## **Nationalism And Exclusion Of Migrants:**

**Nationalism and Exclusion of Migrants** Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 The association of exclusionist and nationalist relations termed ethnocentrism has been previously explored within single country contexts. Studies have shown that dispositional factors such as social identity and personality traits affect ethnocentric reactions and that attitudes differ between social categories. However, broader national and international explanations have been neglected in the literature. This book fills this major gap by providing a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries, the US, Canada, and Australia. Drawing on a variety of comparative surveys, the authors assess whether ethnic exclusionist reactions and nationalist attitudes are indeed systematically related across countries and whether variations in such attitudes reflect country level as well as individual level differences. The authors consider the multidimensionality of the concepts of nationalism and exclusionism as well as the empirical associations and analyze the attitudes of both majority and minority groups within the countries studied.

**Nationalism and Exclusion of Migrants** Mérove Gijsberts, Louk Hagendoorn, 2017-07-05 This ground breaking book draws on a variety of comparative surveys to provide a unique account of the relationship between nationalist attitudes and the exclusion of migrants across a range of European countries, the US, Canada, and Australia. **Migration and**

**Nationalism** Michael Samers, Jens Rydgren, 2024-01-18 This cutting edge book presents a unique focus on nationalism and migration, exploring the relationship between these two concepts in countries throughout the world. Combining theoretical and empirical discussions from a range of disciplinary perspectives, the book interrogates the consequences of nationalism for migration in the 21st century. Generations and Nationalism Alain-G Gagnon, Luc Turgeon, 2025-09-02

Generations and Nationalism breaks new ground by placing the impact of generation and generational changes at the forefront of an investigation on the transformation of nationalist movements and the evolution of support for independence in Catalonia, Quebec, and Scotland. The main objective of the book is to explore how a focus on generations and generational change can add first to the theoretical toolkit used in the study of nationalism and second can lead to a better understanding of the recent evolution of nationalism in these three internal nations. Catalonia, Quebec, and Scotland. The book is also an occasion to revisit the distinct evolution of nationalism in these three internal nations that have been the object of important comparative studies in the past and frequent comparisons in public discourses but in which nationalist movements have gone through relatively distinct transformations over the past decade. The different chapters tackle nation building, autonomy and self-determination, ethnic identity, conflict and accommodation, ethnonationalism, irredentism and separatism, and immigration, naturalization and citizenship. The book is also unique to the extent that it establishes a dialogue between scholars who are specialists of public opinion, drawing on quantitative methods and scholars drawing on different comparative historical perspectives in sociology and political science. Containing both theoretical discussions of nationalism as well as case studies.

and comparative analyses of nationalist movements Generations and Nationalism will be of great interest to students and scholars researching nationalism public opinion youth politics political theory and quantitative and historical methods

**Turkish Migration Policy** Ibrahim Sirkeci,Barbara Pusch,2016-06-04 TURKISH MIGRATION POLICY edited by Ibrahim Sirkeci and Barbara Pusch aims to shed light on changes in migration policy determinants beneath these changes and practical implications for movers and non movers in Turkey Nevertheless one should note that Turkey has only recently faced mass immigration and the number of foreign born has more than doubled in less than five years Such sudden change in population composition warrants policy adjustments and reviews Policy shift from exporting excess labour in the 1960s and 1970s to immigrant integration today is a drastic but necessary one Nevertheless Turkish migration policy is still far from settled as several chapters in this book point out Despite the exemplary humanitarian engagement in admitting Syrians Turkey is still at the bottom of the league table of favourable integration policies with an overall score of 25 out of 100 Turkish migration policy is likely to be adjusted further in response to the continuing immigration

**The Nationalist**

**Dilemma** Marvin Suesse, 2023-05-11 Nationalists think about the economy Marvin Suesse argues and this thinking matters once nationalists hold political power Many nationalists seek to limit global exchange but others prioritise economic development The potential conflict between these two goals shapes nationalist policy making Drawing on historical case studies from thirty countries from the American Revolution to the rise of China this book paints a broad panorama of economic nationalism over the past 250 years It explains why such thinking has become influential despite the internal contradictions and chequered record of many nationalist policy makers At the root of economic nationalism's appeal is its ability to capitalise upon economic inequality both domestic and international These inequalities are reinforced by political factors such as empire building ethnic conflicts and financial crises This has given rise to powerful nationalist movements that have decisively shaped the global exchange of goods people and capital
