Performing Nordic Heritage Lizette Gradén, 2016-05-13 The performance of heritage takes place in prestigious institutions such as museums and archives in officially sanctioned spaces such as jubilees and public monuments but also in more mundane ephemeral and banal cultural practices such as naming of phenomena viewing

exhibitions or walking in the countryside This volume examines the performance of Nordic heritage and the shaping of the very idea of Norden in diverse contexts in North America the Baltic and the Nordic countries and examines the importance of these places as sites for creating and preserving cultural heritage Offering rich perspectives on a part of Europe which has not been the centre of discussion in the Anglophone world this volume will be of value to a wide readership including cultural historians museum practitioners policy makers and scholars of heritage ethnology and folkloristics Urban Life in Nordic Countries Heiko Droste,2023-12-18 Based on empirical studies this book investigates the particular urban history of the North from the 17th century until today in a comparative Northern perspective Urban Life in Nordic Countries is the result of a conference on Urbanity in the Periphery held in Stockholm on the occasion of the 100th anniversary of the Institute of Urban History at Stockholm University aimed at establishing the field of the urban history of the North and creating a network of urban historians of the North With a broad range of contributions from Sweden Finland Denmark Norway and Estonia the volume seeks to further discourse on the region within national and transnational lenses and to highlight possibilities for new cooperation among researchers Urban history is a transdisciplinary subject engaging not only historians but also ethnologists sociologists urban planners and cultural geographers and this book targets all scholars whose work requires a historical understanding of the Northern town European urban historians outside the region will also find this text valuable as one of the few studies to consider the urban history of the continent from a North centered viewpoint *In the Doorway to Development* Ragnhild Hutchison,2012-03-02 Drawing on literature such as the industrious revolution and consumer revolution this book is a thorough study of the economic and structural changes taking place in the Norwegian economy prior to the Industrial revolution *The Value of Arts and Culture for Regional Development* Lisbeth Lindeborg,Lars Lindkvist,2013-08-21 In this new volume 28 Scandinavian researchers and others who are active in arts and culture seek to answer the questions What has been the effect of regional and local investment in arts and culture And what positive and negative experiences have there been This book describes and analyzes the extent to which cultural investments at local and regional levels have stimulated development and led to essential processes of change for the community in general Of special interest is how different places manage to turn the tide What do their development processes involve Which ways and means do they use to go forward in order to change their paths and start anew These are just a few of the important questions addressed in this book One of the most important findings is that while you can never transfer the successful renewal of one place to another like a blueprint certain common patterns in the cultural processes are discernible The contributors to this book show the breadth of theoretical tools that can be used to increase awareness of the significance of culture for regional development Throughout the book readers will find a multitude of theoretical concepts from entrepreneurship theory organizational institutionalism and cultural economy to cultural planning and art management This book will appeal to scholars and practitioners of urban and regional studies and cultural and creative economics **Alan S.**
