Nation Of Cowards:

Nation of Slaves Bagarea Cosmin Ionut, 2015-01-09 I am the missing link in the genetic chain of a national lie but also the practical recoil of the theory's execution of his existence When the pragmatic longevity of the blinding intellectual law gives signs of tiredness I charge my weapons with lethal intentions I am the hatred hidden of the darkness that restricted freedom The blood left offering of shame when the Dacians were completing the Romanity As a God brought back to life by a tear that wishes revenge I dig up the hatchet of war in the name of the Dacians who arrogate their country I am the moment who commands eternity the new moral law seduced by the grace of the spirit born of rational thought And what I leave behind the front of the confrontations between truth and lie will last in times not invented yet just as a whispered apology I am my own reverie reached the maturity of ignorance of a confused past that just spontaneously shows it to me A last desire of the history is the echo from the woods shouted it wakes my antipathy of a country even now in present subjugated **The State of the American Mind: Stupor and Pathetic Docility** Amechi Okolo PhD, 2010-06-10 This book *The State of the American Mind Stupor and Pathetic Docility* Volume One begins to unravel some of the most obvious perplexing embarrassing and enduring problems and contradictions of American history and sociology viz how could the American revolution that started with the most ringing and most inspiring Declarations of human equality in world history end up establishing the most vicious exploitative society the world ever knew Black chattel slavery and only ten percent white enfranchisement etc Further how could men of such great wisdom and intellect like George Washington James Madison Thomas Jefferson and others who were Enlightenment scholars and clearly knew that slavery was despicable and evil because they had variously experienced white servitude and slavery themselves collude to establish and institutionalize the horrible system of Negro chattel slavery in America and also disenfranchised over 90 percent of people of their own race actions that racism could not explain The structural institutional slavery system they established and the resultant consequent racism hobbles America today as it did in the past and forced Eric Holder the Attorney General to declare that America is a nation of cowards when it comes to race discussions Thus this book starts with serious critical discussions of race in America and reveals what no textbook has ever done viz that most early American whites and Blacks were slaves an uncomfortable fact that would shock most Americans because it contradicts the orthodoxy or the dominant narrative that only Blacks were brought here in chains Further the book also shows the year Black slavery started something almost all textbooks got wrong It also shows who was the first Black slave in America something no textbook ever mentions It also shows when and how racism started in America and many other very sensitive and embarrassing but necessary issues that America avoids but must be frankly discussed for America to move forward This book therefore shatters the two dominant themes of America's history and sociology that Blacks were brought into America in chains as slaves while whites came to America in search of freedom as Obama famously told us in his race speech Thus the crowning lesson of this book in addition to discussing some critical policy issues like

education health care etc is that it discovers the centripetal force of the American society that eluded contemporary Americans because American bosses have laboriously concealed the facts from the public the scary but clearly healthy uniting fact that most Americans are united by their common ancestry their universal history and experience of servitude bond indentures and slavery Nothing is more universal more common and more shared in American history and sociology than the fact that most of our ancestors black and white were servants bond indentures and slaves who were dominated and super exploited by few overlords Colonial America was the preferred dumping ground for British outcasts rejects criminals masterless class vagabonds bond indentures slaves etc until 1776 when Australia replaced America as the British dump for its rejects and surplus citizens Thus that America was a nation founded by British rejects and losers is inherently more rational than the prevailing orthodoxy or the Obama theory of Americas founders that they were great honorable men who journeyed across the ocean for freedom because of the obvious reason that good powerful achieving citizens do not normally emigrate to new uncharted lands

A Nation of Cowards? Edgar Wallace, 1908 *Blackwards* Ron Christie, 2025-09-23

The iconoclastic Black Republican strategist calls out leaders who fan the flames of racial rhetoric and sabotage a post racial America The euphoria surrounding Barack Obama's historic election had commentators naively trumpeting the beginning of a post racial America In *Blackwards* Ron Christie shows that not only is the opposite true but black leadership today is effectively working against this goal by advancing an extremist agenda of separatism and special rights that threatens to point us backward to the days before *Brown v Board of Education* The motto *E pluribus unum* Out of one many speaks to the idea of a melting pot in which Americans of all backgrounds come together to form a strong unified nation But in the race politics of today Christie argues the American melting pot is threatened by what Pulitzer Prize winning liberal historian Arthur Schlesinger Jr warned was the cult of ethnicity in which social divisions are deepened rather than transcended Christie takes on such sacred cows as affirmative action and other race based educational policies and campus programs that in the words of former NAACP officer Michael Meyers place figurative black only signs over certain doorways at America's colleges while only confirming and reinforcing pernicious racial stereotypes Meanwhile the author argues any open debate about such issues has been hijacked by such self appointed spokesmen for black America as Al Sharpton who co-opt the public narrative merely by being outspoken and charging racism against anyone who would speak against their political agendas and public grandstanding Tellingly it is within this context that then presidential candidate Obama famously declared he could not disown Reverend Jeremiah Wright for his racist and anti American sermons any more than I can disown the black community Perhaps most important Christie reveals how a separatist mind set has led to a form of selective skin based jurisprudence in the federal government including Attempts by the Congressional Black Caucus to shield black members found to have committed ethics violations The Justice Department's sudden dropping of charges against New Black Panther Party members for voter intimidation during the 2008 presidential election A former trial attorney's admission that

Americans would be shocked to learn about the open and pervasive hostility within the Justice Department to bringing civil rights cases against non white defendants on behalf of white victims As African Americans face skyrocketing rates of single parent families and high school dropouts the author urges black American communities to shun the limits of the monolithic politics of victimhood and embrace an open debate of many voices en route to the goal not of a separate Black America but of constructive inclusion in the American melting pot America in the Age of Trump Douglas E. Schoen, Jessica

Tarlov, 2017-07-04 America in the Age of Trump is a bracing essential look at the failure of a great nation to meet the needs of its people and the challenges of the age and the resulting collapse of public trust in government as well as a pervasive crisis of national values from broken families to a loss of faith in the American idea itself This crisis of values occurs just as the country faces an unprecedented array of fiscal economic social and national security challenges out of control federal spending frighteningly large deficits massive gaps of income and opportunity cultural division and a dangerous world in which American power seems increasingly incidental In America in the Age of Trump Douglas E Schoen and Jessica Tarlov offer a definitive and unique assessment of a nation in turmoil looking beneath well known problems to identify underlying yet poorly understood causes Readers will confront the crises one by one of trust values and governance of education economic opportunity and fiscal solvency of national security domestic tranquility and race relations America in the Age of Trump gathers in one place a clear and comprehensive evaluation of the fundamental issues confronting the American future while offering bold fresh approaches to meeting these challenges Other books have described the specter of American decline but none has been so comprehensive in its diagnosis or forward looking and non ideological in its remedies explaining how we might yet overcome national self doubt to reclaim our traditional optimism reassert our place in the world and secure a prosperous future for our citizens **Ghana: a Time to Heal & Renew the Nation** Kwame Afadzi

Insaidoo, 2007-08-08 In this thought provoking book the author takes a critical retrospective glance at the political development of Ghana from its colonial past to the attainment of her sovereignty and highlights the insidious fundamental flaws in the governance of the new nation He unequivocally asserts that the creation of a dysfunctional totalitarian governmental system where a cadre of unseasoned politicians systematically arrogated all power to themselves and zealously prosecuted their political adversaries into oblivion constituted the most fatal fundamental flaw in the governance of the nation He points out that the militarys delusional belief in their self appointed messianic role of liberating and redeeming Ghana from the odious dictatorship imposed on the people opened up the nation to the Pandoras box of bureaucratic ineptitude gross power abuses poorly conceived and haphazardly implemented programs which precipitated political instability stagnation and decay of the institutions of state leading to the exodus of Ghanaians abroad The dominant theme that permeates throughout the book revolves around the prevalence of the underlying institutional malaise inherited from colonial political structures which concentrate too much raw political powers in the hands of the presidency This accumulation

of near absolute power elevates our presidents to the status of benevolent dictators and so their policies go virtually unchallenged. This lack of checks and balances in our political system enabled the colonialists to totally exploit our people and when our Ghanaian leaders governed our new nation in this same odious system they got the opportunity like the colonial masters to exploit and arrogate power to themselves while utilizing the legal system as a weapon to harass their political opponents and silenced them. The author argues that this incompatibility of the colonial system with the political development of modern Ghana is the root cause of our political polarization, endemic instability and pervasive poverty.

The Scattered Nation, 1866 The Scattered Nation and Jewish Christian Magazine Carl Schwartz, 1866 **Racism Without Racists** Eduardo Bonilla-Silva, 2010. This edition includes a chapter examining the Obama mystery: the election of a black President even though racial progress has stagnated in the country since the 1980s. Bonilla Silva argues that this development is not a breakthrough in race relations but a continuation of racial trends in the last 40 years, including the sedimentation of color blind racism as the dominant ideology in the nation. Empire's New Clothes Paul Street, 2015-12-03. As Obama nears the middle of his first term as president, Paul Street assesses his performance against the expectations of his supporters. While mainstream journalists have noted discrepancies between Obama's original vision and reality, Paul Street uniquely measures Obama's record against the expectations of the truly progressive agenda: many of his supporters expected him to follow. Taken together, the list of Obama's weakened policies is startling: his business-friendly measures with the economy, the lack of support for the growing mass of unemployed and poor, the dilution of his health reform agenda, the passage of a record-setting Pentagon budget and escalation of US military violence in Afghanistan, Pakistan, Yemen and Somalia. Street's account reveals these and many other indications of how deeply beholden Obama is to existing dominant domestic and global hierarchies and doctrines.
