## **Preventing Crime What Works What Doesn't What's Promising:**

**Preventing Crime**, 1998 Crime Prevention Stephen Schneider, 2014-12-16 In *Crime Prevention Theory and Practice* Second Edition Dr Schneider has updated every chapter in this reliable text using the latest research the most recently published articles and books and feedback from professors and students using the first edition Providing an introduction to dominant approaches key concepts theories and research the book supplies concrete advice on planning implementing and evaluating a crime prevention plan This edition includes a new chapter applying crime prevention through social development principles to adolescents and young adults This chapter is a recognition of the disproportionate rate of offending by adolescents and young adults as well as the distinctive risk factors faced by these groups It also emphasizes the unique nature of applying social problem solving solutions to adolescents and young adults who have been in formal contact with the criminal justice system The focus is on recidivism prevention an often ignored but critical aspect of crime prevention Laying out a systematic blueprint for a successful crime prevention project the book also updates the extant literature on crime prevention in particular the addition of research that has been published since the first edition of this book Updated case studies reflecting new data present real examples of crime prevention programs and organizations and illustrate the conceptual theoretical and empirical elements of the book Learning objectives discussion questions and exercises facilitate learning and retention and a companion website provides ancillary material for students and professors *Transcendental Meditation® in Criminal Rehabilitation and Crime Prevention* Kenneth G Walton, David Orme-Johnson, Rachel S Goodman, 2014-01-02 In contrast to the generally dismal results of various approaches to rehabilitation these consciousness based strategies have proven effective in preventing crime and rehabilitating offenders This book will introduce you to a powerful unique approach to offender rehabilitation and crime prevention In contrast to the generally dismal results of most rehabilitation approaches studies covering periods of 1 15 years indicate that this new approach employing the Maharishi Transcendental Meditation and TM Sidhi programs reduces recidivism from 35 50% *Transcendental Meditation in Criminal Rehabilitation and Crime Prevention* provides the reader with a theoretical overview new original research findings and examples of practical implementation With this book you will explore what motivates people to commit crimes with emphasis on stress and restricted self development Then you will examine the results and policy implications of applying these consciousness based techniques to offender rehabilitation and crime reduction Most chapters include tables or figures that make the information easy to understand *Transcendental Meditation in Criminal Rehabilitation and Crime Prevention* does not merely review the theory behind this innovative approach to rehabilitation and prevention but also emphasizes the practical value of the programs it describes and reports how techniques and strategies based on Transcendental Meditation have been put to use in a variety of settings This book will familiarize the reader with a rehabilitation approach so universal in its applicability that any adult or juvenile offender can begin it at the point of sentencing during incarceration or at the

point of parole the in depth background on adult growth and higher states of consciousness necessary to understand this consciousness based developmental approach the results of empirical studies conducted in prisons around the country with up to 15 years of follow up a preview of how cost effective the rehabilitation program might be implications for public policy and the judicial system including an innovative alternative sentencing program how this approach deals not only with individuals but also with the community as a whole when practiced by a small percentage of the population the TM and TM Sidhi programs may reduce crime in the larger community how these society level prevention programs may prove to be effective in reducing not only school violence in the community but if applied on sufficient scale war deaths and terrorism in the greater society

**Preventing Crime** Lawrence W. Sherman, Denise Gottfredson, Doris Mackenzie, John Eck, 1997-07-01 This report found that some prevention programs work some do not some are promising some have not been tested adequately Given the evidence of promising effective programs the report finds that the effectiveness of government funding depends heavily on whether it is directed to the urban neighborhoods where youth violence is highly concentrated Substantial reductions in national rates of serious crime can only be achieved by prevention in areas of concentrated poverty where the majority of all homicides in the nation occur where homicide rates are 20 times the national average

Transcendental Meditation in Criminal Rehabilitation and Crime Prevention Charles Nathaniel Alexander, 2003 This is a collection of papers on the use of Maharishi Transcendental Meditation and TM Sidhi programs to reduce offender recidivism The papers provide a theoretical overview new original research findings and examples of practical implementation Studies covering periods of 1 15 years indicate that employing the Maharishi Transcendental Meditation and TM Sidhi programs may reduce recidivism by 35 50%

*Successful Prevention and Youth Development Programs* Laura Ferrer-Wreder, Håkan Stattin, Carolyn Cass Lorente, Jonathan G. Tubman, Lena Adamson, 2012-02-02 From a European Perspective This book charts territory that is profoundly important and yet rarely fully understood The authors have attempted a task that has relevance to the widest possible range of professionals working with children and adolescents In describing and assessing the fields prevention and promotion they have performed an immense service to researchers in this field but also to practitioners across the spectrum from mental health nurses and doctors to teachers and psychologists from social work professionals to psychiatrists and youth counselors There are two other key elements that should be emphasized from the outset The first is that the approach in this book is truly multi disciplinary with the authors making a genuine attempt to draw upon knowledge and practice derived from all the relevant disciplines The second element which makes this book so important is that the authors have worked across countries to ensure that work in the field of intervention from both North America and from Europe should be included This is as welcome as it is refreshing There appear to be so many barriers to true collaboration between the two continents and so many examples of either North American to what is going on across the or European social scientists appearing blind border that the approach taken here should be wholeheartedly commended This book is

essentially a review but a rather special review      **What Works (and Doesn't) in Reducing Recidivism** Edward J. Latessa, Shelley J. Listwan, Deborah Koetzle, 2014-09-19 This book offers criminologists and students an evidence based discussion of the latest trends in corrections Over the last several decades research has clearly shown that rehabilitation efforts can be effective at reducing recidivism among criminal offenders However researchers also recognize that treatment is not a one size fits all approach Offenders vary by gender age crime type and or addictions to name but a few and these individual needs must be addressed by providers Finally issues such as leadership quality of staff and evaluation efforts affect the quality and delivery of treatment services This book synthesizes the vast research for the student interested in correctional rehabilitation as well as for the practitioner working with offenders While other texts have addressed issues regarding treatment in corrections this text is unique in that it not only discusses the research on what works but also addresses implementation issues as practitioners move from theory to practice as well as the importance of staff leadership and evaluation efforts      *Testimony of members of Congress and other interested individuals and organizations* United States.
