National Rights International Obligations:

National Rights, International Obligations Simon Caney, David George, Peter Jones Prof., 2018-02-07 Nationalism is once again rising and spreading Nationlist movements are active throughout the world demanding political recognition of their nations identity Yet the current revival of nationalism has taken place alongside claims that nation states are becoming obsolete in an increasingly globalized world In addition now perhaps more than ever people are conscious of humanity as a whole and are ready to take seriously the international dimensions of morality In this collection of timely essays distinguished moral and political philosophers examine issues raised by the competing claims of nationhood and internationalism from a variety of perspectives and defend a variety of answers Questions discussed include Is humanity really divided into nations or are nations invented by nationalists Does a nation have the right to be self determining If so must each nation form a separate and sovereign state Do our obligations stop at national boundaries Do we not have obligations to human beings as such Why then should we be less concerned about foreigners than about our compatriots Can we be concerned for social justice within societies yet not across the world as a whole If we embrace ideas of human rights and global obligations how do we establish what those rights and obligations actually are Is it proper plausible or practical to aspire to such universal moral principles in a world characterized by national diversity and cultural difference

The Right to Development: Obligations of States and the Rights of Minorities and Indigenous Peoples Margot E. Salomon, Arjun Sengupta, 2003-02-10 The United Nations adopted the Declaration on the Right to Development in 1986 The Declaration recognizes that development is an inalienable human right and describes development as a comprehensive process leading to the well being of all people All states are called upon to cooperate

internationally and work nationally to ensure that this comprehensive process in which all human rights can be realized is undertaken without discrimination and that all people may participate fully and equally in this process This paper provides an elaboration of the content of the right to development by drawing on international law It addresses the obligations of states particularly with regard to international cooperation and considers the application of obligations of conduct as well as those of result in giving this right meaning This paper also details the rights of minorities and indigenous peoples and how they relate to the right to development The creation of conditions that enable a state to develop will not necessarily lead to the realization of the right to development by the individuals within that state Traditionally marginalized groups notably minorities and indigenous peoples may not benefit from this development or may be harmed by it Even where the right to development is being realized by the majority the rights of minorities and indigenous peoples could be violated if the process undertaken does not take account of their rights The authors discuss the need to have in place the standards to ensure that the protection and promotion of minority and indigenous rights are fully integrated into policies designed to fulfil the right to development Written in cooperation with the UN Independent Expert on the right to development this work builds on his contribution to the mandated objectives of the inter state UN Working Group on the Right to Development It provides an important contribution to the scope of rights and obligations in this area and the implications that stem from them particularly for minorities and indigenous peoples , Human Rights Obligations of Non-State Actors Andrew Clapham, 2006-03-02 The threats to human rights posed by non state actors are of increasing concern Human rights activists increasingly address the activity of multinational corporations the policies of international organizations such as the World Bank and the World Trade Organization and international crimes committed by entities such as armed opposition groups and terrorists This book presents an approach to human rights that goes beyond the traditional focus on states and outlines the human rights obligations of non state actors Furthermore it addresses some of the ways in which these entities can be held legally accountable for their actions in various jurisdictions The political debate concerning the appropriateness of expanding human rights scrutiny to non state actors is discussed and dissected For some extending human rights into these spheres trivializes human rights and allows abusive governments to distract us from ongoing violations For others such an extension is essential if human rights are properly to address the current concerns of women and workers The main focus of the book however is on the legal obligations of non state actors The book discusses how developments in the fields of international responsibility and international criminal law have implications for building a framework for the human rights obligations of non state actors in international law In turn these international developments have drawn on the changing ways in which human rights are implemented in national law A selection of national jurisdictions including the United States South Africa and the United Kingdom are examined with regard to the application of human rights law to non state actors The book s final part includes suggestions with regard to understanding the parameters of the human rights obligations of non state actors

Key to understanding the legal obligations of non state actors are concepts such as dignity and democracy While neither concept can unravel the dilemmas involved in the application of human rights law to non state actors a better understanding of the tensions surrounding these concepts can help us to understand what is at stake *Freedom from Poverty as a Human Right* Thomas Pogge,2007 Collected here are fifteen essays about the severe poverty that today afflicts billions of human lives The essays seek to explain why freedom from poverty is a human right and what duties this right creates for the affluent This volume derives from a UNESCO philosophy program organized in response to the first of the Millennium Development Goals MDGs adopted by the United Nations General Assembly in 2000 to eradicate extreme poverty and hunger Publisher s description **The Global Covenant** Robert Jackson,2003-03-27 The Global Covenant is a ground breaking work by one of the leading scholars in international relations that rejuvenates the classical international society approach and brings it into contact with the new era of world politics It investigates the most important international issues of our time including peace and security war and intervention human rights failed states territories and boundaries and democracy It draws on a family of closely related disciplines diplomatic and military history international legal studies and international political theory It addresses basic methodological questions and presents the elements of a human sciences approach to the study of world politics It contemplates the future of international society in the 21st century The Global Covenant concludes by justifying the pluralist society of sovereign states as one that respects human diversity and upholds human freedom **Justice Beyond Borders** Simon Caney,2006-07-20 This text examines which political principles should govern global politics exploring the ethical issues that arise at the global level and addressing questions such as are there universal values Is national self determination defensible And when if ever may political regimes wage war **National Responsibility and Global Justice** David Miller,2007-11-22 Steering a middle course between cosmopolitanism and a narrow nationalism the book develops an original theory of global justice that also addresses controversial topics such as immigration and reparations for historic wrongdoing *A Global Handbook on National Human Rights Protection Systems* Bertrand G. Ramcharan,Gianni Magazzeni,Mona M'Bikay,Inès French,2023-09-29 The human rights movement strives to develop a universal culture of human rights in all societies as well as to confront gross violations This book the first ever of its kind is a veritable State of the World Report on Human Rights It reproduces summaries by UN High Commissioners for Human Rights on the state of the national human rights protection systems of each UN Member State These summaries were sent following each state s passage through the Universal Periodic Review UPR process of the UN Human Rights Council The summaries identify each state s constitutional legal judicial and institutional architecture international conventions not yet ratified areas of progress problem areas and problems affecting different parts of the population The High Commissioners summaries reproduced here are preceded by insightful reflections on the concept of a national human rights protection system and by regional outlines of national human rights protection systems in the Americas and the Caribbean Europe Africa Asia and the

Pacific The book also contains some case studies of the national human rights protection systems of sample states such as Australia Bhutan Brazil Canada Democratic Republic of the Congo Guyana Portugal Switzerland Sweden and South Africa
