Popper's Open Society After Fifty Years Ian Jarvie, Sandra Pralong, 2005-08-12 Popper's Open Society After Fifty Years presents a coherent survey of the reception and influence of Karl Popper's masterpiece *The Open Society and its Enemies* over the fifty years since its publication in 1945 as well as applying some of its principles to the context of modern Eastern Europe. This unique volume contains papers by many of Popper's contemporaries and friends including such luminaries as Ernst Gombrich in his paper *The Open Society and its Enemies Remembering its Publication Fifty Years Ago* **State**, 1990

Al-Khouri, 2013 *Summary Critical Thoughts From A Government Perspective* illustrates a broad picture that is grounded in the realities of day to day issues faced by public sector managers in the Gulf Cooperation Council (GCC) countries. The chapters in the book examine the main areas of importance for public sector leaders; they have been grouped into four distinct categories: strategic management, organisational performance, e-government, and national identity. The objective of *Critical Thoughts From A Government Perspective* is to help augment recent public sector development efforts in the GCC, contribute to the advancement of research on the GCC, and serve as knowledge building tools for those interested in learning about public sector management practices in GCC countries. **Key Features** Many books about the GCC governmental sector are typically written from either a purely academic perspective or present a small subset of available research, thereby failing to capture critical management issues and considerations. Therefore, *Critical Thoughts From A Government Perspective* not only embodies insights based on extensive research but also the collective insights of numerous senior government practitioners. *Critical Thoughts From A Government Perspective* has been written from a philosophical mind set in the sense that if we need to improve our organisations and thereafter our nations, we need to be transparent when we share knowledge and practices. *Critical Thoughts From A Government Perspective* is easy to read and is highly practical. The Author Dr Al Khouri is the Director General Under Secretary of the Emirates Identity Authority, a federal government organisation established in 2004 to rollout and manage the national identity management infrastructure program in the United Arab

Emirates Contents Strategic management Public value and ROI in the government sector Strategy development at Emirates Identity Authority Targeting results lessons learned from the UAE National ID Program Re thinking enrolment in identity card schemes Organisational performance Improving organisational performance through understanding human motivation Succeeding with transformational initiatives E government Supporting e government progress in the UAE National identity Population growth and governments modernisation efforts the case of GCC countries *Divided Passions* Paul R.

Mendes-Flohr,1991 Paul Mendes Flohr is emerging as the leading Jewish intellectual historian of the present generation In particular he is responsible for a significant amount of the important and pertinent scholarship in the field of German Jewish intellectual history No one else is quite as intimately knowledgeable with this material the ambiguous legacy of one of the most inventive and poignant episodes of creativity in the life of the Diaspora *Divided Passions* is a collection of published and unpublished essays and articles by Paul Mendes Flohr from the past decade In a manner that underscores their continued relevance and significance Mendes Flohr writes about the problems that Buber Rosenzweig Bloch Simon Scholem and others tried to crystallize and resolve Mendes Flohr moves with effortless authority among the disciplines of theology philosophy literature history and sociology Fitted with these interdisciplinary resources he enriches his treatment of themes and figures in ways that exceed the scope to say nothing of the execution found in other literature The book conveys a rare metaphysical depth for questions of faith identity and Dasein explored by the intellectual figures of the past are also personal ones for the author as well Mendes Flohr s exceptional ability to keep this body of work alive and available provides an outstanding source of commentary on the subjects that dominate the agenda of modern Jewish studies *World Fascism* Cyprian

Blamires,2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism s heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale *World Fascism A Historical Encyclopedia* covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology s lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism s enduring appeal *The Politics and Poetics of Translation in Turkey, 1923-1960* Şehnaz Tahir Gürçağlar,2008 The present book is a bold attempt at revealing the complex and diversified

nature of the field of translated literature in Turkey during a period of radical socio political change On the broad level it investigates the implications of the political transformation experienced in Turkey after the proclamation of the Republic for the cultural and literary fields including the field of translated literature On a more specific level it holds translation under focus and explores the discourse formed on translation and translators while it also traces the norms not observed by translators throughout the 1920s 1950s in two case studies The findings of the study suggest that the concepts of translation both affected and were affected by cultural processes in the society including ideological and poetological ones and that there was no uniform way of defining or carrying out translations during the period under study The findings also point at the segmentation of readership in early republican Turkey and conclude that the political and poetological factors governing the production and reception of translations varied for different segments of readers
