Regule The Rule And Summa The Summa:

Regule Robertus de Handlo, 1991-01-01 The *Regule* of Robertus de Handlo and the *Summa* of Johannes Hanboys are among the few major texts of medieval English music theory The first directly influenced the latter and both deal with unique notational practices found in English music of the fourteenth century These two texts were edited by Edmon de Coussemaker in the nineteenth century in editions that have come to be recognized as seriously deficient Now Peter M Lefferts has paired them in a new critical edition that is far superior in its accuracy and scholarly underpinnings The *Regule* of 1326 provides one of the two most comprehensive views of late *ars antiqua* notational developments Handlo takes as his point of departure the first part on notation of one of those widely circulated abbreviated versions of the teachings of Franco of Cologne that begin in most sources with the motto *Gaudent brevitare moderni* The *Summa* of Hanboys written around 1375 takes Handlo as a point of departure and incorporates an abbreviated redaction of the *Regule* along with citations of other later English authorities into an exhaustively systematic survey of *ars nova* forms and rests Building on a line of development in English theory Hanboys expanded the mensural system to a total of eight figures For this edition Lefferts has thoroughly reexamined edited and appraised the single extant source of each treatise Full descriptions of these sources are provided and the documents are illustrated with a plate from each Each treatise is presented in its original Latin with a fully annotated translation on facing pages Leffert s introduction discusses the authors places the treatise in the context of the theoretical traditions of fourteenth century France and England and reviews their contents in detail Indexes of terms names and subjects are included Appendixes provide a concordance to the music examples from the *Regule* that recur in the *Summa* and transcriptions of two English motet fragments that exhibit insular notational practices discussed in the treatises Leffert s work will be seen as a major contribution to our understanding of medieval English music *The Rules Regarding Distrain and Summary Suits for Arrears of Exactions of Rent [in India], Compiled from the Regulations, the Acts ... and Circular Orders, Etc* India, 1850
