Nations Without Nationalism:

Nations Without Nationalism Julia Kristeva, 1993 Underlying Julia Kristeva's latest work is the idea that otherness whether it be ethnic religious social or political needs to be understood and accepted in order to guarantee social harmony Nations Without Nationalism is an impassioned plea for tolerance and for commonality aimed at a world brimming over with racism and xenophobia Responding to the rise of neo Nazi groups in Germany and Eastern Europe and the continued popularity of the National Front in France Kristeva turns to the origins of the nation state to illustrate the problematic nature of nationalism and its complex configurations in subsequent centuries For Kristeva the key to commonality can be found in Montesquieu's esprit general his notion of the social body as a guaranteed hierarchy of private rights Nations Without Nationalism also contains Kristeva's thoughts on Harlem Desir the founder of the antiracist organization SOS Racisme the links between psychoanalysis and nationalism the historical nature of French national identity the relationship between esprit general and Volksgeist Charles de Gaulle's complex ideas involving the nation and his dream of a unified Europe In the tradition of Strangers to Ourselves her most recent nonfiction work Nations Without Nationalism reflects a passionate commitment to enlightenment and social justice As ethnic strife persists in Europe and the United States Kristeva's humanistic message carries with it a special resonance and urgency Nations without States Montserrat Guibernau, 2013-07-10 Guibernau offers a comparative analysis of nationalist movements in nations without states

revival of nationalism across the recent history of modernity in particular the past two decades has taken many scholars in the social sciences by surprise In response interest in the analysis of nationalism has increased and given rise to a great variety of new angles under which to study the phenomenon What was missing in the cacophony of voices addressing nationalism was a volume that brought them together and confronted them with each other This handbook does just that It deserves particular praise for the wide range of approaches and topic included and for the systematic attempt at studying nationalism as a phenomenon of our time not a remnant from the past Peter Wagner Professor of Social and Political Theory European University Institute and Professor of Sociology University of Warwick For students concerned with the contemporary study of nationalism this will be an invaluable publication The three fold division into approaches themes and cases is a very solid and sensible one The editors have commissioned essays from leading scholars in the field and this handbook provides the best single volume overview of contemporary nationalism John Breuilly Professor of Nationalism and Ethnicity London School of Economics Nationalism has long excited debate in political social and cultural theory and remains a key field of enquiry among historians anthropologists sociologists as well as political scientists It is also one of the critical media issues of our time There are however surprisingly few volumes that bring together the best of this intellectual diversity into one collection This Handbook gives readers a critical survey of the latest theories and debates and provides a glimpse of the issues that will shape their future Its three sections guide the reader through the theoretical approaches to this field of study its major themes from modernity to memory migration and genocide and the diversity of nationalisms found around the globe The overall aim of this Handbook is to relate theories and debates within and across a range of disciplines illuminate themes and issues of central importance in both historical and contemporary contexts and show how nationalism has impacted upon and interacted with other political and social forms and forces This book provides a much needed resource for scholars in international relations political science social theory and sociology Julia Kristeva Sara Beardsworth, 2012-02-01 Honorable Mention 2006 Goethe Award for Psychoanalytic Scholarship presented by the Section on Psychoanalysis of the Canadian Psychological Association This is the first systematic overview of Julia Kristeva's vision and work in relation to philosophical modernity It provides a clear comprehensive and interdisciplinary analysis of her thought on psychoanalysis art ethics politics and feminism in the secular aftermath of religion Sara Beardsworth shows that Kristeva's multiple perspectives explore the powers and limits of different discourses as responses to the historical failures of Western cultures failures that are undergone and disclosed in psychoanalysis *Ethnic Minorities and Inter-ethnic Relations in Context* Karen Phaet, Antal Orkeny, 2017-10-19 This volume is based on papers presented on ethnic minorities and inter ethnic relations in Hungary and The Netherlands which were presented and discussed in three conferences and a series of meetings from 1997 1999 This work builds on comparative studies of the rise of a radical right and the mobilization of anti immigrant feelings It presents cross national comparative research due to the credence that shifting national angles is a

powerful strategic tool with which to correct national bias and to uncover submerged or overlooked aspects of specific national cases The book brings together contributions from Hungarian and Dutch scholars in the field of ethnic minorities and inter ethnic relations The two countries are used as exemplary cases of distinct ethno political patterns in Central and Western Europe Combining complementary configurational and dimensional approaches to cross national comparison the diverse forms of ethnic relations in Hungary and The Netherlands are analyzed and competing explanations of ethno political conflict or co ordination are tested in both national contexts Intercultural Explorations ,2021-11-01 Divided into four sections Asian Western Intersections Intercultural Memory Intercultural Perspectives on Women Genre Studies and The Intercultural Arts these essays from diverse hands and multiple perspectives illuminate the intersections the cross sections and the synergies that characterize significant literary texts and artistic productions Individually they exemplify the insights available in an intercultural perspective together they remind us that no culture even those that claim to be pure or those that might be regarded as isolated has escaped the influence of external influences As a result this volume is doubly synergistic one because it focuses on intercultural phenomena within a specific culture and two because they represent multiple perspectives on these phenomena
