

Gender-Blindness in the Study of Nationalism

- Nationalism: 'it is hard to think of any political phenomenon which remains so puzzling and about which there is less analytic consensus' (Anderson 1996 in *Mapping the Nation*).
- Literature on nationalism has not been interested in questions of gender or the differential participation of women and men.
- Texts on nationalism that try to incorporate a gendered perspective usually just 'tack on' gender.

conflict transformation in Northern Ireland preserved older conservative narratives about gender and sexuality. As older narratives clashed with progressive forms of sexual and gender politics, the core sites of conflict transformation became arenas of gender and sexual struggles. The book outlines these struggles and charts the positive and inclusive visions of peace developed by activists throughout the period of conflict transformation. This book will be of much interest to students of gender studies, conflict transformation, ethnic conflict, peace studies, and Irish politics.

Gender and Nation Nira Yuval-Davis, 1997-03-25 Nira Yuval-Davis provides an authoritative overview and critique of writings on gender and nationhood, presenting an original analysis of the ways gender relations affect and are affected by national projects and processes. In *Gender and Nation*, Yuval-Davis argues that the construction of nationhood involves specific notions of both manhood and womanhood. She examines the contribution of gender relations to key dimensions of nationalist projects: the nation's reproduction, its culture and citizenship, as well as to national conflicts and wars, exploring the contesting relations between feminism and nationalism. *Gender and Nation* is an important contribution to the debates on citizenship, gender, and nationhood. It will be essential reading for academics and students of women's studies, race and ethnic studies, sociology, and political science.

Gender Ironies of Nationalism Tamar Mayer, 2012-10-12 This book provides a unique social science reading on the construction of nation, gender, and sexuality, and on the interactions among them. It includes international case studies from Indonesia, Ireland, former Yugoslavia, Liberia, Sri Lanka, Australia, the USA, Turkey, China, India, and the Caribbean. The contributors offer both the masculine and feminine perspective, exposing how nations are comprised of sexed bodies and exploring the gender ironies of nationalism and how sexuality plays a key role in nation building and in sustaining national identity. The contributors conclude that control over access to the benefits of belonging to the nation is invariably gendered: nationalism becomes the language through which sexual control and repression is justified; masculine prowess is expressed and exercised. Whilst it is men who claim the prerogatives of nation and nation building, it is for the most part women who actually accept the obligation of nation and nation building.

Women, the State, and War Joyce P. Kaufman, Kristen P. Williams, 2007-12-24 *Women, the State, and War* looks at the intersection of gender, citizenship, and nationalism, marriage, intermarriage, and how states gender that relationship and the ways in which women are used as symbols to reinforce or further nationalistic goals. Women have long struggled with issues of citizenship, identity, and the challenge of being recognized as equal members of the community. Governments use feminine imagery, e.g. mother country, to create a national identity while simultaneously minimizing the role that women play as productive contributors to the society. Authors Joyce P. Kaufman and Kristen P. Williams examine the relationship of government and women in four different countries: the United States, Israel, the former Yugoslavia, and Northern Ireland. In each case, numerous similarities appear: conflict plays a significant role in the definition of citizenship for women; women's movements have worked in contradiction to the state; and citizenship and marriage are gendered undertakings.
