Nations Cities A Comparison Of Strate:

Comparative Analysis Of Nations Robert Perry, 2019-03-01 The comparative method is fundamental and critical for political scientists and especially those interested in comparative politics Such questions as how democratic is the United States how rich is Germany and how ethnically complex is Nigeria and what effects these attributes have on important political phenomena cannot be analyzed except comparatively To understand politics we need to think in terms of concepts processes behavior and authority patterns that transcend specific regions or nation states Comparative Analysis of Nations is designed to address three questions confronting the study of politics 1 What do I do once I have identified a question that I want to explore within a cross national perspective 2 How do I proceed so I adequately address this question 3 Why should I proceed with this particular study plan Perry and Robertson examine how to conceptualize operationalize measure sample analyze and evaluate these research questions In clear language they stress the logic behind basic techniques of quantitative analysis issues of measurement and hypothesis testing basic techniques of hypothesis testing tabular analysis ANOVA scatterplots bivariate regression and advanced bivariate analysis curvilinear and multiple regression The book requires no previous training in statistics or math Cross national data sets accompany the book on a CD ROM and are compatible with the popular SPSS package The data sets enable the instructor the opportunity to engage the students directly in devising their own modified models of analysis to complement and extend the demonstrations within the text In sum the text integrates the core tools and strategies of social science analysis within a framework that highlights the quantitative study of comparative politics

The State of African Cities 2008, 2008 With rapidly increasing urban populations cities in Africa are faced with enormous challenges and will have to find ways to facilitate by 2015 urban services livelihoods and housing for more than twice as many urban dwellers than it has today A worrying trend with the African urbanization process is that it is a process rooted in poverty rather than an industrialization induced socio economic transition as in other major world urban regions Africas escalating urban problems have received less attention than warranted and now at the dawn of Africas urban age these need to be addressed publisher *State and Municipal Bonds* William Lee Raymond, 1923
