Natives Of My Person:

Natives of My Person George Lamming, 1992 This allegorical novel tells the story of a journey of a slave ship toward San Christobal during the early colonial period

Black World/Negro Digest, 1973-03 Founded in 1943 Negro Digest later Black World was the publication that launched Johnson Publishing During the most turbulent years of the civil rights movement Negro Digest Black World served as a critical vehicle for political thought for supporters of the movement

The Luxury of Nationalist Despair A.J. Simoes da Silva, 2021-11-01 This book offers a timely critique of the work of the Barbadian novelist George Lamming examining the ways in which his novels exhibit the luxury of nationalist despair and exploring the tensions between his strongly voiced anti colonialism and his ambiguously articulated politics of self Although stressing the place occupied by Lamming and his work in the context of an anti colonial first generation of nation writing that has emerged in the formerly colonized world over the past half century the study also addresses the novelist's problematic reductive focus on a nationalist project that is ultimately deeply flawed in essence the result of an uneasy relationship between form and thesis Lamming's continued struggle with the novel as a genre especially with its ability to get beyond the cultural and political baggage of colonialism demonstrates the power of one of his most poignant assertions the colonial experience is a continuing psychic experience that has to be dealt with long after the actual situation formally ends Written from a postcolonial perspective the study draws also on contemporary feminist criticism in order to examine Lamming's characteristically simplistic depiction of female characters in terms of a greater willingness to embody the neocolonial The book starts by addressing the place Lamming's work occupies both within postcolonial writing at large and specifically within Caribbean literature Subsequent chapters provide close textual readings of Lamming's six novels paired in terms of their foregrounding of issues of race gender and class Despite a clear shift in Lamming's thematic focus on the rewriting of Caliban's project with his last novel offering a basis for a re imagining of the post colonial encounter there remains a perturbing inability to relinquish the privileged stance afforded the postcolonial intellectual in self imposed exile cultural much more than geographical The book represents an important contribution to criticism on the work of one of the most influential voices in postcolonial literature of the last fifty years

Portable Property John Plotz, 2008-07-14 What fueled the Victorian passion for hair jewelry and memorial rings When would an everyday object metamorphose from commodity to precious relic In *Portable Property* John Plotz examines the new role played by portable objects in persuading Victorian Britons that they could travel abroad with religious sentiments family ties and national identity intact In an empire defined as much by the circulation of capital as by force of arms the challenge of preserving Englishness while living overseas became a central Victorian preoccupation creating a pressing need for objects that could readily travel abroad as personifications of Britishness At the same time a radically new relationship between cash value and sentimental associations arose in certain resonant mementoes in teacups rings sprigs of heather and handkerchiefs but most of all in books *Portable Property*

examines how culture bearing objects came to stand for distant people and places creating or preserving a sense of self and community despite geographic dislocation Victorian novels because they themselves came to be understood as the quintessential portable property tell the story of this change most clearly Plotz analyzes a wide range of works paying particular attention to George Eliot's *Daniel Deronda* Anthony Trollope's *Eustace Diamonds* and R D Blackmore's *Lorna Doone* He also discusses Thomas Hardy and William Morris's vehement attack on the very notion of cultural portability The result is a richer understanding of the role of objects in British culture at home and abroad during the Age of Empire

Decolonization and the Other Sharon C. Sewell, 2010-04-16 In 1962 Jamaica and Trinidad and Tobago became independent countries Barbados followed in 1966 In the years leading up to these events the history of the British West Indies was written largely by the British the colonial power who focused on the process of decolonization and the key local players involved After independence local scholars also focused on the role of political leaders in the newly independent countries To date scholars have paid little attention to the impact of these events on the local populations of these islands *Decolonization and the Other: The Case of the British West Indies* explores the local perspectives on and reactions to events by using West Indian literature to supplement the historical record Beginning in the 1930s when local demands for political participation increased through the process of decolonization and into the early years of independence West Indian writers used their life experiences to document local reaction West Indian literature first appeared in 1950 when British publishers became interested in island authors and their novels By using the novels to supplement the historical record we can gain a better understanding of the process of decolonization and the early years of independence in the British West Indies

Theatre as Alter/"Native" in Derek Walcott Nirjhar Sarkar, 2023 *Theatre as Alter Native in Derek Walcott* attempts a close and detailed politico aesthetic analysis of his major plays At the core of this book lies the attempt to answer the question of how postcolonial artists and intellectuals have dared to imagine radically different ways of living in the face of oppositional binary choices And as the title suggests Walcott's plays carve out critical spaces for new narratives of becoming and alternative priorities entangled in contesting identities inscribed by race language and ethnicity *Theatre as Walcott* knew would be instrumental in demystifying Caribbean *Absence and Void* and generating an alternative version of dominant reality By a deliberate unseating of the Western texts filled with banal stereotypes and their representational biases and by triggering reaction to the scripts of the colonizers in profoundly paradoxical ways Walcott's plays affirm the Caribbean identity This study seeks to demonstrate how his plays open an alter native universe in terms of aesthetics dramaturgy and the performative and reclaims New World identity in terms of negotiation rather than negation undermining the claim of solid authentic culture Placing the arts at the forefront of nation building Walcott situated his plays at a crucial juncture between the passing of the Empire and the newly born Federation in his archipelago

Precarious Passages Tuire Valkeakari, 2022-06-28 *Precarious Passages* unites literature written by members of the far flung Black Anglophone diaspora Rather than categorizing novels as simply African American Black Canadian Black British or postcolonial African Caribbean this book takes an integrative approach it argues that fiction creates and sustains a sense of a wider African diasporic community in the Western world Tuire Valkeakari analyzes the writing of Toni Morrison Caryl Phillips Lawrence Hill and other contemporary novelists of African descent She shows how their novels connect with each other and with defining moments in the transatlantic experience most notably the Middle Passage and enslavement The lives of their characters are marked by migration and displacement Their protagonists yearn to experience fulfilling human connection in a place they can call home Portraying strategies of survival adaptation and resistance across the limitless varieties of life experiences in the diaspora these novelists continually reimagine what it means to share a Black diasporic identity
