Michael Cora, Alan Castle

Regional Economic Integration:

Regional Economic Integration in East Asia Jane Drake-Brockman, Peter Drysdale, 2002 There has been a proliferation of proposals for bilateral free trade areas in East Asia in recent times These initiatives fly in the face of the long standing support of key players in the region such as Japan for the MFN based non discriminatory trading system and the commitment to non discriminatory trade liberalisation and reform within APEC As China establishes its role in the WTO its interests are very much in an open global trading system The paper argues that the core interests of East Asian economies remain in non discriminatory global trading arrangements and prosecuting those interests within the Doha Round of trade negotiations It suggests that a way forward in sorting out the trade distorting and protectionist effects of free trade agreements would be for East Asian economies to take a lead in negotiations on strengthening WTO rules on preferential trade arrangements In terms of global economic welfare the only good preferential arrangement is one that disappears in time The paper makes specific recommendations for re vamping the rule on preferential trade arrangements with that objective in mind P 1

Multilateral Vs. Regional Economic Integration? - The Middle East and North African Region Benjamin Hätinger, 2010-09 Diploma Thesis from the year 2009 in the subject Business economics Economic Policy grade 2 3 University of Hohenheim language English abstract In this study it is intended to investigate today s actual economic interdependence of what we would call the Middle East and North African MENA region and to analyze its economic interweaving both among its member countries and into the global trading system Being aware of the complexity and breadth of this topic the author has chosen only three subset economic integration agreements both between the countries of the MENA region intraregional also comprising a subregional agreement and between the MENA region and other regions interregional for closer analysis Concerning the efforts made towards interregional economic integration this thesis concentrates mainly on the so called EU MED Partnership which was initiated at the Barcelona Conference in 1995 and aims to establish an EU Med Free Trade Area EMFTA by the year 2010 including the EU and the 12 so called Mediterranean countries which apart from Malta Cyprus and Turkey all belong to the MENA region In contrast on the intraregional level the latest initiative in 1997 will be examined where 17 out of 22 Arab League member states all of which also belong to the MENA region apart from Sudan joined to constitute a Greater Arab Free Trade Area GAFTA mainly to get rid of traditional trade barriers for goods On the smaller subregional level the Gulf Cooperation Council GCC consisting of 6 Gulf countries which plans the establishment of a common currency by 2010 will be examined more closely With GAFTA GCC and the EU MED Partnership all being in a different depth of integration and each representing one of the three different levels of integration subregional intraregional interregional the author holds the view that this choice reflects the actual state of integration in the region best In a nutshell this study tests the **Regional Integration, Economic Development and Global Governance** Ulrich Volz, 2011 This book explores a central issue of the world economy today the role of regional integration for economic development and global governance The importance of this issue comes from the fact that the globalisation process that we have been experiencing in recent decades is also a process of open regionalism To what extent does this process contribute to development The reader will find many interesting answers to this question in the book which is an outstanding contribution to this debate I welcome its publication and look forward to its influence on global debates on the relations between regional integration development and global governance From the foreword by Jos Antonio Ocampo Columbia University US The contributors expertly provide a comparative perspective on regional integration in different regions of the world while at the same time analysing the various facets of integration relating to trade FDI finance and monetary policies They provide a comprehensive treatment of the subject and offer new perspectives on the potential developmental effects of regional
