detecting fraud and corruption and the role of parliamentary budget offices and public accounts committees *A Normative Theory of the Information Society* Alistair S. Duff, 2012-03-12 There is a clear need for a systematic integrative and rigorous normative theory of the information society In this book Duff offers a prescriptive theory to help to guide the academic and policy communities as they debate the future shape of emerging post industrial information based societies He argues that information policy needs to become anchored in a left liberal philosophy which foregrounds a feasible permutation of the core ideals of freedom equality and brotherhood The information society if it is to be worth having at all cannot be allowed to be largely the outcome of the free play of market forces and technological determinism The social structure including the information economy must be subjected to a regulatory axiological system as explicated by some leading proponents of social democracy This text will be of interest to scholars and students at the cutting edge of information studies journalism and media computer science sociology politics philosophy management and law *Hacking Capitalism* Johan Söderberg, 2015-12-22 Hacking Capitalism examines the Free and Open Source Software FOSS movement giving exceptional insight into the struggle by hackers over technological development and legislation *The Politics of Cyberconflict* Athina Karatzogianni, 2006-09-27 The Politics of Cyberconflict focuses on the implications that the phenomenon of cyberconflict conflict in computer mediated environments and the internet has on politics society and culture Athina Karatzogianni proposes a new framework for analyzing this new phenomenon which distinguishes between two types of cyberconflict ethnoreligious and sociopolitical and uses theories of conflict social movement and the media A comprehensive survey of content opinion and theory in several connected fields relating not only to information warfare and cyberconflict but also social movements and ethnoreligious movements is included Hacking between ethnoreligious groups and the use of the internet in events in China the Israel Palestine conflict India Pakistan conflict as well as the antiglobalization and antiwar movements and the 2003 Iraq War are covered in detail This is essential reading for all students of new technology politics sociology and conflict studies *Urban Youth in China: Modernity, the Internet and the Self* Fengshu Liu, 2011-01-25 Fengshu Liu situates the lives of Chinese youth and the growth of the Internet against the backdrop of rapid and profound social transformation in China In 2008 the total of Internet users in China had reached 253 million in comparison with 22.5 million in 2001 Yet despite rapid growth the Internet in China is so far a predominantly urban youth phenomenon with young people under thirty especially those under twenty four mostly members of the only child generation as the main group of the netizens population As both youth and the Internet hold the potential to inflict or at least contribute to far reaching economic social cultural and political changes this book fulfills a pressing need for a systematical investigation of how youth and the Internet are interacting with each other in a Chinese context In so doing Liu sheds light on what it means to be a Chinese today how Chineseness may be re constructed in the Internet Age and what the implications of the emerging form of identity are for contemporary and future Chinese societies as well as the world *Network Governance of Global Religions* Michel

S. Laguerre,2012-03-28 This study seeks to explain three models of network governance embedded in digital practices that the mainstream monotheistic religions Judaism Catholic Christianity and Islam have used to lead and manage the worldwide distribution of their local nodes exploring the connection between network governance and its digital embeddedness and showing how the latter enhances the performance of the former
