Rebecca R. Moore, Damon Coletta

Natos Future Beyond Collective Defense:

NATO's Future Stanley R. Sloan,1996-12 Assesses the current state of NATO and suggests a package of political measures and institutional reforms that could be included in a new transatlantic bargain designed to revitalize the alliance and reform the organization Concludes that current members of the alliance would be well advised to strike a new transatlantic bargain among themselves before inviting additional countries to join the alliance Appendices NATO s day to day operation from deterrence to peace support operations the North Atlantic Treaty the alliance s strategic concept

NATO's Future: Beyond Collective Defense. Number 46 ,1995 CONTENTS AN OUTLINE FOR A NEW TRANSATLANTIC BARGAIN PREMISES NATO IN THE POST COLD WAR WORLD PERSPECTIVES WHICH NATO PARAMETERS THE CONTEXT FOR CHANGE PROPOSALS BEYOND COLLECTIVE DEFENSE APPENDIX A NATO S DAY TO DAY OPERATION FROM DETERRENCE TO PEACE SUPPORT OPERATIONS APPENDIX B THE NORTH ATLANTIC TREATY and APPENDIX C THE ALLIANCE S STRATEGIC CONCEPT **NATO'S Future: Beyond Collective Defense... McNair Paper 46... U.S. Department Of Defense** National Defense University,1998* **NATO's Return to Europe** Rebecca R. Moore,Damon Coletta,2017-09-11 NATO s 2010 Strategic Concept officially broadened the alliance s mission beyond collective defense reflecting a peaceful Europe and changes in alliance activities NATO had become an international security facilitator a crisis manager even outside Europe and a liberal democratic club as much as a mutual defense organization However Russia s re entry into great power politics has changed NATO s strategic calculus Russia s aggressive annexation of Crimea in 2014 and its ongoing military support for Ukrainian separatists dramatically altered the strategic environment and called into question the liberal European security order States bordering Russia many of which are now NATO members are worried and the alliance is divided over assessments of Russia s behavior Against the backdrop of Russia s new assertiveness an international group of scholars examines a broad range of issues in the interest of not only explaining recent alliance developments but also making recommendations about critical choices confronting the NATO allies While a renewed emphasis on collective defense is clearly a priority this volume s contributors caution against an overcorrection which would leave the alliance too inwardly focused play into Russia s hand and exacerbate regional fault lines always just below the surface at NATO This volume places rapid fire events in theoretical perspective and will be useful to foreign policy students scholars and practitioners alike **The Nations of NATO** Thierry Tardy,2022-10-20 War has returned to Europe and NATO stands at the forefront of the response to Russia s aggression in Ukraine But how does NATO function How do NATO member states perceive and act through the Atlantic Alliance And ultimately how do states shape NATO s cohesion and relevance in the face of threats The Nations of NATO explores national policies within the Atlantic Alliance It examines the foreign policies of 16 allies focusing on issues such as their strategic cultures relationship with the United States contributions to NATO operations levels of defence spending domestic challenges and decision making processes The recent crisis in Ukraine

has without doubt reinvigorated NATO as a military alliance but over the last decade it has also been affected by a number of challenges both endogenous and exogenous Whether the Alliance is threatened from the outside Russia terrorism China or is being undermined from within intra Alliance politics diverging threat perceptions has become an increasingly debated issue The degree to which the Alliance can adapt to evolving threats has also been at stake At the heart of these debates are NATO allies policies preferences threat perceptions and level of commitment to the shared enterprise By analysing the drivers constraints and specificities of relevant national policies the volume offers an overview of NATO s contemporary functions and challenges and constitutes an important source of data for future research and comparative analysis **NATO's**

Transformation Philip H. Gordon,1997 This timely volume assesses NATO s current accomplishments continuing challenges and potential pitfalls Leading international scholars and policymakers explore three key themes influencing NATO s future transatlantic relations the debate over enlargement and the organization s new functions Weighing the fate of an alliance poised for renewal or decline the contributors offer informed analysis and discussion of an organization that has changed profoundly over the past five years and continues to evolve in the face of an uncertain global environment Permanent

Alliance? Stanley R. Sloan,2010-07-15 This book is an interpretive analysis of transatlantic security relations from the preparation of the North Atlantic Treaty to the Obama administration *Defense of the West* Stanley R. Sloan,2020-09-11 Written in a lively and readable style by the world s leading authority on the North Atlantic Treaty Organization and US European relations *Defense of the West* is the history of a transatlantic security relationship that has endured for over seventy years This latest edition of a classic work looks at how developments inside NATO and European Union member states affect their ability to defend against external threats while preserving Western values in the era of Trump and Brexit Sloan frankly addresses the failures and shortcomings of Western institutions and member states But the book emphasizes the continuing importance of value based transatlantic security cooperation as a vital element of the defense and foreign policies of NATO and EU member states At a time of heightened tension and political turmoil at home and abroad Stan Sloan s lucid and far sighted analysis is more necessary than ever **NATO, the European Union, and the Atlantic**

Community Stanley R. Sloan,2005-07-28 Provides an interpretive history of the trans atlantic alliance and explores critical developments in US European relations The author considers the ongoing pattern of US unilateralism and its consequences as the trans atlantic and intra European debate over Iraq produced deep splits among the allies and eroded European trust in US leadership **Right Makes Might** David C. Gompert,1998 The emergence of China begs a fresh look at power in world affairs more precisely at how the spread of freedom globalization knowledge powers as partners coda on U S policy Concludes that the U S need not fear a cold war with China China s own priorities economic growth stability propel it toward legitimacy that can only come through reform toward the dominant technology
