaders would handle the apocalyptic situations One point brought up by one of the book's characters Pope Peter II is monumental The Bible is the most widely published book ever why does no one know how it ends The insight the author has is straight forward and Peter does not hesitate to challenge other schools of thought The Left Behind theory is put under scrutiny and the characters give argument to this widely accepted theory quite successfully *The Seven Angels of the Apocalypse* is not a long drawn out novel which is good because the reader's attention will be so intense that you just can't put this book down This book takes you from today to the Second Coming There will be a sequel *The Millennial Reign of Jesus Christ* to take us from the Second Coming to the end of Revelations Do not read this book before bedtime
