Text and photographs** Spyros Meletzis, Helen Papadakis, **National Museum of Archaeology, Athens** Hélène Papadakis, 1964 *National Museums and the Origins of Nations* Sheila Watson, 2020-10-28 National Museums and the Origins of Nations provides the first international survey of origins stories in national museums and examines the ways in which such museums use the distant past as a vehicle to reflect the concerns of the political present Offering an international comparison of institutions in China North and South America the Middle East Europe and Australia the book argues that national museums tell us more about what sort of community a nation wishes to be today than how and why that nation came into being Watson also reveals the ways in which narrative and exhibition design attempt to engage the visitor in an emotional experience designed to promote loyalty to and pride in the nation or to remind visitors who are not citizens that they do not belong These narratives of origin are it is claimed based on so called factual accuracies but this book reveals that they are often selective emotional and rarely critiqued within institutions At a time when nationalism is very much back on the political agenda this book highlights how museums reflect current political and social concerns National Museums and the Origins of Nations will appeal to academics and students engaged in the study of museums heritage politics nationalism and history National Archaeological Museum Nikos E. Kaltsas, Lena Papazoglou-Manioudaki, Rosa Proskinitopoulou, 2010 This brief guide informs the reader about the collections of the National Archaeological Museum and the wealth and variety of its exhibits which span the long history of the ancient world Rather than giving detailed descriptions of the various items on display it gives general information about all the collections with an emphasis on the way they are presented in the rooms of the Museum At the same time it illustrates works which are representative of each collection and which bear witness to the artistic quality and value of the exhibits in the largest and most important museum in Greece
