Regional Development in a Global Economy Lynn Krieger Mytelka, 1979-01-01 **Transnational Corporations and Regional Economic Integration** Peter Robson, 1993 Multinational Enterprise and Economic Analysis Richard E. Caves, 2007-07-23 The third edition of *Multinational Enterprise and Economic Analysis* surveys the contributions that economic analysis has made to our understanding of why multinational enterprises exist and what consequences they have for the workings of the national and international economies It shows how economic analysis can explain multinationals activity patterns and how economics can shed conceptual light on problems of business policies and managerial decisions arising in practice It addresses the welfare problems arising from multinationals activities and the logic of governments preferences and choices in their dealings with multinationals Suitable for researchers graduates and upper level undergraduates The third edition of this highly accessible book incorporates the many additions to our knowledge of multinationals accumulated in research appearing in the past decade **Regional Integration and Foreign Direct Investment** Centre for Economic Policy Research (Great Britain), National Bureau of Economic Research, 1997 *The Oxford Handbook of International Business* Alan M. Rugman, Thomas L. Brewer, 2001-08-31 The *Oxford Handbook of International Business* comprises twenty eight original chapters from the world s most distinguished scholars in the field of international business United as a whole these reflect both the present structure of the field and the major intellectual issues of current and likely future interest Demonstrating analytical insight and critical thinking the authors are all authorities on their chosen topics and have been active as leaders in the Academy of International Business Their chapters survey and synthesize relevant literature of recent years ensuring that the volume will be a primary reference for students and scholars throughout the social sciences The book is split into five major sections providing comprehensive coverage of the following areas the history and theory of the multinational enterprise the political and policy environment of international business strategies of multinational enterprises the financial areas of the multinational enterprise marketing finance and accounting HRM and innovation and business systems in Asia South America and the transitional economies **Cooperation among Nations** Joseph M. Grieco, 2018-08-06 In *Cooperation among Nations* Joseph M Grieco offers a provocative answer to a fundamental question in world politics How does the anarchical nature of the international system inhibit the willingness of states to work together even when they share common interests Grieco examines the capacity of two leading contemporary theories modern political realism and the newest liberal institutionalism to explain national responses to the non tariff barrier codes negotiated during the Tokyo Round of international trade talks According to his interpretation of realist theory Grieco characterizes states as defensive positionals As such they often fail to cooperate because they fear that a joint endeavor while producing positive gains for all participants might also generate disparities in gains among the partners involved Grieco demonstrates that this realist concept of defensive state positionalism gives rise to a better understanding of the

systemic constraints on international collaboration and of the impact of anarchy on states than is offered by neoliberal institutionalism Drawing on previously unreported archival materials Grieco rigorously applies the two theories to an empirical analysis of the cooperative efforts of the United States and the European Community during the 1980s to regulate and reduce non tariff trade barriers through the General Agreement on Tariffs and Trade Integration and Unequal Development Dudley Seers,Constantine V. Vaitsos,1980-06-18 **Technological Capabilities and Export Success in Asia** Dieter Ernst,Tom Ganiatsos,Lynn Mytelka,2003-09-02 What accounts for export success A team of international contributors show that learning and capability formation are critical to sustain competitiveness Through a series of case studies of firms in the textile and garment and electronics industries of five Asian economies Korea Taiwan Thailand Indonesia and Vietnam Technological Capabilities and Export Success in Asia demonstrates that cheap labour combined with currency devaluation is no longer sufficient for export success *The Political Economy of Regional Cooperation* W. Andrew Axline,1994 This book synthesizes development theory and empirical studies to present a comparative analysis of co operation in four regions in the developing world Asia ASEAN Latin America ANDEAN the Caribbean CARICOM and the South Pacific SPF **Southern Africa After Apartheid** Bertil Odén,1993
