Presence Human Purpose And The Field Of The Future:

Presence Peter M. Senge, C. Otto Scharmer, Joseph Jaworski, Betty Sue Flowers, 2005-08-16 Presence is an intimate look at the development of a new theory about change and learning In wide ranging conversations held over a year and a half organizational learning pioneers Peter Senge C Otto Scharmer Joseph Jaworski and Betty Sue Flowers explored the nature of transformational change how it arises and the fresh possibilities it offers a world dangerously out of balance The book introduces the idea of presence a concept borrowed from the natural world that the whole is entirely present in any of its parts to the worlds of business education government and leadership Too often the authors found we remain stuck in old patterns of seeing and acting By encouraging deeper levels of learning we create an awareness of the larger whole leading to actions that can help to shape its evolution and our future Drawing on the wisdom and experience of 150 scientists social leaders and entrepreneurs including Brian Arthur Rupert Sheldrake Buckminster Fuller Lao Tzu and Carl Jung Presence is both revolutionary in its exploration and hopeful in its message This astonishing and completely original work goes on to define the capabilities that underlie our ability to see sense and realize new possibilities in ourselves in our institutions and organizations and in society itself

Presence Peter M. Senge, 2004-01-01 En unders gelse af vores opfattelse af verden og om vores beslutninger som er med til at skabe og forandre samfundet i rene fremover

Strange Lands we were all born into one Most of us over the years have by choice or necessity molded ours into the much more familiar and predictable place we call home But strange lands are still out there everywhere By strange lands I mean those relationships teams organizations or foreign lands within which we must deal effectively with new peoples cultures places and technologies Increasingly we confront these lands abroad on global assignments for multinationals in foreign study or intercultural marriage or even as tourists We encounter them face to face or online as we participate more and more in geographically dispersed teams And of course we encounter them at home every time we wander into our culturally diverse office classroom or bar Presence in Strange Lands focuses most significantly on those literal new lands encountered on sojourns abroad though it deals significantly with these others as well Why do we journey to such lands That in a nutshell is what this book is about In spite of ecoshock frustration fatigue failure and sometimes danger what lures we sojourners from home to the road What causes us to journey to these strange lands for an assignment a career or a lifetime What keeps us there And what entices us back there again and again the job the money the adventure the people and cultures we find the challenges we encounter the stories we can later tell

That is what this book is about It is also about the tools we need to take with us to be optimally effective in these lands But most particularly it explores the experience of a sense of presence the heightened immediacy broad awareness vividness responsiveness and clarity so commonly described by sojourners on these journeys It explores what a sense of presence is what induces it what nurtures it and its key role in helping us deal with the challenges to success encountered in these lands It introduces the presence seekers sometimes presence junkies for whom a heightened presence is the allure of a life on the road And it describes what happens as we return to that once familiar land we called home Presence in Strange Lands unfolds through the words of numerous sojourners on a broad variety of journeys to very diverse lands an excerpt from one such opens this prospectus These descriptions of a sense of presence were elicited through several research projects with methodologies ranging from informal interviews to focus groups to web based forums They are intertwined with interpretation based on current research and theory to guide readers to a better understanding of their own experiences and to better deal with the challenges encountered in their own strange lands
