Presence And Perception:

Presence and Perception James M. Costello, 2003 Varieties of Presence Alva Noë, 2012-03-12 The world shows up for us but as Alva Noë contends in his latest exploration of the problem of consciousness it doesn't show up for free. We must show up too and bring along what knowledge and skills we've cultivated. As with a painting in a gallery, the world has no meaning no presence to be experienced apart from our able engagement with it. Archaeologies of Presence Gabriella

Giannachi, Nick Kaye, Michael Shanks, 2012 *Archaeologies of Presence* is a brilliant exploration of how the performance of presence can be understood through the relationships between performance theory and archaeological thinking. Drawing together carefully commissioned contributions by leading international scholars and artists, this radical new work poses a number of essential questions: What are the principle signifiers of theatrical presence? How is presence achieved through theatrical performance? What makes a memory come alive and live again? How is presence connected with identity? Is presence synonymous with being in the moment? What is the nature of the co-presence of audience and performer? Where does performance practice end and its documentation begin? Co-edited by performance specialists Gabriella Giannachi and Nick Kaye and archaeologist Michael Shanks, *Archaeologies of Presence* represents an innovative and rewarding feat of interdisciplinary scholarship. **Phenomenology and the Metaphysics of Presence** W. Fuchs, 1976-08-31

Phenomenal Presence Fabian Dorsch, Fiona Macpherson, 2018 What kinds of features of the world figure consciously in our perceptual experience? Colours and shapes are uncontroversial, but what about volumes, natural kinds, reasons for belief, existences, relations? Eleven new essays investigate different kinds of phenomenal presence. **Critical Realism** Roy Wood Sellars, 1916

Being There, but How? Sebastian Dümmling, Zhenwei Wang, 2024-06-04 In phenomenological tradition, presence has been understood as fundamental for human experience: I experience the world as my lifeworld because I am present in this world. Even more, I experience myself as I only in the physical presence of the other. However, this concept of presence has become fragile through processes of medialization, especially in post-pandemic everyday life. Presence can no longer be experienced exclusively in physical proximity but also digitally or virtually. With global case studies alongside theoretical discussions by both students as well as junior and senior researchers, the volume launches a conversation between social sciences and humanities on how this change affects human experience. **Handbook of Research on**

Perception-Driven Approaches to Urban Assessment and Design Aletta, Francesco, Xiao, Jieliang, 2018-01-05 The creation of metropolitan areas is influenced by a wide array of factors, both practical and ecological. They can also be influenced by immaterial characteristics of a given area. The *Handbook of Research on Perception-Driven Approaches to Urban Assessment and Design* is a scholarly resource that assesses metropolitan development and its relation to the ecological and sustainability issues these areas face.
