Presenting Poetry Composition Publication Reception:

Presenting Poetry Howard Erskine-Hill, Richard A. McCabe, 1995-06-08 The presentation of poetry to auditor and reader from the sixteenth to the twentieth centuries

The Oxford History of Classical Reception in English Literature Patrick Cheney, Philip Hardie, 2015-10-29 The Oxford History of Classical Reception OHCREL is designed to offer a comprehensive investigation of the numerous and diverse ways in which literary texts of the classical world have stimulated responses and refashioning by English writers Covering the full range of English literature from the early Middle Ages to the present day OHCREL both synthesizes existing scholarship and presents cutting edge new research employing an international team of expert contributors for each of the five volumes OHCREL endeavours to interrogate rather than inertly reiterate conventional assumptions about literary periods the processes of canon formation and the relations between literary and non literary discourse It conceives of reception as a complex process of dialogic exchange and rather than offering large cultural generalizations it engages in close critical analysis of literary texts It explores in detail the ways in which English writers engagement with classical literature casts as much light on the classical originals as it does on the English writers own cultural context This second volume and third to appear in the series covers the years 1558 1660 and explores the reception of the ancient genres and authors in English Renaissance literature engaging with the major and many of the minor writers of the period including Shakespeare Marlowe Spenser and Jonson Separate chapters examine the Renaissance institutions and contexts which shape the reception of antiquity and an annotated bibliography provides substantial material for further reading

David Jones on Religion, Politics, and Culture David Jones, 2018-06-28 David Jones author of *In Parenthesis* the great poem of World War I is increasingly recognized as a major voice in the first generation of British modernist writers Acclaimed by the likes of T S Eliot W B Yeats and W H Auden his writing was deeply informed by his Catholic faith and Welsh blood This book makes available for the first time a number of previously unpublished statements by Jones that open new perspectives on his own work and the religious political and cultural engagements of British modernism more broadly Annotated throughout with detailed commentaries exploring the historical context of each document the volume presents the restored text of Jones s essay on Hitler and includes a letter to Neville Chamberlain an unfinished essay on Gerard Manley Hopkins and the transcript of an interview with Jones a year before his death These reveal an unknown side of Jones and give fresh insight into the influences and assumptions of 20th century British literary culture

Context Collapse Ryan Ruby, 2025-01-14 Literary critic Ryan Ruby uncovers the secret history of poetry in a mock academic verse essay filled with wit and wisdom One of Publishers Weekly s Best Books of 2024 Prophet Entertainer Courtier Criminal Revolutionary Critic Scholar Nobody Epic in sweep Context Collapse is the secret history of the poet from Bronze Age Greece and Renaissance Italy to the caf s of Grub Street and the Latin Quarter from the creative writing departments of the American Midwest to the boardrooms of Silicon Valley Cheekily introducing academic discourse media studies

cybersemiotics literary sociology and heterodox economics into his blank verse study of poetry Ruby traces the always delicate dance between poets their publishers and their audiences and shows how time and time again the social technological and aesthetic experiments that appear in poetic language have prefigured radical changes to the ways of life of millions of people It is precisely to poets to whom we ought to turn to catch a glimpse as Shelley once put it of the gigantic shadows futurity casts on the present

The Oxford History of Classical Reception in English Literature David Hopkins, Charles Martindale, Norman Vance, Rita Copeland, Patrick Cheney, Philip R. The Oxford Handbook of Eighteenth-Century Satire Paddy Bullard, 2019-07-30 Eighteenth century Britain thought of itself as a polite sentimental enlightened place but often its literature belied this self image This was an age of satire and the century s novels poems plays and prints resound with mockery and laughter with cruelty and wit The street level invective of Grub Street pamphleteers is full of satire and the same accents of raillery echo through the high scepticism of the period s philosophers and poets many of whom were part time pamphleteers themselves The novel a genre that emerged during the eighteenth century was from the beginning shot through with satirical colours borrowed from popular romances and scandal sheets This Handbook is a guide to the different kinds of satire written in English during the long eighteenth century It focuses on texts that appeared between the restoration of the Stuart monarchy in 1660 and the outbreak of the French Revolution in 1789 Outlier chapters extend the story back to the first decade of the seventeenth century and forward to the second decade of the nineteenth The scope of the volume is not confined by genre however So prevalent was the satirical mode in writing of the age that this book serves as a broad and characteristic survey of its literature The Oxford Handbook of Eighteenth Century Satire reflects

developments in historical criticism of eighteenth century writing over the last two decades and provides a forum in which the widening diversity of literary intellectual and socio historical approaches to the period s texts can come together

Renaissance Paratexts Helen Smith, Louise Wilson, 2011-05-19 In his 1987 work *Paratexts* the theorist Gerard Genette established physical form as crucial to the production of meaning Here experts in early modern book history materiality and rhetorical culture present a series of compelling explorations of the architecture of early modern books The essays challenge and extend Genette s taxonomy exploring the paratext as both a material and a conceptual category *Renaissance Paratexts* takes a fresh look at neglected sites from imprints to endings and from running titles to printers flowers Contributors accounts of the making and circulation of books open up questions of the marking of gender the politics of translation geographies of the text and the interplay between reading and seeing As much a history of misreading as of interpretation the collection provides novel perspectives on the technologies of reading and exposes the complexity of the playful proliferating and self aware paratexts of English Renaissance books

British Identities and English Renaissance Literature David J. Baker, Willy Maley, 2002-05-16 Though British history and identity in the early modern period are intensively researched areas the role of literature in the construction of Britishness is under examined English history of the sixteenth and seventeenth centuries often overlooks the contribution of Ireland Scotland and Wales to the formation of the British state Historians describe Britain as a multiple kingdom with a long history of conflict In this 2002 volume a team of leading Renaissance literary critics read a broad range of texts from the period including plays of Shakespeare in light of British history Prominent historians respond to the issues raised by the volume This collection opened up a different kind of literary history and has pressing relevance for discussions of Britishness

Medieval Into Renaissance Matthew Woodcock, Andrew King, 2016 Essays on topics of literary interest crossing the boundaries between the medieval and early modern period

Reading 1759 Shaun Regan, 2013 *Reading 1759* investigates the literary culture of a remarkable year in British and French history writing and ideas Familiar to many as the British year of victories during the Seven Years War 1759 was also an important year in the histories of fiction philosophy ethics and aesthetics *Reading 1759* is the first book to examine together the range of works written and published during this crucial year Offering broad coverage of the year s work in writing these essays examine key works by Johnson Voltaire Sterne Adam Smith Edward Young Sarah Fielding and Christopher Smart along with such group projects as the *Encyclopédie* and the literary review journals of the mid eighteenth century Organized around a cluster of key topics the volume reflects the concerns most important to writers themselves in 1759 This was a year of the new and the modern as writers addressed current issues of empire and ethical conduct forged new forms of creative expression and grappled with the nature of originality itself Texts written and published in 1759 confronted the history of Western colonialism the problem of prostitution in a civilized society and the limitations of linguistic expression Philosophical issues were also important in 1759 not least the thorny question of causation while in France state

censorship challenged the Encyclopédie the central Enlightenment project Taking into its purview such texts and intellectual developments Reading 1759 puts the literary culture of this singular and singularly important year on the scholarly map In the process the volume also provides a self reflective contribution to the growing body of annualized studies that focus on the literary output of specific years
