Excerpt from *The National Capitol Its Architecture Art and History* IN presenting this book to the public it is deemed just to say that the idea of writing a history of the Capitol was first urged upon the author by Captain Howard F Kennedy and that in the preparation of the work he has collaborated by furnishing facts and data collected by him during his long association with the building and embraced in his lecture familiar to tourists and many others This production is submitted to the public with the hope that it may merit a generous welcome at their hands If it fails to enlarge the scope of information already accumulated by other writers or to awaken in the minds and hearts of the people greater interest and pride in their Capitol the great forum of the law making power of the government such a result cannot be attributed to a want of careful research or long continued faithful labor About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
