

Year 11 into 12 Philosophy and Ethics Bridging Project

Developments in religious thought - Christianity

How did the Christian belief in God originate?

Revelation is all about God showing himself to man.

There are **two ways** of describing revelation:

General revelation involves the witness of the natural world to the existence of God. Knowledge of God is gained through the natural world i.e. looking at the beauty of the natural world and feeling the presence of God. This is known as Natural theology.

Specific revelation relates to witness of a personal nature e.g. historical events, miracles, personal experiences i.e. miracles. Sacred teachings are viewed as vehicles of specific revelation too. Different approaches across and within religions will determine the type of revelation occurs.

So how is revelation gained by human beings?

Task:

Choose two of the following examples of revelation, and research both: **the conversion of Saul (the Bible, Acts 9:1-22), the Toronto Blessing, St. Bernadette of Lourdes, the day of Pentecost (the Bible, Acts 2:1-4), the Teleological argument for God's existence, the moral argument for God's existence.**

Then, write a detailed response to the following questions:

1. Describe this revelation – what is believed to have happened/ how does this theory try to show that God exists?
2. How is God shown through this experience? i.e. does he speak to the person, is God experienced through nature, is it a theory, etc.
3. How might religious and non-religious people interpret this event/belief?
4. Do you think that this event/belief/theory shows that God exists?

Bring your project, printed and ready to hand in, to the first Philosophy and Ethics lesson you have with **Ms Cannon** in **September**. Make sure you come and ask for help beforehand if you are stuck.

Good Luck!

Wittman,2021-11-04 In The New Midlife Self Writing Wittman treats recent self writing by Rachel Cusk Roxane Gay Sarah Manguso and Maggie Nelson carefully situating these vital midlife works within the history of self writing She argues that they renew and redirect the autobiographical trajectories characteristic of earlier self writing by switching their orientation to face the future and by celebrating midlife as a growing season a time of Bildung In each chapter writer by writer she demonstrates how the midlife self writers in question trace confident and future oriented paths

through the past rejecting triumphalism and complicating both identity and individualism just as they refine and redefine genres Exploring these midlife self writers as chroniclers of Generation X s midlife in particular Wittman coins the term digital absence to map their unique relationship to new forms of knowledge and knowledge gathering in an Information Age that they are both of and set apart from She theorizes that their works share a pedagogical style a style characterized by clarity exposition and classical rhetoric as well as a concern with the classroom offering a warrant for reading them in pedagogical terms in concert with traditional scholarly approaches Furthermore Wittman presents readers with a look ahead at the future of midlife self writing as well as self writing overall concluding that we might be looking at the scholarship of the future

Finding Meaning in Life, at Midlife and Beyond David Guttman, 2008-09-30 Having been mentored by Viktor E Frankl the founder of logotherapy Emeritus Professor David Guttman authored this book so general readers may understand this approach to finding meaning in life at the point when most of us begin deeply wondering over that question at midlife and beyond Especially in this day and age of multiple demands on our time and seemingly non stop obligations we too often find that it is only when the dust settles after a work day or work week or even after retirement when we begin to wonder What is the meaning of life The purpose This book is a new millennium venture into those questions and their answers using logotherapy written by a sage understudy who recalls Frankl with his logotherapy as the epitome of his theory even at 80 years old wise and witty exuding an energy enthusiasm and youthful spirit that belied his years by decades Aging does not diminish our power our energy and our quest for life but reshapes it with new understandings goals and needs But says Guttman we live in a technical and machine based world now in which there is a danger of losing our souls Here readers find a new creative perspective on aging and a fresh spiritual outlook This book will be of interest not only to general readers especially those at midlife and beyond but also to their families friends and students or professionals in the helping professions This unique work provides knowledge to find meaning in life derived from the fields of philosophy psychology religion and gerontology with case illustrations and vignettes to give readers both intellectual pleasure and practical guidance

Discover your personal path to the sacred and explore new ways to bring nonreligious spirituality into your life **The Poor**

in Liberation Theology Tim Noble, 2014-10-14 Liberation theology has since its beginnings over forty years ago placed the poor at the heart of theology and revealed the ideologies underlying both society and church Meanwhile over this period the progressive church appears to have stagnated and the poor of Latin America have turned increasingly to neo Pentecostalism

The Poor in Liberation Theology questions whether the effect of liberation theology is to provide a pathway to God or really to construct idols out of the poor Combining the conceptual language of the philosophers Jean Luc Marion and Emmanuel Levinas with the methodology of the liberation theologian Clodovis Boff the volume outlines how liberation theology can work to ensure the poor do not become an ideological construct but remain icons of God Drawing on a wealth of material from Latin American and Europe the book demonstrates the continuing validity and importance of liberation theology and its further potential when engaged with contemporary philosophy
