Regionalization And Security In Southern Africa:

Regionalization and Security in Southern Africa N. Poku, 2001-02-02 Once torn by ideological conflicts and the dominance of command economies Southern Africa is now moving towards economic liberalism and openness In general the ascendancy of market economics is acknowledged by its governments albeit with different degrees of enthusiasm Theoretically rich and empirically engaging this timely book offers a critical insight into the ensuing debate on regionalism and the process of regionalization in southern Africa

Regionalization of Security and the Reconstruction of a Region Gladys Mokhawa, Ian Taylor, University of St. Andrews. School of International Relations, 2011 This thesis central aim is to rethink regional security cooperation in southern Africa by transcending the geopolitics that has been characteristic to the region The constructivist inspired regional security complex theory is thus preferred as an analytic device through which a non statist understanding of security within the region could be conceived Furthermore to understand how the Southern African Development Community SADC is involved in the re construction of the region the region building approach is adopted although the thesis is mindful of the fact that this approach is relevant to regions that have high levels of regionality Comprehension of the regional security cooperation could not be possible without deconstructing the taken for granted understanding of regional security cooperation To this end post modern and post structuralists traditions become sites in which the altered and reformulations of regional security cooperation can be imagined with the hope of re imagining new interpretations of regional security politics Thus linguistically inspired methodology and methods are embraced in order to unmask the taken for granted understandings and transform them into objects of discussion and criticism Therefore SADC s critical and ironic security dynamics are considered within the post modern tradition without necessarily engaging in the aesthetics of this tradition Zimbabwe as a case illuminates the limits of modernistic understanding of regional security cooperation The thesis concludes by proposing regionalist understanding of security alternatives that are based on integrated analysis of security threats and preventative approach to responses

The New Regionalism in Africa Fredrik Söderbaum, 2017-03-02 This edited volume transcends conventional state centric and formalistic notions of regionalism and theorizes conceptualizes and analyzes the complexities and contradictions of regionalization processes in contemporary Africa The collection not only unpacks and theorizes the African state society complex with regard to new regionalism but also explicitly integrates the often neglected discourse of human security and human development In so doing the book moves the discussion of new regionalism forward at the same time as it adds important insights to security and development It is organized into three parts Part I theorizes conceptualizes and analyzes the new regionalism in Africa from the point of view of the region e g West East Central and Southern Africa The national perspectives in Part II focus on the new regionalism in Africa from the point of view of particular countries or specific state society complexes such as Kenya the Democratic Republic of the Congo DRC the enclave of Cabinda Angola and Zambia Part III contains two concluding chapters

that tie the main threads of the volume together theoretically and empirically and discuss the contribution of the analytical framework the new regionalism approach NRA to the larger study of regionalism Security and Development in Southern Africa Nana Poku,2001-04-30 With the end of white dominated South Africa many observers have argued for a positive transformation of the whole of Southern Africa based upon market integration and increased cooperation among the states of the region Poku and the contributors to this collection re examine this optimistic scenerio and they point to the problems of translating good intentions into actual policies In reality the economic imbalance between South Africa and its neighbors poses severe problems for the region Far from finding a stronger ally in regional reconstruction and development the countries in the region are finding that for many in South Africa they simply do not matter that much The analysis points to greater polarization which may imply greater marginalization of the poorer countries in the region Moreover a major widening of the gap between the richer South Africa and some or all of the weaker economies may lead to increased tensions and breakdown of regional relations even to a situation detrimental to economic development in the region A provocative analysis by some of the leading politico economic thinkers of the region the volume will be of great use to scholars researchers and policy makers involved with Southern African development Regional Security Rodrigo Tavares,2009-12-16 This book is the first systematic study of the capacities of the most recognized intergovernmental organizations with a security mandate **South Africa and the Logic of Regional Cooperation** James J. Hentz,2005 Examines South Africa s role in regional political economy since its transition to democracy **The Political Economy of Regionalism** F. Söderbaum,2004-10-29 The Political Economy of Regionalism The Case of Southern Africa challenges prevailing wisdom showing how ruling political elites and big business join forces with certain external actors in order to promote market integration and economic globalization boost regimes and to satisfy group specific and even personal interests Only rarely do these forms of regionalism contribute to the poor and disadvantaged who instead opt out and survive through informal economic regionalisms or seek to create regionalisms rooted in civil society **Geopolitical Orientations, Regionalism and Security in the Indian Ocean** Dennis Rumley, Sanjay Chaturvedi,2015-07-24 First published in 2004 this book is the inaugural volume of the Indian Ocean Research Group IORG and is based on a selection of papers presented at the IORG launch in Chandigarh in November 2002 The volume emphasizes the complexity and historical and contemporary geopolitical significance of the Indian Ocean Region IOR It also propagates the necessity for increased intra regional cooperation especially in terms of economic and environmental security maritime boundaries sea lane security and ocean management in the spirit of open regionalism in order to ensure a more secure IOR In addition the volume initiates an agenda for future social science policy orientated research The book should be of particular interest to policy makers business people and academics as well as citizens of the IOR Civil Society Regionalization in Southern Africa Andréas Godsäter,2016-05-12 This book investigates civil society regionalization in Southern Africa The point of departure is

the study of new regionalism which refers to the wave of regional integration globally since the 1980s. However, whilst the current regionalism studies undoubtedly contribute to a deeper understanding of regional processes, important gaps remain, in particular the relatively scant emphasis given to civil society. This particularly relates to regions in the global South, including Southern Africa. The overarching aim of this book is therefore to analyse the dynamics of civil society regionalization in Southern Africa, both empirically and from a theoretical perspective, through analysing the cases of trade and HIV/AIDS. The study finds that CSOs can be more active in regional governance than has previously been conceptualized and are also highly active in terms of constructing regionalization through framing issues and, to a lesser extent, making identities regional. Furthermore, the book enhances knowledge of the heterogeneous nature of civil society regionalization. Lastly, it is demonstrated that going regional is only partly an autonomous process and also has to be understood as under the influence of the deeper statist and capitalist social structures marking the regional order in Southern Africa.

The New Regionalism and the Future of Security and Development B. Hettne, 2016-04-30. This book is dedicated to the implications of the new regionalism for global security and development. The fourth in the five-volume New Regionalism Series, it features contributions from the UNU WIDER project on new regionalism.
