Nathaniel Hawthorne And The Truth Of Dreams:

Nathaniel Hawthorne and the Truth of Dreams Rita K. Gollin, 1979 **A Companion to the American Short Story** Alfred Bendixen, James Nagel, 2020-08-24 A COMPANION TO THE AMERICAN SHORT STORY A Companion to the American Short Story traces the development of this versatile literary genre over the past two centuries Written by leading critics in the field and edited by two major scholars it explores a wide range of writers from Edgar Allen Poe and Edith Wharton at the end of the nineteenth century to important modern writers such as Ernest Hemingway William Faulkner F Scott Fitzgerald and Richard Wright Contributions with a broader focus address groups of multiethnic Asian and Jewish writers Each chapter places the short story into context focusing on the interaction of cultural forces and aesthetic principles The Companion takes account of cutting edge approaches to literary studies and contributes to the ongoing redefinition of the American canon embracing genres such as ghost and detective fiction cycles of interrelated short fiction and comic social and political stories The volume also reflects the diverse communities that have adopted this literary form and made it their own featuring entries on a variety of feminist and multicultural traditions This volume presents an important new consideration of the role of the short story in the literary history of American literature *Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics* Kumiko Mukai, 2008 Among Hawthorne's primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne's own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne's aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist's dilemma of being fettered by New England Puritanism while at the same time being attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself **Desire and the Political Unconscious in American Literature** Sam B Girgus, 1990-05-25 History, Ideology and Myth in American Fiction, 1823-52 Robert Clarke, 1984-12-06

Hawthorne's Narrative Strategies Dunne, Michael, 1995 For more than 150 years readers have interpreted Nathaniel Hawthorne's fiction in a dazzling variety of ways Instead of arguing in favor of or against what these readers conceive the fiction to mean this examination of Hawthorne's narrative strategies demonstrates how he leads readers to reason as they do

Spectres of the Self Shane McCorristine, 2010-07-22 Spectres of the Self is a fascinating study of the rich cultures surrounding the experience of seeing ghosts in England from the Reformation to the twentieth century Shane McCorristine

examines a vast range of primary and secondary sources showing how ghosts apparitions and hallucinations were imagined experienced and debated from the pages of fiction to the case reports of the Society for Psychical Research By analysing a broad range of themes from telepathy and ghost hunting to the notion of dreaming while awake and the question of why ghosts wore clothes Dr McCorristine reveals the sheer variety of ideas of ghost seeing in English society and culture He shows how the issue of ghosts remained dynamic despite the advance of science and secularism and argues that the ghost ultimately represented a spectre of the self a symbol of the psychological hauntedness of modern experience **From**

Hawthorne's narrative technique and unique vision of the world *The Style of Hawthorne's Gaze* is an unusual and insightful work that employs a combination of critical strategies drawn from art history philosophy psychoanalysis and contemporary aesthetic and literary theory to explore Nathaniel Hawthorne's narrative technique and his unique vision of the world Dolis studies Hawthorne's anti technological and essentially Romantic view of the external world and examines the recurring phenomena of lighting motion aspectivity fragmentation and imagination as they relate to his descriptive techniques Dolis sets the world of Hawthorne's work over and against the aesthetic and philosophical development of the world understood as a view from its inception in the camera obscura and perspective in general to its 19th century articulation in photography In light of this general technology of the image and drawing upon a wide range of contemporary critical theories Dolis begins his study of Hawthorne at the level of description where the world of the work first arises in the reader's consciousness Dolis

shows how the work of Heidegger Merleau Ponty Freud Lacan and Derrida can provide fresh insights into the sophisticated style of Hawthorne s perception of and system for representing reality **Papers Presented at the Longfellow Commemorative Conference ,1982**
