V. I. (Vladimir Il'ch) Lenin, 1969 *The National Liberation Movement in the East* V. I. Lenin, 1957 **Southern African Liberation Movements and the Global Cold War 'East'** Lena Dallywater, Chris Saunders, Helder Adegar
Fonseca, 2019-06-17 In the global context of the Cold War the relationship between liberation movements and Eastern European states obviously changed and transformed Similarly forms of material aid and ideological encouragement underwent changes over time The articles assembled in this volume argue that the traditional Cold War geography of bi polar competition with the United States is not sufficient to fully grasp these transformations The question of which side of the ideological divide was more successful or lucky in impacting actors and societies in the global south is still relevant yet the Cold War perspective falls short in unfolding the complex geographies of connections and the multipolarity of actions and transactions that exists until today Acknowledging the complexities of liberation movements in globalization processes the papers thus argue that activities need to be understood in their local context including personal agendas and internal conflicts rather than relying primarily on the traditional frame of Cold War competition They point to the agency of individual activists in both Africa and Eastern Europe and the lessons practices and languages that were derived from their often contradictory encounters In *Southern African Liberation Movements* authors from South Africa Portugal Austria and Germany ask What role did actors in both Southern Africa and Eastern Europe play What can we learn by looking at biographies in a time of increasing racial and international conflict And which creative solutions need to be found to combine efforts of actors from various ideological camps Building on archival sources from various regions in different languages case studies presented in the edition try to encounter the lack of a coherent state of the art They aim at combining the sometimes scarce sources with qualitative interviews to give answers to the many open questions regarding Southern African liberation movements and their connections to the East **Historical Evolution of the Eastern Mode of Production** Zhao Jiaxiang, 2020-06-09 In the four volumes of *The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism* the author re examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and a historical investigation of socialist revolution and socialist construction around the world This second volume focuses on Marx and Engels historical materialism explains the general laws of historical development and brings this to bear within the context of Eastern societies The author notes that Marx and Engels historical materialism and its derivative theories on Eastern societies are compatible and interconnected In addition he reveals how Marx and Engels theory of the Asiatic mode of production plays an important part in the development

trajectory of Eastern societies and is closely related to their theory of five social forms This volume is a key reference for readers who study and are interested in Marxism Marxist philosophy and the history of philosophy **The Development Trajectory of Eastern Societies and the Theories and Practices of Socialism** Zhao Jiaxiang,2022-07-30 In the four volumes of The Development Trajectory of Eastern societies and the Theories and Practices of Socialism the author re examines Marx and Engels theories on the development trajectory of Eastern societies by integrating theoretical analysis of Marxist theories and an historical investigation of socialist revolution and socialist construction around the world The collection challenges some predominant interpretations of Marx and Engels historical materialism by focusing on that materialism explaining the general laws of historical development and its particular trajectory in Eastern societies discussing the attempts of the Russian Commune to avoid the torments of the capitalist system and tracing the victories and failures of the 100 year trajectory of socialism The significance of Marx and Engels socialist theories for contemporary social development in the Eastern societies is henceforth laid bare The book will be a key reference for readers studying Marxism Marxist philosophy and the history of philosophy *Daily Report, Foreign Radio Broadcasts* United States.
