

A Traveler's Look at AUSTRALIA

The first harbor in the world? That did British Capt. Arthur Phillip point the ship where on January 26, 1788, he founded the continent's first European settlement, Sydney Cove. Thousands of special events throughout 1988 will celebrate the bicentennial of this beginning and the achievements of Australia: a nation of wide open spaces, outgoing people, and strange, marvelous animals. The bicentennial's theme, "Living Together," honors Australia's diverse ethnic groups, including its first inhabitants, the Aborigines.

How it came to being Australia was the first of the world's great island nations. It was discovered by Dutch explorers in 1628, but it was not until 1788 that the first European settlement was founded. The continent was then a vast, empty land, and it was not until the 19th century that it began to develop as a nation.

Climate Australia's climate is diverse, ranging from tropical in the north to temperate in the south. The interior is mostly arid, while the coastal areas are more fertile. The climate is a major factor in the country's agriculture and tourism.

Looking At Australia:

Looking for Australia John Hirst, 2010-09 What are the qualities at the heart of Australian culture How did they arise What distinguishes us from other nations beyond a fondness for calling each other mate And what do such national quirks reveal about our society our past and our attitudes towards it Looking for Australia is a fascinating collection of essays by historian John Hirst Together they form a multi faceted portrait of Australia as a distinctive nation with its own political culture character and style and particular ways of seeing itself Among other subjects Hirst considers the effects of convict origins on national character what drove the bushrangers to their daring deeds and why Australia has compulsory voting He examines whether Aborigines played a part in the origins of Australian Rules football and asks whether Curtin was indeed our greatest prime minister He discusses how best to tell Australia s history and after reflecting on our past as a British dependency makes a stirring case for a future fully independent republic A Look at Australia Helen Frost, 2002 Simple text and photographs provide an introduction to the geography animals culture and people of Australia Includes a map
