National Minorities And Citizenship Rights In Lithuania 1988 1993:

National Minorities and Citizenship Rights in Lithuania, 1988-93 V. Popovski, 2000-11-08 This book examines the emergence of nationalism in Lithuania specifically the Lithuanian national movement known as Sajudis and its approach towards the citizenship rights of national minorities The study concentrates on the period between 1988 and 1993 when the national majority and minorities began forming and debating citizenship rights The question of citizenship rights of national minorities is not ordinarily viewed as a problem with regard to Lithuania and there has consequently been minimal attention devoted to this topic This book addresses this neglect and brings the underlying assumptions into critical perspective by analysing the Lithuanian situation not just according to the letter of the law but also in terms of how these laws were implemented and how the minorities responded to them In doing so the book explores the conflict which emerged between the growing national movement and the ideals of citizenship such as multicultural pluralism diversity and heterogeneity The book therefore has relevance to all those who are interested in postcommunist societies and in particular the tensions that frequently develop between nationalism and citizenship

Minority Rights and Minority Protection in Europe Timofey Agarin, Karl Cordell, 2016-03-24 In order to gain access to the EU nations must be seen to implement formal instruments that protect the rights of minorities This book examines the ways in which these tools have worked in a number of post communist states and explores the interaction of domestic and international structures that determine the application of these policies Using empirical examples and comparative cases the text explores three levels of policy making within sub state and national politics and within international agreements laws and policy blueprints This enables the authors to establish how domestic policymakers negotiate various structural factors in order to interpret rights norms and implement them long enough to gain EU accession Showing that it is necessary to focus upon the states of post communist Europe as autonomous actors and not as mere recipients of directives and initiatives from the West the book shows how underlying structural conditions allow domestic policy actors to talk the talk of rights protection without walking the walk of implementing minority rights legislation on their territories

Historical Dictionary of Lithuania Saulius A. Suziedelis, 2011-02-07 The Lithuanian people have undergone historic changes quite different from those of other European nations In earlier centuries geography provided strategic advantage and opportunities for expansion but in recent times the country has more often experienced location as a geopolitical curse After constantly losing territory and shrinking in size the country disappeared in 1795 However after World War I a popular national movement led to the restoration of Lithuania as an independent state World War II and its

bloody aftermath brought foreign occupation as well as genocide mass murder and destruction unparalleled in the country's modern history The restoration of independence in 1990 has fundamentally altered Lithuania's geopolitical reality Integration into the European Union and the North Atlantic Treaty Organization promise a new level of security for the Lithuanian state in the 21st century even as the social and economic transformations present both promising opportunities and difficult challenges The second edition of the Historical Dictionary of Lithuania will serve as a useful introduction to virtually all aspects of Lithuania's historical experience including the country's relations with its neighbors This is done through a chronology an introductory essay an extensive bibliography and over 300 cross referenced dictionary entries on significant persons places and events institutions and organizations and political economic social cultural and religious facets

Political Community Building in the Post-Soviet Baltic States Dovile Budryte, 2017-05-15 Revisiting the process of political community building in Estonia Latvia and Lithuania this book analyzes the roles that international actors have played in these processes and assesses the unintended consequences of this involvement The study differs from other works on ethnic minorities and nationalism in the former Soviet Union by exploring the use of minority rights discourse and the salience of historical memory Case studies examine the transformation of nationalism in Estonia Latvia and Lithuania all former Soviet republics which have experienced Soviet nationalities policy first hand Primarily intended for an academic audience and practitioners interested in promoting tolerance in multi ethnic societies the book's historical narrative will also appeal to readers with a general interest in the former Soviet Union and post Communism

Minority Rules David Lublin, 2014 When we think of minorities linguistic ethnic religious regional or racial in world politics conflict is often the first thing that comes to mind Indeed discord and tension are the depressing norms in many states across the globe Iraq the former Yugoslavia Sudan Israel Sri Lanka Burma Rwanda and many more But as David Lublin points out in this magisterial survey of minority based political groups across the globe such parties typically function fairly well within larger polities In *Minority Rules* he eschews the usual approach of shining attention on conflict and instead looks at the representation of minority groups in largely peaceful and democratic countries throughout the world from the tiniest nations in Polynesia to great powers like Russia Specifically he examines factors behind the electoral success of ethnic and regional parties and alternatively their failure to ever coalesce to explain how peaceful democracies manage relations between different groups Contrary to theories that emphasize sources of minority discontent that exacerbate ethnic cleavages for instance disputes over control of natural resource wealth *Minority Rules* demonstrates that electoral rules play a dominant role in explaining not just why ethnic and regional parties perform poorly or well but why one potential ethnic cleavage emerges instead of another This is important because the emergence of ethnic regional parties along with the failure to incorporate them meaningfully into political systems has long been associated with ethnic conflict Therefore Lublin's findings which derive from an unprecedentedly rich empirical foundation have important implications not only for reaching successful settlements

to such conflicts but also for preventing violent majority minority conflicts from ever occurring in the first place **A**
