Rawlins, 2020-09-21 This book is a detailed examination of social connections to language evaluation with a specific focus on the values associated with both prescriptivism and descriptivism The chapters written by authors from many different linguistic and national backgrounds use a variety of approaches and methods to discuss values in linguistic prescriptivism In particular the chapters break down the traditional binary approaches that characterize prescriptive discourse to create a view of the complex phenomena associated with prescriptivism and the values of those who practice it Most importantly this volume continues serious academic conversations about prescriptivism and lays the foundation for continued exploration **Processes of Change** Sandra Jansen, Lucia Siebers, 2019-08-15 The present volume brings together leading scholars studying language change from a variety of sociolinguistic perspectives complementing and enriching the existing literature by providing readers with a kaleidoscopic perspective of aspects of change in English from around 1700 until the present day The volume presents a collection of in depth studies on a broad spectrum of phonetic lexical grammatical and discourse variation drawing on historical corpora dictionaries metalinguistic
