National Identity And Democracy In Africa:

National Identity and Democracy in Africa Mai Palmberg,1999 Province of South Africa **Media and Identity in Africa** John Middleton,Kimani Njogu,2010-01-04 What is the role of the media in Africa How do they work How do they interact with global media How do they reflect and express local culture Incorporating both African and international perspectives Media and Identity in Africa demonstrates how media outlets are used to perpetuate question or modify the unequal power relations between Africa and the rest of the world Discussions about the construction of old and new social entities which are defined by class gender ethnicity political and economic differences wealth poverty cultural behavior language and religion dominate these new assessments of communications media in Africa This volume addresses the tensions between the global and the local that have inspired creative control and use of traditional and modern forms of media The Politics of Ethnicity and National Identity Santosh C. Saha,2007 Textbook *National Identity and State Formation in Africa* Manuel Castells,Bernard Lategan,2021-03-17 This book examines how the interplay between globalization and the assertion of local identities is reshaping the political landscape of Africa While defending their values against external forces people simultaneously and paradoxically use the interconnectivity of global networks to maximize their particular interests Focusing on the relation between national identity and state formation the authors explore the far reaching consequences of these contradictory dynamics Although Africa shares many common trends with other parts of the world it also displays distinctive features A region characterized by the increased mobility of people goods and ideas challenges some conventional assumptions of statecraft and also highlights the advantages of federalism not merely as a constitutional option but as a pragmatic device for managing diversity and holding fragile states together The book further explores emerging types of state formation in the same political space as exemplified by the combination of elements of a kingdom an independent state and a national power base in the province of KwaZulu Natal and the careful crafting of an alternative state within a state by the Solidarity Movement in South Africa Informed by examples and case studies drawn from different parts of Africa this book will be of great interest to students and scholars of Africa politics sociology media studies and the social sciences more generally **Identity?** S. B. Bekker,Rachel Prinsloo,1999 The first of two companion volumes emanating from the partnership between the French Institute IFAS the Institute for Global Dialogue IGD formerly FGD and the Human Sciences Research Council HSRC and based on the 1997 conference of the same name held in Pretoria the second volume entitled *Shifting African Identities* is based on the 1998 Cape Town conference also of the same name a third companion volume in this series on identity and nation building is entitled *National Identity and Democracy in Africa* a joint product of the Nordic Africa Institute Sweden and the Mayibuye Centre at UWC based on their March 1997 conference **Migration and National Identity in South Africa, 1860-2010** Audie Klotz,2013-09-16 An extraordinary outbreak of xenophobic violence in May 2008 shocked South Africa but hostility toward newcomers has a long history Democratization

has channeled such discontent into a non racial nationalism that specifically targets foreign Africans as a threat to prosperity Finding suitable governmental and societal responses requires a better understanding of the complex legacies of segregation that underpin current immigration policies and practices Unfortunately conventional wisdoms of path dependency promote excessive fatalism and ignore how much South Africa is a typical settler state A century ago its policy makers shared innovative ideas with Australia and Canada and these peers which now openly wrestle with their own racist past merit renewed attention As unpalatable as the comparison might be to contemporary advocates of multiculturalism rethinking restrictions in South Africa can also offer lessons for reconciling competing claims of indigeneity through multiple levels of representation and rights *Understanding Identity in Africa* Robert B. Mattes,2004 [South Africa's Democracy at the Crossroads](#) Daniel Silander,Charlotte Silander,Herman van der Elst,Pieter Heydenrych,2022-04-18 South Africa's democracy faces increasing challenges from within whether from protest bad governance or general public dissatisfaction South Africa's Democracy at the Crossroads explores the question what are the challenges to future democratization in South Africa

Language and National Identity in Africa Andrew Simpson,2008-02-07 This book focuses on language culture and identity in nineteen countries in Africa Leading specialists mainly from Africa describe national linguistic and political histories assess the status of majority and minority languages and consider the role of language in ethnic conflict **State Building and National Identity Reconstruction in the Horn of Africa** Redie Bereketeab,2017-02-10 This book examines post secession and post transition state building in Somaliland Somalia South Sudan and Sudan It explores two intimately linked yet analytically distinct themes state building and national identity reconstruction following secession and collapse In Somaliland and South Sudan rearranging the state requires a complete metamorphosis of state institutions so that they respond to the needs and interests of the people In Sudan and Somalia the reconfiguration of the remains of the state must address a new reality and demands on the ground All four cases examined although highly variable involve conflict Conflict defines the scope depth and momentum of the state building and state reconstruction process It also determines the contours and parameters of the projects to reconstitute national identity and rebuild a nation Addressing the contested identity formation and its direct relation to state building would therefore go a long way in mitigating conflicts and state crisis
