Nathan Soderblom And The Study Of Religion:

Nathan Soderblom and the Study of Religion Eric J. Sharpe, Eric John Sharpe, 1990 Nathan Siderblom and the Study of Religion *Nathan Soderblom* Jonas Jonson ,2016 Nathan S derblom 1866 1931 was Archbishop of Uppsala in the Church of Sweden and a pioneering force behind the modern ecumenical movement A vocal advocate for peace and justice during and after World War I he was awarded the Nobel Peace Prize in 1930 This award winning biography by Jonas Jonson tells who S derblom was how he thought and what he did placing his groundbreaking ecumenical work within its academic ecclesial and political contexts **The Study of Religion in Sweden** Henrik Bogdan, Göran Larsson, 2024-03-07 This book provides a comprehensive examination of the study of religions in Sweden from the early twentieth century to the present and shows how the intersection of national and social forces shape the study of religion in specific countries and contexts It traces the establishment of the study of religions as an integrated part of Higher Education in Sweden and it critically examines the development of the most significant disciplines themes and questions that form Religious Studies in Sweden Demonstrating the interconnection between nationality and the formation of the academic study of religion the book explores how Sweden is often described as the most secularised country in the world yet the study of religions in Sweden has a long rich and diverse history The book emphasizes the interdisciplinary nature of the study of religions and bring together the voices of 30 scholars **Nathan Soderblom** Bengt G. M. Sundkler, 2023-02-23 Nathan Soderblom 1866 1931 was not only a profoundly influential figure in Swedish church history but also one of the great pioneers of the modern ecumenical movement Elected Archbishop of Uppsala the head of the Lutheran church in Sweden in 1914 he was a ceaseless advocate for peace during the first world war His collaboration with George Bell laid the foundations for intercommunion between the Church of Sweden and the Church of England Finally in the year before he died he was awarded the Nobel Peace Prize Despite this until this landmark biography he was largely neglected by historians the subject of only a few partial studies In *Nathan Soderblom His Life and Work* Bengt Sundkler corrects this with new analysis of Soderblom s meticulously preserved correspondence and interviews with his family friends and former students The resulting image is of a man deeply committed to his leadership of ecumenical projects most significantly his movement of Life and Work but also of a complex and fascinating personality **New Approaches to the Study of Religion: Regional, critical, and historical approaches** Peter Antes, Armin W. Geertz, Randi Ruth Warne, 2004 Internationally recognized scholars from many parts of the world provide a critical survey of recent developments and achievements in the global field of religious studies The work follows in the footsteps of two former publications *Classical Approaches to the Study of Religion* edited by Jacques Waardenburg 1973 and *Contemporary Approaches to the Study of Religion* edited by Frank Whaling 1984 85 *New Approaches to the Study of Religion* completes the survey of the comparative study of religion in the twentieth century by focussing on the past two decades Many of the chapters however are also

pathbreaking and point the way to future approaches **Naturalism and Protectionism in the Study of Religions** Juraj Franek, 2020-02-06 How should we study religion Must we be religious ourselves to truly understand it Do we study religion to advance our knowledge or should the study of religions help to reintroduce the sacred into our increasingly secularized world Juraj Franek argues that the study of religion has long been split into two competing paradigms reductive naturalist and non reductive protectionist While the naturalistic approach seems to run the risk of explaining religious phenomena away the protectionist approach appears to risk falling short of the methodological standards of modern science Franek uses primary source material from Greek and Latin sources to show that both competing paradigms are traceable to Presocratic philosophy and early Christian literature He presents the idea that naturalists are distant heirs not only of the French Enlightenment but also of the Ionian one Likewise he argues that protectionists owe much of their arguments and strategies not only to Luther and the Reformation but to the earliest Christian literature This book analyses the conflict between reductive and non reductive approach in the modern study of religions and positions the Cognitive Science of Religion against a background of previous theories ancient and modern to demonstrate its importance for the revindication of the naturalist paradigm **Schleiermacher, the Study of Religion, and the Future of Theology** Brent W. Sockness, Wilhelm Gräb, 2010-02-26 The past three decades have witnessed a significant transatlantic and trans disciplinary resurgence of interest in the early nineteenth century Protestant theologian and philosopher Friedrich Schleiermacher 1768 1834 As the first major Christian thinker to theorize religion in a post Enlightenment context and re conceive the task of theology accordingly Schleiermacher holds a seminal place in the histories of modern Christian thought and the modern academic study of religion alike Whereas his liberalism and humanism have always made him a controversial figure among theological traditionalists it is only recently that Schleiermacher s understanding of religion has become the target of polemics from Religious Studies scholars keen to disassociate their discipline from its partial origins in liberal Protestantism

Schleiermacher the Study of Religion and the Future of Theology documents an important meeting in the history of Schleiermacher studies at which leading scholars from Europe and North America gathered to probe the viability of key features of Schleiermacher s theological and philosophical program in light of its contested place in the study of religion

The Emergence of the Science of Religion in the Netherlands Arie Molendijk, 2018-08-14 This book explores the emergence of the science of religion in the Netherlands in the second half of the nineteenth century The emphasis is on processes of institutionalization professionalization and internationalization on the one hand and on contemporary discussions about method and conceptualization on the other *Classical Approaches to the Study of Religion* Jacques Waardenburg, 2011-05-03 No detailed description available for Classical Approaches to the Study of Religion
